Chuck Steigerwald

Director of Strategic Planning

THROUGH:

Robert A. Schneider, PhD

Executive Director

RE:

PRTC Response to Mobility on Demand On-Ramp Project Request for Proposals

In early February, the Shared Use Mobility Center (SUMC), in partnership with the Federal Transit Administration (FTA), issued a Request for Proposals (RFP) under the banner of the Mobility on Demand On-Ramp. The On-Ramp program is designed to provide an opportunity for those with promising ideas in on-demand mobility to receive expert technical assistance to develop their ideas into business plans through a process involving community engagement, peer mentoring, research, and other supportive activities. The main intended outcome of this program is to cultivate a particular mobility on demand idea from a concept into an implementable business plan that meets a clearly identified mobility need, has received input from community stakeholders, and can be supported by the participant agency. The program is not intended for projects that have moved much beyond the conceptual stage, but would assist in moving projects from idea to implementation.

This technical assistance will support selected projects to:

- Conduct workshops in their communities to determine local mobility needs and parameters of possible projects.
- Participate in a national community of practice with peer agencies and related experts as well as in-person workshops.
- Utilize research and analysis support from SUMC and related experts.
- Collaborate one-on-one with peers and other resources to meet challenges.
- Develop a feasible mobility on demand business plan.

Madam Chair Anderson and PRTC Commissioners April 5, 2018 Page 2

In keeping with the spirit and intentions of PRTC's Strategic Plan recommendations and to leverage opportunities to move forward on the recommendations management developed and submitted a response to the RFP. PRTC has proposed developing an on-line travel information, trip booking, and payment application that would support the Wheels-to-Wellness program. These types of applications are broadly defined as Mobility as a Service, or MaaS. The idea of developing a MaaS application to support Wheels-to-Wellness grew out of PRTC's ongoing Mobility on Demand Feasibility Study. The concept has been informed by discussions with a number of service providers that took place as part of the study effort as well as staff's attention to a growing interest around the country in MaaS applications.

Put simply, a Mobility as a Service application serves as a one-stop shop for travel information. It displays a range of potential travel options for any trip the user intends to take. The application could also allow for trip scheduling and payment based on the user's selections. To date, the MaaS concept has mainly been implemented in Europe and adoption in the U.S. has been limited. By developing the concept to target a specific program and populations, PRTC hopes to lay the foundation for an application that could expand to serve the general population and potentially include services throughout the region.

In applying the MaaS concept to the Wheels-to-Wellness program, PRTC would seek to accomplish the following:

- Encourage the use of existing transit by displaying potential transit trips as a travel option alongside other modes.
- Increase the number of potential travel options through the inclusion of volunteer transportation networks, Transportation Networking Companies, and medical transportation providers.
- Improve access to information and services by putting travel information and trip scheduling in the hands of users, healthcare providers, human services agencies as well as Wheels-to-Wellness staff.
- Open the program to potential new sources of funding for innovative projects.

The Mobility on Demand On-Ramp program would provide PRTC with a unique opportunity to develop and implement this application. The assistance SUMC would provide towards building partnerships, application design, and development of a business plan would be invaluable. It should be noted that funding for project implementation does not exist within the On-Ramp program, but sources of funding would be identified as part of the business plan development.

Staff would be happy to answer any questions.

Summary: "Free bus passes for workers: Columbus's big idea to relieve a congested downtown"

Original Article by Daniel McGraw in The Guardian. Appeared October 2017

Residents and Business Owners in Old Town Manassas can understand issues caused by limited parking spaces in a downtown area. In 2015, the City of Manassas changed parking regulations to limit most parking north of the railroad tracks, to two hours. By 2017, the effect of the parking limitations were taking a toll on the bottom lines of downtown business owners. Customers wanting to park on the streets in Old Town Manassas were not returning to eat or shop in the downtown area. Employees of local businesses in downtown were parking on the streets, taking up visitor parking. Perhaps that could change with better transit options into Old Town Manassas, allowing customers to return more frequently.

Daniel McGraw's October 2017 article in The Guardian states that the City of Columbus has similar issues with parking pressures in the city's center forcing businesses further out. The question for downtown businesses is how to get people out of cars and on to public transit. The freeways into the city are packed at rush hour, and the downtown business district faces a car parking crunch, with few and expensive spaces for the 45,000 workers. Commuting to downtown Columbus became financially stressful, and they needed a solution that would be quick and simple.

McGraw states a private group working to improve downtown Columbus convinced its members (500 business and property owners) to pay for free mass transit passes for their employees. Under the arrangement, the members will be charged an annual rate of three cents per square foot of space they occupy in downtown. The fees will go to the Central Ohio Transit Authority for their worker's passes. The passes can be used on any day and on any journey — not just the commute. The program is limited to people who work downtown, turning a financial burden into an incentive.

One way the private working group sold the idea was pointing to a successful transit program at Ohio State, located just outside the Columbus downtown area. The school charges its 60,000 students a small fee for access to campus buses. They found that more people use mass transit if you make it simple and available. The private working group hopes that free worker pass will triple the participation rate on public transit to 20% in the years to come.

McGraw mentions other cities and the discounted passes they offer:

- Atlanta offers a 20% discount in monthly transit passes to downtown companies
- Seattle has an individual employer-based discount, with the business and employee often splitting the cost
- Boulder, CO has a program called EcoPass for neighborhood groups or employers buying passes for their residents or workers
- Salt Lake City has experimented with subsidies, often tied to increases in parking rates So what? Do Free Employee Bus Passes entice people to get out of their cars?

In his October 2017 article, Daniel McGraw explores downtown workers free public transport passes, a program that can possibly change the mindset of Columbus's car centric city. What

McGraw is suggesting is that downtown Columbus doesn't really have a parking problem, it has a transit shortage. What makes the program in Columbus different from other mass transit funding in the US is the way it is applied. Columbus is the first major US city to give downtown workers free public transit passes, regardless of where they work, and whether they intend to use them.

Since the capacity for parking in a downtown area is limited and a deterrent to repeat business, can transit step in and lend a helping hand? By creating better transit options into downtown Manassas from Prince William County, free city employee bus passes can help keep downtown businesses successful.

1. Savings for City Employees

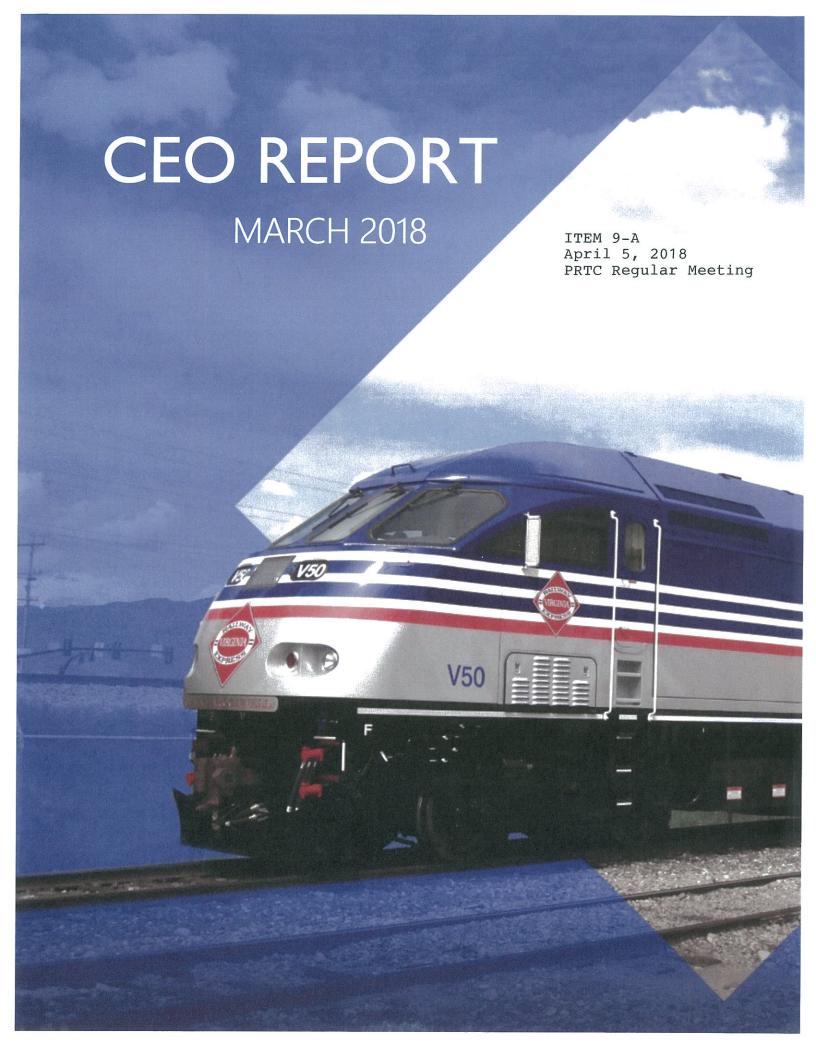

McGraw cites that transportation costs are higher for consumers than entertainment, food, or healthcare costs. If you can cut a few thousand dollars off transportation, people can then use that money to go to movies or restaurants. They will see that spending a half-hour on a bus and looking at their phone while commuting to work will be a good thing to do. Free local travel with a city employee pass allows employees to stay within Manassas City and Prince William County to spend their extra savings from transportation costs.

2. Higher retention rates with City Employees

A free city worker bus pass is forward thinking for any city in general. Most of the businesses downtown will tell you they are in a business where training and keeping quality employees is of the utmost importance. Many urban cities see that making the commute to downtown businesses easier and cheaper for employees is a key to the city's success. By moving the transit hub for western Prince William County services to downtown Manassas, you allow commuters to travel for free on a Metro Direct bus, opening up job opportunities for residents of neighboring counties/cities. A free city employee pass is a good way to keep good workers and businesses downtown.

3. Far reaching benefits

Older and nearby neighborhoods to downtown Manassas could see an uptick in house prices, with selling points as their 15-minute and free bus ride to work. Houses in these areas would benefit from higher property values and become desirable for new residents, both young and old. The downtown entertainment and hospitality sectors could experience growth and be able to retain talented employees because of the non-existent costs of commuting.

OISSION MISSION

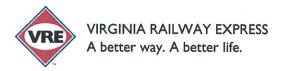

The Virginia Railway Express, a joint project of the Northern Virginia Transportation Commission and the Potomac Rappahannock Transportation Commission, will provide safe, cost-effective, accessible, reliable, convenient, and customer responsive commuter-oriented rail passenger service. VRE contributes to the economic vitality of its member jurisdictions as an integral part of a balanced, intermodal regional transportation system.

FINANCIAL REPORT

Fare revenue through the first seven months of FY 2018 is \$1.25 million above budget (a favorable variance of 5.3%) and is up 0.7% compared to the same period in FY 2017.

The operating ratio through January is 57%. VRE's budgeted operating ratio for the full twelve months of FY 2018 is 50%.

A summary of the FY 2018 financial results through January follows, including information on the major revenue and expense categories. Please note that these figures are preliminary and unaudited.

FACILITIES UPDATE

The following is a status update of VRE facilities projects:

Completed projects:

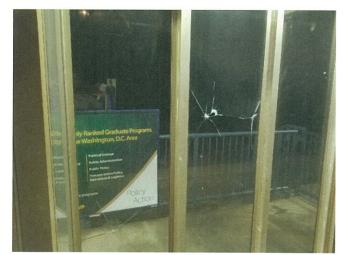

- I. Restoration of utility power due to wind storm and implementation of temporary lighting at Franconia-Springfield, Brooke, Rolling Road and Broad Run Stations and Broad Run Yard
- 2. Installation of improved LED lighting at Spotsylvania Station waiting room
- 3. Upgrades to electrical power supply for new communication cabinet at Rolling Road Station
- 4. Replacement of aging HVAC units throughout VRE system
- 5. Replacement of broken windscreen glass at Rippon Station

Temporary Lighting at Franconia-Springfield Station During Utility Power

Projects scheduled to be completed this quarter:

- I. Repairs to fascia and soffit at Woodbridge Station east building
- 2. Replacement of ADA parking signage at Brooke and Leeland Road Stations
- 3. Upgrades to electrical power supply for new communication cabinet at Burke Centre Station
- 4. Repairs to platform concrete at Manassas Station
- 5. Replacement of light poles and fixtures at Manassas Station
- 6. Installation of monitoring wells on two outfall drainage pipes at Broad Run Yard to allow for accurate discharge sampling for VPDES General Permit compliance

Rippon Station broken windscreen glass, replaced next day

Projects scheduled to be initiated this quarter:

- I. Design of platform widening at L'Enfant Station
- 2. Replacement of signage at Franconia-Springfield and Fredericksburg Stations
- 3. Painting of Franconia-Springfield Station
- 4. Continuation of painting of Woodbridge Station
- 5. Replacement of light poles and fixtures at Fredericksburg Station
- 6. Replacement of parking lot signage at Broad Run Station
- 7. Repairs to pavement and striping at Franconia-Springfield, Rippon, Quantico and Leeland Road Stations, parking lot G in Fredericksburg and Crossroads and Broad Run yards
- 8. Renovations to Alexandria Headquarters (Suite 201, office space adjacent to Suite 202, to be leased)
- 9. Replacement of tactile warning strips at various stations
- 10. Replacement of waste and recycling receptacles throughout VRE system

Ongoing projects:

- 1. Development of specifications for modernization of Woodbridge Station east elevator
- 2. Development of design of platform concrete rehabilitation and other station improvements at Fredericksburg Station (to be managed by Office of Development)
- 3. Development of IFB for Canopy Roof Replacement at the Backlick and Rolling Road Stations

UPCOMING PROCUREMENTS

Scope of Work Pending:

- Replacement of Tactile Warning Strips at Station Platforms
- Purchase of Passenger Elevators
- · Construction of the Lifecycle Overhaul and Upgrade Facility
- · Construction Management Services for the Lifecycle Overhaul and Upgrade Facility
- Program Management Services
- Graphic Design Services
- · Canopy Roof Replacement at the Backlick and Rolling Road Stations
- Passenger Railcar Truck Overhaul Services
- Modernization of VRE Woodbridge Station East Elevator
- Repair and Overhaul of Passenger Car HVAC Assemblies
- · Repair and Overhaul of Passenger Car Wheelchair Lift Assemblies
- Seat Bottoms for Passenger Cars
- Gallery Car Door Control Switches
- Automated Electric Motor Parking Brake Systems

CAPITAL PROJECTS UPDATES

AS OF FEBRUARY 2, 2018

Broad Run Expansion Study (BRX)

- Participated in Project Management Team (PMT) meetings on January 16th and January 31st
- Participated in Public Outreach meeting on January 18th
- Reviewed BRX project requirements with AECOM
- Participated in BRX environmental workshop on January 24th
- Reviewed schematic design with internally with the operations and mechanical departments
- Briefed Prince William County Transportation, Planning, and Environmental Services departmental staffs on the status of Preliminary Engineering/National Environmental Policy Act (NEPA) for Broad Run Expansion on January 26th
- Participated in meeting between Norfolk Southern (NS) and VRE on January 30th
- Requested information from Prince William County about the Bristow Battlefield and Browne's Battery and contacts
- Contacted Prince William County's Record Center to inquire about a conservation easement near the Broad Run Station
- Received information about Northern Virginia Electric Cooperative (NOVEC) that provides power to Manassas Park Station and forwarded to VHB
- Reviewed January 3rd PMT meeting notes and provided comments to AECOM and VRE Manager of Project Development
- Participated in January 16th PMT meeting
- Participated in meeting with VRE finance regarding assets for future tracking on January 16th
- Participated in phone call update with Continental Field Services, on January 16th regarding information on Early Acquisition (property) regulations for VRE review
- Participated in meeting on January 18th on project public outreach

Midday Storage Replacement Facility

- Attended Advisory Neighborhood Commissions (ANC) meeting on January 9th to hear District Department of Transportation's (DDOT) presentation on streetcar maintenance and storage location analysis as they relate to New York Yard
- Reviewed Environmental Site Assessment (ESA) for Conrail easement and provided comments to VHB
- Provided Potomac and Rappahannock Transportation Commission (PRTC) with Categorical Exclusion (CE) and attachments to send to Federal Transit Administration (FTA)
- CE was submitted to FTA on January 15th and receipt of all materials was confirmed by FTA on January 16th
- Provided comments on Central Armature development plans to Amtrak
- Received and reviewed Project Management Plan (PMP)
- Project agreement review and discussion continuing
- Completed review of e-mail blast material and update to website
- Amtrak provided comments on February 1st to the on survey-only agreement

Organized and participated in Conrail appraisal SOW review with contractor on Feb 1st; no issues and work has begun

Rolling Road Platform Extension

- Received design comments from NS. Project consultant (Dewberry) is addressing and will provide 90 percent submission for VRE review
- Received comments from Fairfax County; Dewberry to coordinate response with Fairfax
- Edited Task Order (TO) for Construction Management (CM) activities

Crossroads Real Estate Acquisition

- Submitted appraisal and review appraisal to VRE Legal
- With concurrence from Legal, appraisal and review appraisal were submitted to FTA on January 26th

Long Bridge Expansion Study

- Drafted response to alternatives to be considered in Draft Environmental Impact Statement
- Provided comments on December 8th PMT meeting notes; asked for clarification on treatment of bike/pedestrian facility
- Draft Memorandum of Agreement (MOA) with Federal Railroad Administration (FRA) comments received and forwarded for VRE Legal review
- Responded to issues raised by DDOT and FRA in email received January 19th
- Briefed VRE Chief Executive Officer on status and key issues on January 24th
- Participated in PMT meeting on January 31st

Southeast High Speed Rail Corridor (DC2RVA) Coordination

- VRE provided comments to Department of Rail and Public Transportation (DRPT) and FRA regarding draft environmental impact study document
- Participated in bi-weekly PMT call on January 23th

Lorton Platform Extension

- Final Contract Amendments Processed and executed
- Passed Final Building Inspection
- Final Contract Closeout and Final Invoice anticipated end of February/beginning of March

Quantico Station Improvements

- 60 percent design for station and 90 percent design for site, civil, drainage, track, and retaining wall in vicinity of station released to stakeholders for review and comment
- DRPT Task Order for STV to be able to complete 60-to-90 percent design was executed
- Utility location and potential conflicts coordinated on site through CSXT
- Project progress meeting held at Fredericksburg Office January 25th
- Progress Meeting held at Quantico Station on February 1st
- Met with Marine Corps Base Quantico staff regarding utility locations, coordination with ongoing work at building 1001, Retaining Wall 13 options, and potential impacts to scope and schedule on February 1st

Retaining Wall 13 location on Marine Corps Base Quantico, looking southward toward Potomac Avenue and Quantico Station

Franconia-Springfield Station Improvements

- 30 percent plan revisions are pending final emergency egress and American with Disabilities Act (ADA) access decisions as well as design review comments by CSXT engineering and operations
- Received fully executed CSXT Design Review and Flagging Agreement on January 8th
- Completed initial draft for VRE website project updates for the Communications group
- Participated in the monthly DC2RVA coordination meeting with DRPT on January 23rd

Lorton Station Improvements (Second Platform)

- 30 percent plan revisions are pending final emergency egress and ADA access decisions as well as design review comments by CSXT engineering and operations staff
- Received fully executed CSXT Design Review and Flagging Agreement on January 8th
- Completed initial draft for VRE website project updates for the Communications group
- Participated in the monthly DC2RVA coordination meeting with DRPT on January 23rd

Provided project updates to the CIP Progress Report for the February monthly meeting

Rippon Station Improvements

- Continued development of 30 percent plans and cost estimate
- Completed initial draft for VRE website project updates for the Communications group
- Participated in the monthly DC2RVA coordination meeting with DRPT on January 23rd

Leeland Road Station Improvements

- Continued development of 30 percent plans and cost estimate
- Completed initial draft for VRE website project updates for the Communications group
- Participated in the monthly DC2RVA coordination meeting with DRPT on January 23rd

Brooke Station Improvements

- Continued development of 30 percent plans and cost estimate
- Continued developing the cost tool estimate for Option 7 based on GEC phasing plan
- Completed initial draft for VRE website project updates for the Communications group
- Participated in the monthly DC2RVA coordination meeting with DRPT on January 23rd
- Requested plan revisions and updates from GEC in response to internal meetings

Alexandria Pedestrian Tunnel Project

- Reviewed meeting notes compiled by Gannet Fleming (GF) for kick-off meeting for study of fourth track, bridges and pedestrian tunnel as a solution to building the pedestrian tunnel with project consultant (Gannett Fleming)
- Participated in a conference call with Gannett Fleming regarding the vertical clearances at the King Street CSXT bridges
- Participated in work session in Gannett Fleming's Baltimore office on January 12th and a conference call with the consultant team on January 19th for analysis of fourth track, bridges and pedestrian tunnel solutions
- Met with City of Alexandria staff on January 19th for a project briefing
- Contacted Virginia Department of Transportation (VDOT) regarding potential changes to the platform in front of the historic station

Crossroads Lifecycle Overhaul & Upgrade Facility (LOU)

- Responded to AECOM on behalf of Maryland Railroad Commuter Service (MARC) regarding the Wheel Truing Machine which MARC is investigating purchasing
- Coordinated with MARC on January 10th and sent the 100 percent design cost estimate for their use
- Forwarded specifications for skylight protection from Kensington Consulting to STV to be incorporated into design of LOU building
- Provided PRTC/Northern Virginia Transportation Commission (NVTC) information to STV for outstanding permit and Best Management Practices Facility Agreement form
- · Reviewed details developed by STV for grading study on west side of project

L'Enfant (North) Storage Track Wayside Power

CSXT has completed acceptance testing

Slaters Lane/Alexandria Track 1 Access

Confirmed construction agreement executed by VRE and sent notice to CSXT

Manassas Park Station Parking Expansion

- Participated in meeting with VHB Team on January 9th to review cost assumptions and estimate work
- Discussed electrical cooperative power with VRE Chief Operating Officer on January 9th
- Participated in meeting with City of Manassas Park and design team on January 18th
- Forwarded spreadsheet of comments and responses to City of Manassas Park
- Invited VHB to submit scope of work for final design for project on January 18th

VRE JOIN US AT LORTON

On March 8th at 10am, special guests will join VRE at the Lorton station in commemorating the recent platform extension. The project marks the first in a series of platform extensions to enhance operational efficiencies. The Lorton platform extension, as with other capital projects in VRE's six year plan, represents VRE's commitment to rail safety and customer service. This event will be open to the public.

VRE's 2018 Industry Day

FROM THE **CEO**VRE'S 2ND ANNUAL INDUSTRY DAY

e held our second "Industry Day" early last month for the construction community. Now an annual event, these information sessions outline procurement requirements

DOUG ALLEN
Chief Executive Officer

and other details for the full spectrum of expansion and maintenance projects in VRE's six-year plan.

The event is a great example of VRE at work, with the ultimate goal of ensuring we receive design and construction bids on our projects from highly experienced firms who can deliver the level of quality our system requires. This year's turnout was much higher than expected and included representatives from around the country. In fact, next year we anticipate the need for a larger venue.

You too are invited to learn about our expansion and maintenance projects by way of RIDE magazine, vre.org, and by speaking to us directly at our platform events. Our Meet the Management platform series begins in May, but look for us sooner at your origin and destination stations with smaller pop up events.

Sincerely,

Ideny ale

DOUG ALLEN

Chief Executive Officer Virginia Railway Express

RAILROAD HISTORY: THE MEADE PYRAMID

Meade Pyramid, Spotsylvania

hat stands 23 feet tall, weighs 17 tons, is made entirely of granite stones and is virtually inaccessible? Those who board the VRE from Spotsylvania may recognize this mysterious monument, known as the Meade Pyramid, as a hallmark of the fleeting scenery witnessed from the moving train's window pane. The pyramid is a Civil War memorial that was built in 1898 by the Richmond, Fredericksburg and Potomac Railroad (RF&P), with help from the Confederate Memorial Literary Society.

On December 13, 1862 Major General George G. Meade's Union division, which consisted of between 3,800 and 4,500 soldiers, sought to penetrate the gap in Lieutenant General Thomas J. "Stonewall" Jackson's lines. However, sheltered by woods beyond the railroad and open field, the Confederate soldiers anticipated the attack of Meade's lone division. General Meade wrote, "Owing to the wood, nothing could be seen of them, while all our movements on the cleared ground were exposed to their view."

Meade's corps made a breakthrough at the southern end of the battlefield but were aggressively hurled back, sustaining 40% casualties, in part due to lack of reinforcements and a strong Confederate counterattack. He would later write of his loss this day, "While I deeply regret the inability of the division, after having successfully penetrated the enemy's lines, to remain and hold what had been secured, at the same time I deem their withdrawal a matter of necessity. With one brigade commander

killed, another wounded, nearly half their number hors de combat; with regiments separated from brigades, and companies from regiments, and all the confusion and disorder incidental to the advance of an extended line through wood and other obstructions; assailed by a heavy fire, not only of infantry but of artillery—not only in front but on both flanks—the best troops would be justified in withdrawing without loss of honor."

Thirty-five years later, the Confederate Memorial Literary Society contacted Virginia railroad executives asking them to construct markers at historically significant sites along their lines. While the society simply wanted a sign erected, the president of the RF&P embraced the proposal. On March 31, 1898, RF&P workers assembled the pyramid using unhewn Virginia granite to memorialize the battle in a location visible to train travelers.

The practically inaccessible location and mysterious nature of the Meade Pyramid serves as a reminder of the many stories which compose Virginia's rich history. As residents of the state, it can be easy to overlook the significance embedded in something as inconsequential as the view from your commute. The next time you find yourself glancing outside of the window, remember that every inch of that view has a story to be told.

On March 31, 1898, RF&P workers assembled the pyramid using unhewn Virginia granite to memorialize the battle in a location visible to train travelers.

Artistic Expression (Free)

Through April 1, Tuesday - Sunday from 10:00 AM - 5:00 PM

Manassas Museum, 9101 Prince William Street

This annual show will feature the art of students from Osbourn High School. Various mediums and types of art will be featured in this exhibit.

Crow's Nest: An Ecological Gem in Stafford County

March 8 at 6:00 PM

Gari Melchers Home and Studio 224 Washington Street, Falmouth, VA 22405

An illustrated presentation by Mike Lott, Regional Supervisor/ Northern Region Steward. Free admission. Pavilion at Gari Melchers Home and Studio. Contact: Michelle Crow-Dolby at mdolby@umw.edu or 540-654-1851.

Annual Dog Easter Egg Hunt

March 24 at 1:00 PM

Memorial Park, 1401 Kenmore Avenue, Fredericksburg, VA 22401

Come dressed to enter the doggie costume contest to compete for prizes! This is a great way to get out and play with your favorite furry friend. Dogs must be at least 12 weeks old. A small dog area will also be available for dogs under 15lbs. All dog parents must sign a release acknowledging their dog(s) are current on shots and are healthy. On-site registration will be available only if space remains. For information, call 540-372-1086 or visit www.FredParksRec.com

Coastal Shore Guided Hike (\$7.50)

March 31 at 11:00 AM through April 1 at 1:15 PM

Leesylvania State Park, 2001 Daniel K. Ludwig Drive, Woodbridge, VA 22172

A 3.5 mile Coastal Shore Guided Hike to learn about the park's history. Have pre-bagged lunches around a bonfire at the Breakwater Store. For only \$7.50, you will be provided with your choice of sandwich, bag of chips, cookie, and a bottled drink. Please call the Visitor Center to register 24 hours in advance of the event at 703-583-6904.

Harvey (\$19-\$22, plus service fees)

April 21 - May 12 (Wednesday-Saturday 8:00PM, Sunday 3:00PM)

600 Wolfe Street, Alexandria, VA 22314

Imaginary friends can be whoever - or whatever - you want them to be, even a six and half foot tall rabbit. When Elwood starts introducing his imaginary rabbit friend, Harvey, to guests at a party, his sister can no longer tolerate his inebriated antics and worries about her family being exposed to this imaginary rabbit. However, after years of living with Elwood (and Harvey), she begins to start seeing him herself. Tickets: www.thelittletheatre.com / 703-683-0496

DC2RVA PROJECT?

he Federal Rail Administration (FRA) and the Virginia Department of Rail and Public Transportation (DRPT) are working to improve intercity passenger rail service in the north-south corridor between Washington, D.C. and Richmond, VA. These passenger rail service and rail infrastructure improvements are collectively known as the Washington, D.C. to Richmond Southeast High Speed Rail (DC2RVA) Project.

The purpose of the DC2RVA Project is to increase capacity to deliver higher speed passenger rail, expand commuter rail, and accommodate growth of freight rail service in an efficient and reliable multimodal rail corridor. The DC2RVA Project will enable passenger rail to be a competitive transportation choice for intercity travelers between Washington, D.C. and Richmond, and beyond. It extends 123 miles along an existing rail corridor owned by CSX Transportation (CSXT) from the Long Bridge across the Potomac River in Arlington, VA, to Centralia, VA in Chesterfield County, south of Richmond.

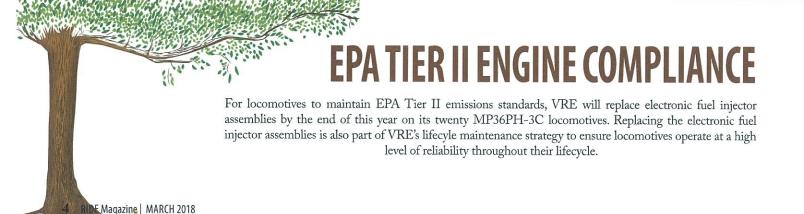

PROPOSED IMPROVEMENTS OF THE DC2RVA PROJECT INCLUDE:

- · Construct additional main line tracks and track crossovers
- Straighten curves in existing tracks to allow for higher speeds
- Improve intercity passenger rail stations and station areas
- Improve sidings and signals
- Implement roadway crossing safety improvements

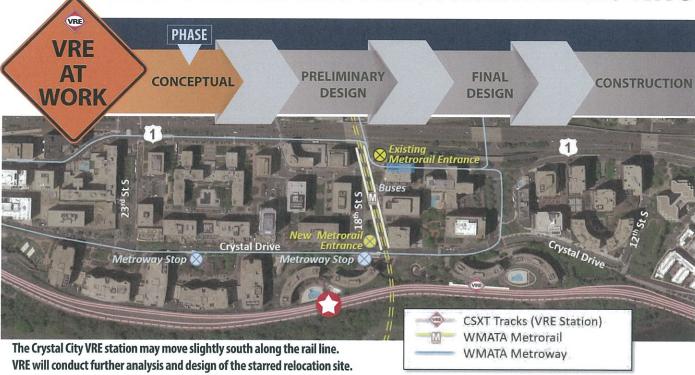

THE DC2RVA PROJECT WOULD:

- Improve service frequency, travel time, and on-time performance of intercity passenger trains by adding capacity
- Accommodate freight and commuter rail service
- · Include rail infrastructure and safety improvements
- Include passenger service upgrades
- · Address rail congestion in the Richmond area

VRE'S CRYSTAL CITY STATION MAY BE MOVING

rystal City is one of the busiest VRE stations served by both the Fredericksburg and Manassas Lines. The station however faces a number of operational challenges including but not limited to passenger bottlenecks on the platforms and train bottlenecks on the tracks. To begin determining how to best overcome the site's challenges and to support future system growth, VRE recently completed an evaluation of three potential Crystal City station relocation sites. After careful consideration of the findings, the Arlington County Board, VRE staff and the VRE Operations Board recognized the starred location in the above image as the most favorable station site, and as such, the site will move forward in the process for further analysis and design.

Site Challenge 1. The existing Crystal City platform, at 400 feet, is too short to effectively serve longer trains as it only allows all train car doors to open on a four-car or less train set. The inability for riders to access all train doors creates bottlenecks when getting on/off the train, as currently VRE runs several eight-car train sets. Further, as ridership increases in parallel to population growth, VRE plans to run longer trains. Eventually, an 850-foot platform will be needed for riders to access all doors on future 10-car trains. At the current station location, there is limited space to expand the platform due to the curvature of the tracks and the narrow railroad access.

Site Challenge 2. The Crystal City station platform has access to only one of three existing rail tracks, requiring VRE trains to always use that track. As these tracks are heavily trafficked by other passenger and freight trains and there are only a few locations where trains can switch tracks, all trains on this track must accommodate for the stop at this station. The conceptual design at the starred location incorporates an island platform allowing trains to access the station on two tracks. These conceptual plans also accommodate a future fourth track currently under design by the Virginia Department of Rail and Public Transportation's D.C. to Richmond, Va. (DC2RVA) project (page 4).

Site Challenge 3. The current City City station site is not well connected to other forms of public transportation. The relocation of the Crystal City station will make it easier for riders to access a new Metrorail station entrance on Crystal Drive and the Crystal City-Potomac Yard Transitway. It will also be a shorter walk to many office locations.

What's Next? The timeframe and funding for the final design and construction of this project are yet to be determined. To date, funding has been provided by The Northern Virginia Transportation Authority (NVTA) and the Commonwealth of Virginia. VRE expects to announce a public meeting in late spring/early summer.

Q: WHY CAN'T OPERATIONAL TESTING BE DONE SOME OTHER TIME?

A:

In order to ensure your safety as passengers on VRE commuter trains in our heavily used rail corridors, the operating officials of Amtrak, CSX, VRE, Keolis and Norfolk Southern periodically conduct "operational tests" on the crews that operate our trains. These teams, on a monthly basis, create unannounced "tests" and "observations" of employee compliance with the Railroad Codes of Operating Rules.

WHAT'S BREWING AT THE QUANTICO TRAIN STATION?!

he Town of Quantico has a historic influence dating back to 1654 when it was originally called Potomac. In 1872, the same year the name changed to Quantico, their original train station was built.

This small town, surrounded by the Marine Corps Base, is unquestionably unique. In addition to its historic splendor, this town boasts Ricks Roasters Coffee shop housed in the town's train station served by Amtrak and VRE trains.

The story of Ricks Roasters Coffee began when its owners, Sean and Keely Ricks, had a dream of opening their own business while he was on active duty at the Pentagon and she was a school social worker. They started roasting coffee in their house ... now their dream has grown to its own production facility in south Stafford supplying coffee to over 150 establishments in the mid-Atlantic region, including the Quantico train station.

"Sean and Keely are great people," said Chris Henry VRE Director of Rail Operations. "They have been through a lot, so it is exciting for us to see their growth and success. We also know our riders are happy to have great coffee available every morning," he added.

From left to right: Keely, Danielle and Robin

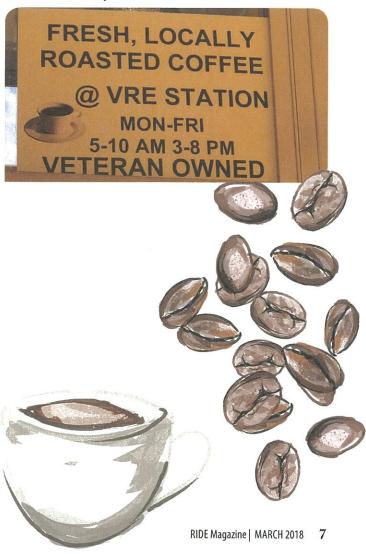

Since 2013, Ricks Roasters Coffee Shop has been serving its freshly roasted coffee to commuters at the Quantico station. Monday through Friday, the shop opens at 5 AM to make sure those passengers either arriving or departing on the first VRE train have a freshly brewed cup of coffee to start the day. The shop is open until 10 AM then reopens at 3 PM until 8 PM to serve the evening commuting rush.

Rick Roasters Coffee's dedication to serving riders doesn't end at hot beverages, and the shop believes in supporting the local economy. Tuesday through Thursday, a VRE conductor delivers a batch of freshly baked doughnuts from Fredericksburg's delicious Paul's Bakery for morning passengers to enjoy. Also, in addition to being the shop's manager, Robin Long is an owner in North Stafford Farmers Market and supplies snacks and meal options from local farmers market vendors.

Ricks Roasters offers a variety of coffee flavors. From the most popular blend of Four Horsemen to Bourbon Barrel to the latte of the month – there is a beverage for every taste. Their focus is providing a delicious product that everyone can enjoy.

In addition to the variety of food options, riders can also pick up and purchase VRE tickets at the shop.

Even if your destination is not Quantico, stop by Ricks Roasters Coffee shop. You'll get a taste of history, doughnuts, local fare, and of course, freshly brewed coffee!

Get Noticed With VRE Advertising

VRE carries 20,000 passengers every workday and 70 percent of passengers have an annual household income of more than \$100,000.

Reach our passengers with advertising opportunities on our platforms, in our trains and through our award-winning RIDE Magazine.

Vice-Chairman Cristol chaired the meeting since Chairman Nohe was on vacation. Vice-Chairman Cristol called the meeting to order at 9:06 A.M. Following the Pledge of Allegiance, Roll Call was taken.

Approval of the Agenda – 3

Mr. Kelly moved, with a second by Mr. Smedberg, to approve the Agenda. The vote in favor was cast by Board Members Anderson, Caddigan, Cook, Cristol, Dudenhefer, Jenkins, Kelly, McLaughlin, Sebesky, Smedberg and Trampe.

Approval of the Minutes of the February 16, 2018 Operations Board Meeting - 4

Ms. Caddigan moved, with a second by Mr. Kelly, to approve the Minutes. The vote in favor was cast by Board Anderson, Caddigan, Cook, Cristol, Dudenhefer, Jenkins, Kelly, McLaughlin, Sebesky and Smedberg. Mr. Trampe abstained.

Chairman's Comments -5

Vice-Chairman Cristol remarked VRE has a few things to celebrate from the recent General Assembly Session. She asked Mr. Swartz and Ms. Siebert to give an update on legislation passed in the General Assembly. Mr. Swartz reviewed VRE's three legislative priorities, which include a gas tax floor, transit capital funding to fix the fiscal cliff, and dedicated funding for VRE. Legislation was passed on a gas tax floor and \$15 million in dedicated funding for VRE as well as the creation of a Commuter Rail Operating and Capital (CROC) fund. Unfortunately, no legislation was passed to address the transit capital funding.

Ms. Siebert thanked all of VRE's partners (NVTC, PRTC, NVTA, Northern Virginia Chamber of Commerce, and the jurisdictions) for all their hard work. It was a team effort. Legislation passed that provides \$154 million for WMATA, \$15 million for VRE and a gas tax floor. She stated it is important to keep working forward, as the governor will most likely amend the bills. In response to a question from Mr. Smedberg, Ms. Siebert noted the Veto Session and a Special Session on the budget will occur on April 18th. Any changes made by the governor must occur by April 9th. The two bills (HB1539 and SB856) awaiting the governor's signature are virtually identical. It is anticipated the governor will amend one version. The General Assembly cannot amend bills presented during the Veto Session.

[Ms. Bulova arrived at 9:13 A.M.]

Mr. Kelly commended VRE with developing a focused legislative agenda with specific requests, which resulted in some success. He stated the fiscal cliff still needs to be addressed since the dynamics are not going to change. Regarding the gas tax floor, much of the additional revenue will be shifted to VRE. He stated the City of Fredericksburg understands the importance of VRE, but the smaller jurisdictions don't have another funding source for local projects. Ms. Siebert explained the bill still leaves \$7.5 million in additional gas tax revenue for PRTC jurisdictions. Mr. Kelly expressed his concern that only regional funds are being used to mitigate the problem. Vice-Chairman Cristol stated VRE staff will be analyzing the implications in reductions in NVTA funding.

Board members acknowledged all the hard work of Ms. Siebert, along with VRE, NVTC, PRTC and jurisdictional staff. Vice-Chairman Cristol announced the Legislative Committee will meet immediately after this meeting to discuss these legislative issues in more depth. She invited all Board Members to attend.

Vice-Chairman Cristol stated the Operations Board photo has been rescheduled to the April meeting.

<u>Chief Executive Officer's Report -6</u>

On behalf of the VRE staff, Mr. Allen thanked Mr. Swartz and Ms. Siebert, as well as Secretary of Transportation Valentine, Deputy Secretary Donohue and DRPT Director Mitchell and her staff, for advancing VRE's legislative interests in Richmond. He stated it is rewarding to have a good relationship with the Commonwealth.

Mr. Allen reported on March 13th an Amtrak auto train stuck a vehicle near the Lorton Station. VRE service was impacted and he thanked PRTC for providing bus bridges. He also reported on-time performance for February was 95 percent system wide and average daily ridership was 19,000.

Mr. Allen acknowledged Kristin Nutter, who was recently promoted to Manager of Purchasing and Contract Administration. He recognized VRE's Chief Safety, Security and Compliance Officer, Greg Deibler, who was selected as Railway Age's Fast Trackers – Top 10 Under 40, which identifies the top 10 rising industry stars making an impact in their respective fields and represent the "best of the best." Mr. Allen announced Jennifer Young, VRE's Senior Communications Specialist, participated as one of five finalists for the 2018 APTA Call Center Challenge, where they faced off in a national competition to test their customer services and problem-solving skills. Mr. Allen also introduced Charlotte Nourse, VRE's new Communications Specialist.

Mr. Allen gave some highlights of the Lorton Station Extension Project Ribbon Cutting Ceremony on March 15th. As part of VRE's Natural Growth Strategy, platforms will be extended at all stations. Rolling Road Station is the next station for improvements. He also reported VRE is also on track to meet the Positive Train Control deadline on December 31, 2018.

Mr. Allen asked Ms. Hoeffner to give a presentation on the Broad Run Expansion project. Ms. Hoeffner stated VRE was awarded funding from NVTA through the I-66 Outside the Beltway Concessionaire Payment to make comprehensive improvements to the Broad Run Station, including improvements to the station, parking, and maintenance and storage facility.

Ms. Hoeffner explained the current surface parking lot has 1,081 spaces and 88 percent of passengers arrive via Piper Lane, which connects to Route 28. VRE is looking for ways to mitigate impacts to Piper Lane and distribute traffic to other roads. She reviewed the complexity of the expansion project, as well as preserving opportunities for future expansion. There are a number of constraints that impact where VRE can expand, including vertical and height restrictions associated with airport operations. To accomplish parking expansion, VRE is looking at various sites within the footprint of the existing

station site as well as adjacent to the station. She identified private land on the other side of the tracks that would provide space for additional parking as well as an additional point of access to help distribute traffic. Staff has concluded a preferred concept for the yard expansion and station platform, while parking alternatives are still being explored. Staff plans to come back with a preferred concept in April.

Mr. Cook asked why VRE is not considering a parking garage facility. Ms. Hoeffner explained with the timeframe to spend the NVTA funding by Toll Day 1 (2022) of the I-66 Outside the Beltway project, it could be a challenge to complete improvements and get through the design, engineering and construction of a parking structure. Surface parking is more achievable to meet the near-term timeline. VRE plans to present long-term alternatives for future expansion, which could include a parking structure. Mr. Cook and Mr. Smedberg both noted five years seems like enough time to construct a parking structure. Mr. Cook stated VRE does not need a new design plan and suggested using a design plan from another station, such as Burke Centre. Mr. Allen also noted other challenges, including height restrictions, with the station being so close to Manassas Airport's flight path. Mr. Allen stated staff can do more analysis on a parking garage facility and bring back more information to the Board. Vice-Chairman Cristol directed staff to return with a cost benefit analysis of a parking structure versus surface parking.

VRE Riders' and Public Comment - 8

There were no rider comments.

Authorization to Issue a Request for Proposals for Facility Security Services - 9A

Mr. Allen stated the Operations Board is being asked to authorize him to issue a Request for Proposals (RFP) for Facility Security Services for a period of a base year and four option years. Resolution #9A-03-2018 would accomplish this.

Mr. Allen explained VRE uses a multi-pronged strategy to protect its assets and personnel, including armed security officers at the maintenance and storage facilities and other locations. VRE's current contract will expire in November 2018 and there needs to be a seamless transition to a new contract. After evaluation of the proposals, staff will return to the Board to request authorization to award the contract.

Mr. Kelly moved, with a second by Ms. Bulova, to approve Resolution #9A-03-2018. The vote in favor was cast by Board Members Anderson, Bulova, Caddigan, Cook, Cristol, Dudenhefer, Jenkins, Kelly, McLaughlin, Sebesky, Smedberg and Trampe.

Authorization to Amend the Contract for Safety and Security Consulting Services - 9B

Mr. Allen stated the Operations Board is being asked to authorize him to amend the current Safety and Security Consulting Contract with Kensington Consulting, LLC, of Kensington, Maryland, to increase the authorization in the amount of \$100,000 for a total amount not to exceed \$500,000. Resolution #9B-03-2018 would accomplish this.

In response to a question from Mr. Smedberg, Mr. Allen stated as design and construction work has increased, the current authorization of \$400,000 for this contract has been fully

committed at the end of December 2017 (the first month of the second-year option). The amount being requested for this amendment will allow for additional consulting services to continue through the second option year of this contract, ending November 2018, as VRE goes through the procurement process for the next Security Consulting Services contract.

Ms. Bulova moved, with a second by Ms. Caddigan, to approve Resolution #9B-03-2018. The vote in favor was cast by Board Members Anderson, Bulova, Caddigan, Cook, Cristol, Dudenhefer, Jenkins, Kelly, McLaughlin, Sebesky, Smedberg and Trampe.

<u>Authorization to Amend the Contract for Fare Collections Equipment and Software</u> Maintenance – 9C

Mr. Allen stated the Operations Board is being asked to authorize him to execute a contract amendment with Scheidt & Bachmann for maintenance of the fare collection system equipment and software. The term of the amendment is one additional year at a cost of \$702,820, which includes a 2.6 percent escalation based on the Producer Price Index (PPI). The total amount of this amendment is \$702,820, with no contingency, bringing the total contract authorization amount from \$14,048,177, to an amount not to exceed \$14,750,997. Resolution #9C-03-2018 would accomplish this.

Mr. Jenkins moved, with a second by Ms. Bulova, to approve Resolution #9C-03-2018. The vote in favor was cast by Board Members Anderson, Bulova, Caddigan, Cook, Cristol, Dudenhefer, Jenkins, Kelly, McLaughlin, Sebesky, Smedberg and Trampe.

Authorization to Execute a Contract for Insurance Brokerage Services - 9D

Mr. Allen stated the Operations Board is asked to authorize him to execute a contract with Aon Risk Services, Inc., of Baltimore, Maryland for Insurance Brokerage Services in the amount of \$740,000, plus a five percent contingency of \$37,000, for a total amount not to exceed \$777,000, for a base period of three years and two option years, with the CEO exercising the option years at his discretion. Resolution #9D-03-2018 would accomplish this.

Ms. Smedberg moved, with a second by Ms. Bulova, to approve Resolution #9D-03-2018. The vote in favor was cast by Board Members Anderson, Bulova, Caddigan, Cook, Cristol, Dudenhefer, Jenkins, Kelly, McLaughlin, Sebesky, Smedberg and Trampe.

<u>Authorization to Issue a GPC Task Order for the FY 2018 National Transit Database Data</u> <u>Collection – 9E</u>

Mr. Allen stated the Operations Board is being asked to authorize him to issue a General Planning Consultant (GPC) Task Order to Vanasse Hangen Brustlin, Inc. (VHB) for National Transit Database (NTD) ridership data collection for FY 2018 in the amount of \$128,274, plus a 10 percent contingency of \$12,827, for a total not to exceed \$141,101. Resolution #9E-03-2018 would accomplish this.

Vice-Chairman Cristol asked how automatic passenger counters factor into this work. Mr. Allen explained once the counters are installed, calibrated, and verified consistent, they will

help supplement this work and make it easier to submit NTD data. It could result in some cost savings.

Ms. Caddigan moved, with a second by Mr. Kelly, to approve Resolution #9E-03-2018. The vote in favor was cast by Board Members Anderson, Bulova, Caddigan, Cook, Cristol, Dudenhefer, Jenkins, Kelly, McLaughlin, Sebesky, Smedberg and Trampe.

Spending Authority Report -10A

The written report includes one task order in the amount of \$80,809 to NVE, Inc. under the Maintenance Services for VRE Facilities Contract for installation of a booster pump at the Crossroads Yard. There were no questions or comments.

Operations Board Member Time - 12

Ms. Caddigan wished everyone a happy Saint Patrick's Day.

<u>Adjournment</u>

Without objection, Vice-Chairman Cristol adjourned the meeting at 9:56 A.M.

Approved this 20th day of April 2018.

Martin Nohe Chairman

Maureen Caddigan Secretary

CERTIFICATION

This certification hereby acknowledges the minutes for the March 16, 2018 Virginia Railway Express Operations Board Meeting have been recorded to the best of my ability.

Rhonda Dilchest

Rhonda Gilchrest

Resolution 9A-03-2018

Authorization to Issue a Request for Proposals for Facility Security Services

WHEREAS, VRE remains committed to protecting passengers, employees and equipment from security risks at VRE facilities; and,

WHEREAS, on October 10, 2013, the VRE Operations Board authorized the CEO to enter into a contract for security services; and,

WHEREAS, the current contract will expire in November 2018; and,

WHEREAS, preparations must be made to ensure a seamless transition to a new contract;

NOW, THEREFORE, BE IT RESOLVED THAT, the VRE Operations Board does hereby acknowledge the determination made by the VRE Contract Administrator in accordance with the VRE Public Procurement Policies and Procedures that competitive bidding is not practicable, nor fiscally advantageous to VRE, and that competitive negotiation is the appropriate method to procure these services; and,

BE IT FURTHER RESOLVED THAT, the VRE Operations Board does hereby authorize the Chief Executive Officer to issue a Request for Proposals for Facility Security Services.

Chairman

Approved this 16th day of March 2018

laureen Caddigan

Resolution 9B-03-2018

Authorization to Amend the Contract for Safety and Security Consulting Services

WHEREAS, the VRE Operations Board approved the current Safety and Security Consulting Contract with Kensington Consulting, LLC, of Kensington, Maryland on October 16, 2015, for a period not to exceed five years and an amount not to exceed \$400,000; and,

WHEREAS, the number of active projects has increased, as has demand for third-party safety and security design certification; and,

WHEREAS, the current contract's spending authorization has been fully committed and additional work is anticipated before a new contract can be procured;

NOW, THEREFORE, BE IT RESOLVED THAT, the VRE Operations Board does hereby authorize the Chief Executive Officer to amend the current Safety and Security Consulting Contract with Kensington Consulting LLC of Kensington, Maryland, to increase the authorization in the amount of \$100,000, for a total amount not to exceed \$500,000.

Chairman

Approved this 16th day of March 2018

Maureen Caddigan

Resolution 9C-03-2018

Authorization to Amend the Contract for Fare Collections Equipment and Software Maintenance

WHEREAS, on June 16, 2000, the VRE Operations Board authorized a contract with Scheidt & Bachmann for the delivery of a new fare collections system; and,

WHEREAS, on October 31, 2002, the system was accepted and maintenance support began; and,

WHEREAS, the current equipment and software maintenance agreement is set to expire on June 30, 2018; and,

WHEREAS, the proprietary nature of the fare collections system and warranty considerations related to the latest system upgrade makes Scheidt & Bachmann the only vendor option to perform the ongoing system maintenance work;

NOW, THEREFORE, BE IT RESOLVED THAT, the VRE Operations Board does hereby authorize the Chief Executive Officer to execute a contract amendment with Scheidt & Bachmann for maintenance of the Fare Collections system equipment and software for an additional year, in the amount of \$702,820, with no contingency, bringing the total contract authorization amount from \$14,048,177, to an amount not to exceed \$14,750,997.

Approved this 16th day of March 2018

Maureen Caddigan

Resolution 9D-03-2018

Authorization to Execute a Contract for Insurance Brokerage Services

WHEREAS, the Virginia Department of Risk Management (DRM) and VRE agreed in 2007 to transfer the function of procuring insurance coverage to VRE; and,

WHEREAS, the Operations Board authorized the CEO to issue a Request for Proposals for Insurance Brokerage Services on October 20, 2017 to solicit proposals from prospective offerors to provide property, terrorism, automobile and liability insurance brokerage services in addition to consulting services for risk management; and,

WHEREAS, a competitive procurement process was undertaken, yielding two proposals; and,

WHEREAS, the proposal received from Aon Risk Services, Inc. of Maryland was determined by a technical evaluation team to be the most responsive; and,

WHEREAS, the Operations Board's approval of this procurement does not represent its independent assessment of the candidate's responses to the solicitation or of each step in the procurement process followed by staff; rather, the Operations Board's action is premised upon its conclusion, after review of the information before it, that the process used by the staff was in accordance with law and that the staff recommendation appears to be reasonable;

NOW, THEREFORE, BE IT RESOLVED THAT, the VRE Operations Board does hereby authorize the Chief Executive Officer to execute a contract with Aon Risk Services, Inc. of Maryland for Insurance Brokerage Services in the amount of \$740,000, plus a 5% contingency of \$37,000, for a total amount not to exceed \$777,000, for a base period of three years and two option years, with the VRE CEO exercising the option years at his discretion.

Approved this 16th day of March 2018

Martin Nohe Chairman

Maureen Caddigan

Resolution 9E-03-2018

Authorization to Issue a GPC Task Order for the FY 2018 National Transit Database Data Collection

WHEREAS, as a recipient of Federal Urbanized Area Formula (§5307) grant funds, VRE is required to report ridership, passenger miles and other performance data to the National Transit Database on an annual basis; and,

WHEREAS, the data required to report these statistics is collected annually via a boarding/alighting survey of VRE trains; and,

WHEREAS, Vanasse Hangen Brustlin, Inc., VRE's General Planning Consultant contractor, has the qualifications to collect this data and has presented an acceptable proposal to perform said services;

NOW, THEREFORE, BE IT RESOLVED THAT, the VRE Operations Board does hereby authorize the Chief Executive Officer to issue a General Planning Consultant Task Order to Vanasse Hangen Brustlin, Inc. for National Transit Database data collection for FY2018 in the amount of \$128,274, plus a 10% contingency of \$12,827, for a total not to exceed \$141,101.

ITEM 9-C April 5, 2018

PRTC Regular Meeting

VIRGINIA RAILWAY EXPRESS BROAD RUN EXPANSION

VRE Operations Board March 16, 2018

A BETTER WAY. A BETTER LIFE.

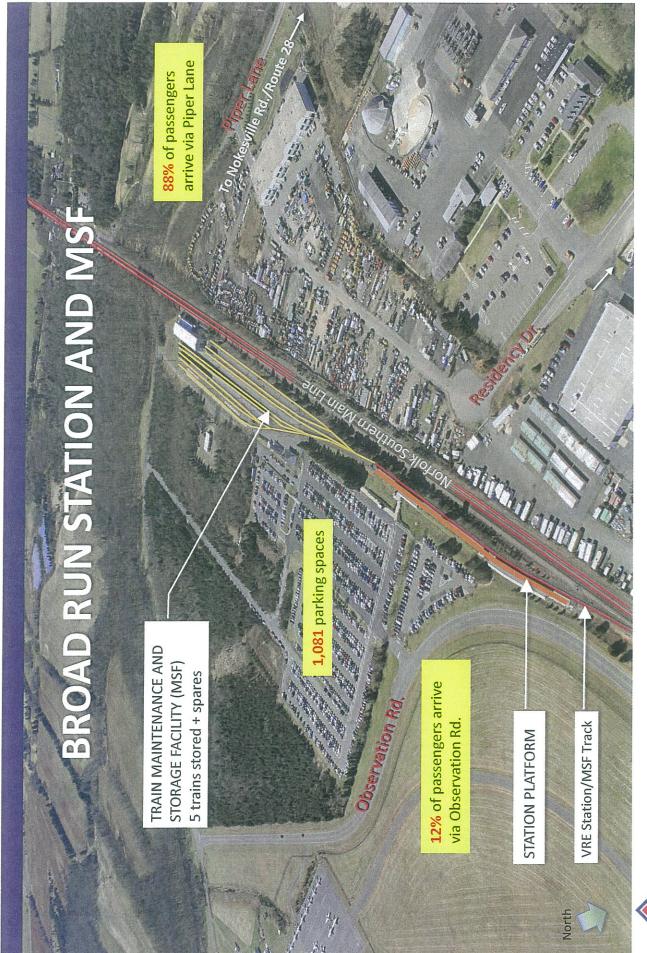

BROAD RUN STATION AND MSF

- Broad Run Station
- Busiest Manassas Line station
- Strong demand forecast for the future
- Parking is near capacity (~ 93% utilization)
- Broad Run maintenance and storage facility (MSF)
- Used for overnight train storage and maintenance
- Train storage is at capacity

	2017	2030	2040 18 Daily Trains	2040 32 Daily Trains
Boardings	1,200	1,500	1,700	2,100
Parking Demand	1,000	1,400	1,600	1,900

2017 boardings from 10/4/17 VRE Master Agreement Survey; future year forecast from VRE Travel Demand Model (VTDM), 11/17/17

PROJECT ELEMENTS

- Increase station parking to 1,500 spaces (+400 spaces)
- Longer storage tracks at MSF
- Store longer trains
- 10 additional coaches (1,300 peak seats)
- Relocation and expansion of crew/MSF facilities
- 3.4 miles of third track on NS main line
- Relocate station platform to enable MSF expansion and 3rd
- Allow for future expansion in the plan
- Store more trains/expand MSF footprint
- Up to 2,000 parking spaces by 2040

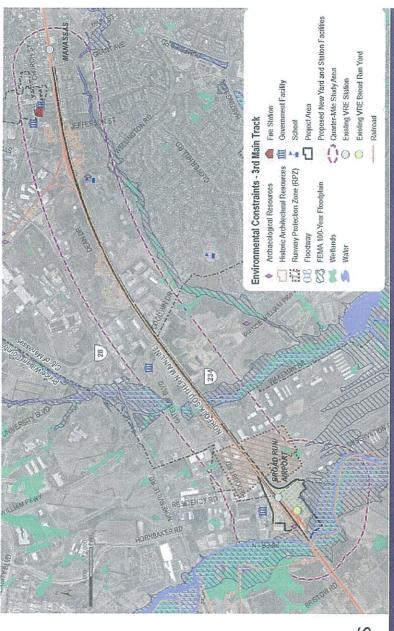

BROAD RUN EXPANSION OBJECTIVES

- Accommodate near-term growth in VRE demand
- Same number of trains as today
- Add seats on trains, parking spaces
- Improve station access/egress
- Cars
- Bicycles, pedestrians, kissand-ride/shuttles/transit
- Increase railroad capacity and operating flexibility
- Do not preclude long-term
 service expansion more trains
 VIRGINIA RAILWAY EXPRESS

EVALUATION OF ALTERNATIVES

- Multiple environmental resources within project area
- Floodplain
- Wetlands
- Potential cultural/historic resources
- Manassas Airport
- Limited expansion potential at current station/MSF

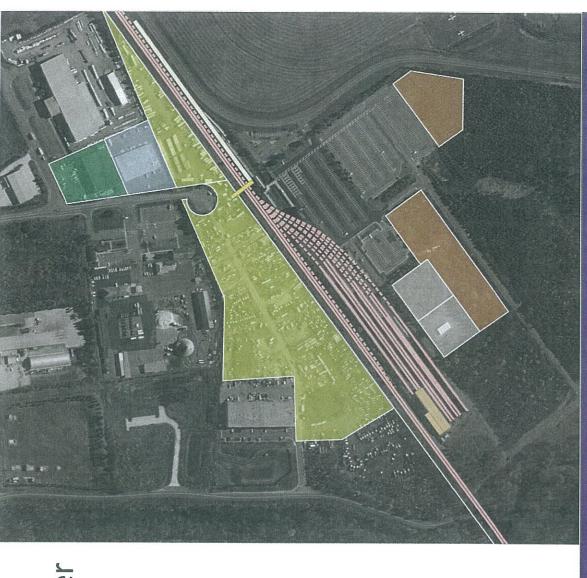

EVALUATION OF ALTERNATIVES

- Multiple parking expansion options under consideration
 - consideration Includes new parking north of NS tracks
- Distributes traffic to station
- Reduces impacts on Piper Lane
- Provides multimodal access opportunities
- Would require property acquisition

▼ VIRGINIA RAILWAY EXPRESS

NEXT STEPS

- Develop evaluation criteria
- Station access and traffic
- Long-term expansion potential and flexibility
- Property impacts
- Construction impacts
- Environmental impacts
- Identify preferred concept (April 2018)
- Complete preliminary engineering and NEPA on a single alternative (August 2018)

Agenda Item 10-A **Information Item**

To:

Chairman Nohe and the VRE Operations Board

From:

Doug Allen

Date:

March 16, 2018

Re:

Spending Authority Report

On May 15, 2015, the VRE Operations Board approved increasing the Chief Executive Officer's spending authority from \$50,000 to \$100,000. It was resolved any purchase of greater than \$50,000 would be communicated to the Board as an information item.

> On February 15, 2018, VRE issue a Task Order in the amount of \$80,809 to NVE, Inc. under the Maintenance Services for VRE Facilities Contract for installation of a booster pump on the six-inch water main serving the Crossroads yard hydrants, service and inspection building and train wash facility, to increase water pressure.

Northern Virginia

Artington, VA 22201

703.524.3322

Transportation Commission 2300 Wilson Blvd, #620

To:

Board of Commissioners

From: Bob Schneider, Executive Directo

Re:

Tim Collins & Associates Critical Incident Review, Assessment & Report

Date:

March 29, 2018

Issue Review: Following two incidents where a First Transit operator made unauthorized use of an OmniRide bus within four months, I asked for a 3rd-party, fact-finding review of the two incidents. I identified Tim Collins, an established industry manager who has worked in management for a number of private firms (First Transit, as well as their primary competitors) and most recently has been performing consulting work on behalf of the Metro Washington Council of Governments (MWCoG). His experience includes safety & operations reviews at large and small systems.

ITEM 10-A April 5, 2018

PRTC Regular Meeting

The emphasis for the fact-finding was along three key questions:

- 1. Was the event predictable/preventable?
- 2. What was the response by both PRTC and First Transit during each of the critical incidents?
- 3. What changes have been instituted/implemented to: a) avoid additional or future critical incidents; and b) better respond during such events if they occur.

Staff prepared a list of sub-questions in each of these major areas to assist the review process. PRTC and First Transit provided access to all employees and documents to Mr. Collins with PRTC's Quality Assurance Manager as the designated point-of-contact for materials and information. The review began the third week of January and concluded late February with a final report in early March.

Next Steps:

- 1. At the April 5th PRTC Commission Meeting, Tim Collins will present his finding to the Commission and answer questions for the Board.
- 2. The final report, with legally required redactions, will be provided and made available to the public.
- 3. I will provide a separate assessment of the report and recommendations to the Commission.

Materials may be distributed to the Commissioners prior to the meeting to help provide deeper background on the presentation.

Transportation Voucher Program for medically-related trips

Program goal - ease transportation challenges for elderly, disabled and low-income residents within PRTC bus services area

How It Began

- mobility challenges confronting the elderly, persons with disabilities and low income households In 2011 PRTC completed a mobility management plan to identify
- ▶ One solution was the creation of a transportation voucher program for medically-related trips
- The Plan was adopted by the Commission in March 2011
- The Plan was endorsed by the Prince William Board of County Supervisors in April 2011
- The Wheels-to-Wellness program began in February 2013 and was sustained with three (3) one-year grants totaling \$798,840 from the Potomac Health Foundation (PHF)

Program eligibility:

- Reside in PHF's specified zip codes within Prince William County (i.e., eastern PWC)
- Not eligible for Medicaid non-emergency transportation
- 80+ years old; or
- Disabled as defined by the American with Disabilities Act; or
- Reside in a low income household not more than 1.9x the federal poverty level

▶ Program elements:

- Participants pay \$3 co-pay for each one-way trip
- Program paid up to \$25 for each one-way trip
- Monthly benefit ranged from six (6) trips per month to 22 trips per month depending on medical needs.

RE:

February System Performance and Ridership Report

OmniRide Express and Metro Direct Service*

- February average daily ridership was relatively flat compared to January
- A mix bag of weather caused fluctuations in ridership, but showed an upward trend late month
- Reviewing data and preparing schedules for minor service change in July

OmniLink Local Bus Service*

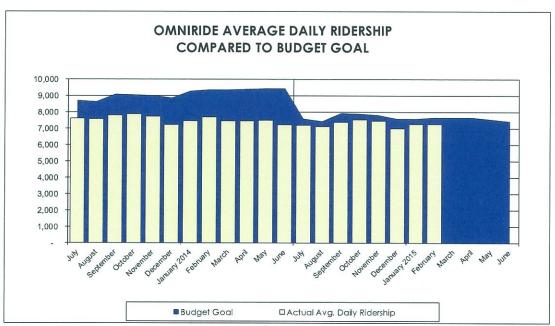

- February average daily ridership increased 5 percent from January
- Weekday ridership started an upward trend starting mid-month
- Saturday ridership is being reviewed by staff due to continual month to month declines

Vanpool Alliance Program

- Enrollment increased to 664 vans
- February ridership increased 5 percent over the same month last year

14700 Potomac Mills Road Woodbridge, VA 22192

April 5, 2018

TO:

Madam Chair Anderson and PRTC Commissioners

FROM:

Robert A. Schneider, PhD (

Executive Director

RE:

Revised Purchasing Authority Report

On June 4, 2015, the Potomac and Rappahannock Transportation Commission (PRTC) approved increasing the Executive Director's delegated purchasing authority from \$50,000 to \$100,000. It was resolved that any purchase of greater than \$50,000 would be communicated to the Board as an information item.

In February 2018, there were no purchase orders issued within the Executive Director's new spending authority.
