Madam Chair Anderson called the meeting to order at 7:01 p.m. The Pledge of Allegiance, Invocation, and Roll Call followed.

Approval of the Agenda –4 [RES 18-11-01]

Items 8A and a presentation, under item 10, The Motor Fuels Tax Revenue Floor Projections Update are being deferred as the information was not available through the DMV. Chair Anderson noted that they would wait for Commissioner Lawson to arrive to discuss item 11 A. Commissioner Kelly moved with a second by Commissioner Maurer to approve the agenda as presented and amended. There was no discussion on the motion. (KELLY/MAURER, UNANIMOUS)

Approval of the Minutes of the October 4, 2018 PRTC Board Meeting – 5 [RES 18-11-02]

Commissioner Maurer moved, with a second by Vice Chair Rishell, to approve the minutes of October 4, 2018. (MAURER/RISHELL, UNANIMOUS)

Virginia Railway Express (VRE) – 6

Mr. Doug Allen briefed the Board on the following items of interest:

- In October, staff participated in Railroad Safety Training
- VRE is on track for the Positive Train Control requirement for December but they have filed for an extension, if needed
- Finalization of Crystal City station
- VRE hosted a pop up event at Quantico, VA

VRE Annual Report to PRTC

- VRE is a joint project of PRTC and NVTC
- They have been around for 27 years and ridership is about 20,000 a day
- The Operations Board consists of officials from the jurisdictions and state delegates
- The Operations Board is delegated to approve contracts that have funding within the approved budget; any Operations Board member can request to place an action item before the Commission for their review and approval
- VRE CEO has a delegated spending authority of \$100,000; VRE continues to inform the Board when contracts are signed between \$50,000 - \$100,000
- There are 50 VRE employees
- VRE has a large capital program. They have secured over \$800 million dollars of capital funding
- High customer satisfaction is a result of VRE having safe and clean trains

- Riders come from the jurisdictions represented by the Board and they are residents with high income and own a vehicle; Most riders are federal employees
- VRE represents 11% of the travel entering into DC
- VRE plans to make longer trains as well as longer platforms
- Commissioner Thomas asked about limited weekend travel in the 2040 plan. Mr. Allen notes that the plan notes language for the potential for limited weekend travel.
- VRE has a six year capital program that is identified by funding source, by project, by anticipated year of expenditure
- Financial analysis done in 2016 shows that eventually VRE will need \$45 million of additional funding in order to see plans come to full fruition
- C-ROC funding ensures VRE \$15 million for future expenses
- Chair Anderson asks what percentage of travel entering into DC would VRE like to be at once improvements are made. Mr. Allen responded that he would like the number to be 22%.

•
Authorize Closed Meeting – 6-E [RES 18-11-03]

Commissioner Kelly moved, with a second by Commissioner Sebesky, to authorize the closed meeting. There was no discussion on the motion. (KELLY/SEBESKY, UNANIMOUS)

Certify Closed Meeting – 6-F [RES 18-11-04]

Commissioner Maurer moved, with a second by Commissioner Kelly, to certify the closed meeting. There was no discussion on the motion. (MAURER/KELLY, UNANIMOUS)

Action Items Out of Closed Meeting – 6-G [RES 18-11-05]

Vice Chair Rishell moved, with a second by Commissioner Maurer to approve the performance evaluation of VRE's CEO. There was no discussion on the motion. (RISHELL/MAURER, UNANIMOUS)

Public Comment Time - 7

Madam Chair Anderson opened the floor for public comment time. There were no speakers.

Approval of the Consent Agenda –8 [RES 18-11-06]

Commissioner Kelly moved, with a second by Commissioner Maurer, to approve the consent agenda, as presented and amended. There was no discussion on the motion. [KELLY/MAURER UNANIMOUS]

- Accepted the authorization to budget and appropriate Spotsylvania County's motor fuel tax funds for various FY18 and FY19 transportation projects.

PRTC Executive Director's Time – 9

Dr. Schneider briefed the Board on the following item(s) of interest:

- Follow up on bus stop and shelter lighting on all routes
- Keeyanah Sims is recognized for 10 years of service and notes her promotion to the IT Department
- Dr. Schneider notes that OmniRide Anti-Harassment training
- The reorganizational timeline was addressed with employees at the Anti-Harassment training and it was noted that interviews are being conducted to backfill positions; Dr. Schneider will have a better idea of the reorg timeline after the New Year.
- Dr. Schneider notes the training calendar for OmniRide employees

Presentations – 10

Operator Retention and Industry Trends by Todd Johnson

- First Transit has 143 full time operators and 11 part time operators
- Mr. Johnson notes that it take 149 full time operators to successfully run the service
- Challenges for retention and recruiting are low unemployment, not as desirable a position as it was in the past, the aging workforce and staff retiring, split shifts, diversity of customers, wages are not keeping up with inflation and the new WMATA location has a starting wage is \$20/hr
- In June 2018 there were 15 trips missed, due to a cultural holiday, 13 of those 15 missed trips were due to the shortage that resulted from the holiday
- Recruiting Advantages: split shifts, competitive benefits package, easy online application process, onsite CDL examiner, three incentive bonuses a year
- Adding a dedicated HR Manager will add value to the company so that there can be more focus on recruiting and improving retention
- Chair Anderson asked about the drivers who have split shifts and if there are any plans to create a place where the operators can be comfortable during their down time when we move into the other office space that we're renting. Mr. Johnson noted as people move out they are looking to expand or made arrangements for more operator space and hopefully a quiet room as well. Mr. Johnson also noted the new western facility is set up to have these things in place.
- Commissioner Kelly noted we have reduced service and have talked about reinstating it and even expanding service long term. He noted that the cost of operating buses is only going to increase moving forward and stated this gets back to the critical conversation regarding funding that needs to happen in Richmond if plans are to move this operation forward.

Chair Anderson invites Delegate Danica Roem to speak

Delegate Danica Roem advised she represents the 13th District, is a good colleague of Delegate Thomas. She advised her understanding is that once the Haymarket bus route gets off the ground we could use the 66 concessionaire payment paying for the buses long term instead of the motor fuels tax floor funding therefore the motor fuels tax floor funding would be available for operating costs or other PRTC costs.

Mr. Kelly responds to Delegate Roem saying that she is right that the motor fuels tax money is a help but it doesn't provide a long term solution to transportation. He states that the General Assembly did not provide additional funding, but instead took funding from the jurisdictions and gave it to VRE.

Strategic Plan Update – Chuck Steigerwald

- Provided a brief of the experiences at the public hearings for the Haymarket Express services
- There was general support for the proposed ideas.
- Mr. Steigerwald said there was a strong focus on accessibility to services and bus stops
- It was noted that attendees at the public hearings were upset about the volume of local traffic on the roads.
- Commissioner Principi asked about the distance from the new stop to the mall. Mr. Steigerwald stated there will be a review of the routes to ensure coverage of all stops connected to the route that the mall bus stop is on.
- Commissioner Skinner questioned if the Haymarket bus would be an express service to the Rosslyn area. Mr. Steigerwald confirmed that it would be an express service and it would be implemented around the December timeframe.

PRTC Action Items – 11

Action Item 11-A is deferred to later in the meeting

Authorization to Execute a Contract with EAI Security to Replace Outdated Facility Surveillance Camera System- 11-B [RES 18-11-07]

Commissioner Kelly moved, with a second by Commissioner Skinner, for an authorization to execute a contract with EAI Security to replace outdated facility surveillance camera system. (KELLY/SKINNER, UNANIMOUS)

Acceptance of OmniRide Haymarket/Rosslyn Public Participation Process and Authorization to Implement Express Bus Service as Proposed - 11-A [RES 18-11-08]

Commissioner Rishell moved, with a second by Commissioner Kelly, for the acceptance of OmniRide Haymarket/Rosslyn public participation process and authorization to implement express bus service as proposed. (RISHELL/KELLY, UNANIMOUS)

PRTC Chairman's Time - 12

- Chair Anderson notes engagement opportunities for Commissioners
- The finalized Bylaws were provided
- Chair Anderson notes the Nominating Committee and that Commissioner Nohe heads it
- Chair Anderson announces the members of the Legislative Committee (Anderson, Rishell, Lawson, Sebesky, Catterton, Franklin, and Pittard) and mentions that they will discuss local and state issues as they apply to PRTC; the first onsite meeting will be on December 6th at 6:00 PM
- There will be a VTA meeting on January 28th in Richmond, VA

Other Business/Commissioners' Time - 13

- Commissioner Maurer noted that she met with Dr. Schneider and Joyce Embrey regarding the financial statements to discuss the ability to see the fund balance more clearly as well as the deviations. She also requested a jurisdictional impact report to be added to the resolutions as they are presented.
- Commissioner Sebesky extends an invitation to the Veteran's Day parade in Manassas on Saturday 11/3.

Adjournment - 14

There being no further business to come before the Commission, Madam Chair Anderson adjourned the meeting at 8:43 p.m.

Information Items

There were no comments.

CEO REPORT

NOVEMBER 2018

OUR MISSION

The Virginia Railway Express, a joint project of the Northern Virginia Transportation Commission and the Potomac Rappahannock Transportation Commission, will provide safe, cost-effective, accessible, reliable, convenient, and customer responsive commuter-oriented rail passenger service. VRE contributes to the economic vitality of its member jurisdictions as an integral part of a balanced, intermodal regional transportation system.

SUCCESS AT A GLANCE

S

PARKING UTILIZATION

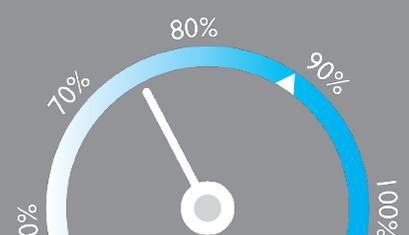

The total number of parking spaces used in the VRE system during the month, divided by the total number of parking spaces available.

AVERAGE DAILY RIDERSHIP

The average number of boardings each operating day inclusive of Amtrak Step-Up boardings but excluding "S" schedule operating days.

▲ Same month, previous year.

ON-TIME PERFORMANCE

Percentage of trains that arrive at their destination within five minutes of the schedule.

▲ Same month, previous year.

SYSTEM CAPACITY

The percent of peak hour train seats occupied. The calculation excludes reverse flow and non-peak hour trains.

OPERATING RATIO

The monthly operating revenues divided by the monthly operating expenses, which depicts the percent of operating costs paid by the riders.

◆ Board-established goal.

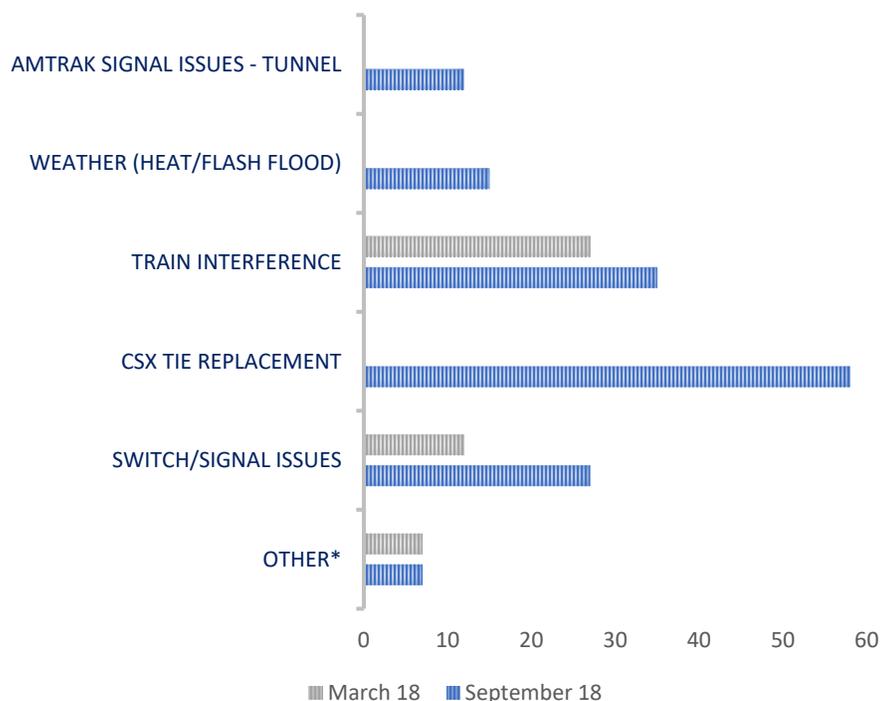

SEPTEMBER 2018

ON-TIME PERFORMANCE

OUR RECORD

	September 2018	August 2018	September 2017
Manassas Line	84%	81%	92%
Fredericksburg Line	65%	62%	87%
System Wide	75%	72%	89%

REASONS FOR DELAYS

VRE operated 606 trains in September.

Our on-time rate for September was 75%.

One hundred fifty-four of the trains arrived more than five minutes late to their final destinations. Forty-nine of those late trains were on the Manassas Line (32%), and one hundred five of those late trains were on the Fredericksburg Line (68%).

September numbers show a continuation of issues that were seen in August. As compared to March of this year, which was a typical month with 92% on-time performance, we can see that Amtrak tunnel signal problems, flood warnings (Florence), and the CSX tie replacement work south of Quantico all contributed to the lower than average on-time performance.

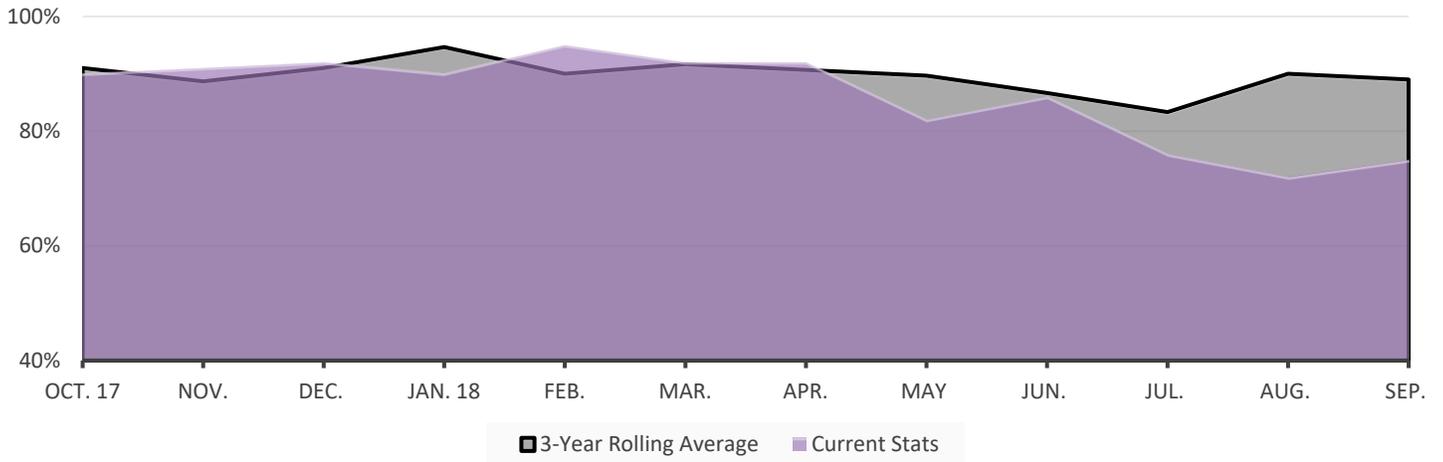

*Includes trains that were delayed due to operational testing and passenger handling.

LATE TRAINS

	System Wide			Fredericksburg Line			Manassas Line

FINANCIAL REPORT

Fare revenue through the third month of FY 2019 is approximately \$76,000 below budget (an unfavorable variance of -0.7%) and is 0.2% below the same period in FY 2018.

The operating ratio through September is 49%. As in prior years, VRE's annual liability insurance premium was accounted for in full in July, which results in a lower operating ratio in the early months of the fiscal year. VRE remains on track to achieve the budgeted operating ratio for the full twelve months of FY 2019 of 52%.

A summary of the FY 2019 financial results through September follows, including information on the major revenue and expense categories. Please note that these figures are preliminary and unaudited.

FY 2019 Operating Budget Report							
Month Ended September 30, 2018							
	CURR. MO. ACTUAL	CURR. MO. BUDGET	YTD ACTUAL	YTD BUDGET	YTD \$ VARIANCE	YTD % VARIANCE	TOTAL FY19 BUDGET

(1) Total jurisdictional subsidy is \$17,767,748. Portion shown as budgeted is attributed to Operating Fund only.

FACILITIES UPDATE

The following is a status update of VRE facilities projects:

Completed projects:

1. Painting of Woodbridge Station
2. Repairs to Quantico Station pedestrian grade crossing
3. Replacement of Brooke Station pedestrian grade crossing
4. Repairs to fence at Rolling Road Station
5. Striping of Rolling Road Station parking lot

Projects scheduled to be completed this quarter:

1. Replacement of tactile warning strip at L'Enfant Station
2. Repairs to fascia and soffit at Woodbridge Station east building
3. Cleaning of glass at Woodbridge Station elevator/stair towers
4. Repairs to potholes at Manassas Park Station
5. Replacement of electrical and communications conduits and partial replacement of lighting at Manassas Park Station
6. Repairs to platform concrete at Manassas Station
7. Installation of automated parking count system at stations with parking lots

Projects scheduled to be initiated this quarter:

1. Design of platform widening at L'Enfant Station
2. Replacement of signage at additional stations (locations TBD)
3. Replacement of parking lot entrance signs at majority of stations
4. Replacement of waste and recycling receptacles throughout VRE system

Rolling Road Station Fence Repair (Before)

Rolling Road Station Fence Repair (After)

Ongoing projects:

1. Renovations to Alexandria Headquarters (leased Suite 201, adjacent to current VRE offices)
2. Weed control at L'Enfant storage track
3. Development of specifications for modernization of Woodbridge Station east elevator
4. Development of IFB for Canopy Roof Replacement at the Backlick Road Station and second station (TBD)
5. Replacement of station posters throughout VRE system

UPCOMING PROCUREMENTS

- Purchase of Passenger Elevators
- Construction of the Lifecycle Overhaul and Upgrade Facility
- Construction Management Services for the Lifecycle Overhaul and Upgrade Facility
- Program Management Services
- Graphic Design Services
- Canopy Roof Replacement at the Backlick and Rolling Road Stations
- Modernization of VRE Woodbridge Station East Elevator
- Repair and Overhaul of Passenger Car HVAC Assemblies
- Passenger Car Wheelchair Lift Assemblies
- Seat Bottoms for Passenger Cars
- Construction of Benchmark Road Slope Stabilization
- Construction of Rolling Road Platform Extension
- Purchase of LED Light Fixtures
- Construction of L'Enfant South Storage Track Wayside Power
- Variable Messaging System Replacement

CAPITAL PROJECTS UPDATES

AS OF October 12, 2018

Broad Run Expansion Study (BRX)

- Preliminary engineering (PE) design and NEPA for maintenance and storage facility (MSF) expansion, platform modifications, 3rd track and tunnel underway; completion pending NS design comments
- NS design review agreement under development
- Draft agreements between VRE and Prince William County, City of Manassas regarding Broad Run parking expansion funding and other responsibilities under development
- Bi-weekly Project Management Team (PMT) meetings with BRX consultant
- Weekly schedule review meetings with BRX consultant

Midday Storage Replacement Facility

- Draft Categorical Exclusion (CE) under development
- Framework/agreement pending for real estate, design and construction activities
- Site survey underway, owner permission for site access pending for private parcels
- Appraisal for Conrail property acquisition under legal review

Rolling Road Platform Extension

- Final plans for platform extension complete
- VRE Operations Board authorized Invitation for Bids (IFB) for platform extension and rehabilitation pending 2019 construction season start
- Construction Management (CM) GEC task order pending notice to proceed (NTP)

Crossroads Real Estate Acquisition

- Revised appraisal required

Long Bridge Expansion Study

- Public information meeting scheduled for November 29, 2018
- Environmental Impact Statement (EIS) underway

Quantico Station Improvements

- Completion of FD & construction pending execution of IPROC grant by DRPT

Franconia-Springfield Station Improvements

- Preliminary engineering/30% design plans and environmental documents are currently under review by CSX

Lorton Station Improvements (Second Platform)

- Preliminary engineering/30% design plans and NEPA documents are currently under review by CSX

Rippon Station Improvements

- 30% design plans complete
- CSX design review agreement pending

NOVEMBER 2018

Leeland Road Station Improvements

- DRPT LONP received; execution of REF grant pending
- 30% design underway
- CSX design review agreement pending

Brooke Station Improvements

- DRPT LONP received; execution of REF grant pending
- Conceptual design underway
- CSX design review agreement pending

Alexandria Pedestrian Tunnel Project

- Investigating alternative construction strategies
- Coordinating with FRA and CSX

Crossroads Lifecycle Overhaul & Upgrade Facility (LOU)

- Property negotiations continue to acquire property needed to the east and south of existing Crossroads Yard
- Design 100% complete

L'Enfant (South) Storage Track Wayside Power

- Invitation for Bids (IFB) for construction pending CSX force account agreement

Slaters Lane/Alexandria Track 1 Access

- Construction pending assignment of CSX resources

Manassas Park Station Parking Expansion

- Final design underway

Crystal City Station Improvements

- RFP for preliminary engineering design and NEPA under development
- Completion pending execution of REF grant by DRPT

L'Enfant Track and Station Improvement

- Phase I: Background Information technical memorandum is complete
- Initiation of additional work pending execution of REF grant by DRPT

VRE Transit Development Plan Update

- Draft TDP document under development
- Bi-weekly progress meetings with TDP consultant

Projects Progress Report to Follow

*Delineates arrival following the commencement of the Board meeting. Notation of exact arrival time is included in the body of the minutes.

Chairman Nohe called the meeting to order at 9:11 A.M. Following the Pledge of Allegiance, Roll Call was taken.

Approval of the Agenda – 3

Ms. Cristol moved, with a second by Mr. Kelly to approve the Agenda. The vote in favor was cast by Board Members Caddigan, Cook, Cristol, Dudenhefer, Kelly, Lawson, Maurer, McLaughlin, Naddoni, Nohe, Sebesky, and Smedberg.

Approval of the Minutes of the September 21, 2018 Operations Board Meeting – 4

Ms. Caddigan moved, with a second by Mr. Kelly, to approve the Minutes. The vote in favor was cast by Board Members Caddigan, Cook, Cristol, Dudenhefer, Kelly, McLaughlin, Nohe, Sebesky, and Smedberg. Board Members Lawson, Maurer and Naddoni abstained.

[Mr. Dudenhefer arrived at 9:13 A.M.]

Chairman's Comments –5

Chairman Nohe announced the Audit Committee met with Dwight Buracker, from the audit firm PBMares, to receive the FY 2018 Financial Statements and Audit Report and that Mr. Buracker would report to the rest of the Operations Board later in the meeting.

Chairman Nohe reminded Board Members that the date of the December Operations Board meeting was changed from the third Friday to the second Friday, December 14th, to avoid conflict with members holiday plans.

Chairman Nohe announced he was appointing Ms. Bulova and Ms. Caddigan to the nominating committee for the slate nominees for 2019 Operations Board Officers. The Board will vote on the nominees in December and the Officers will be installed at the January 2019 Operations Board meeting.

Chief Executive Officer's Report –6

Mr. Allen reported VRE participation in Grade Crossing and Trespassing Prevention Summit hosted by FRA Administrator Ron Batory and Department of Transportation Secretary Elaine Chao. Leaders from major freight and commuter carriers were in attendance where experts presented outreach and enforcement programs similar to those employed by VRE.

Mr. Allen asked Mr. Dalton to report on Positive Train Control implementation efforts. Mr. Dalton reported VRE is making good progress toward PTC implantation. He detailed upcoming milestones involved with "interoperability testing" which need to be met over the course of the next six weeks. Mr. Dalton explained VRE has met all the statutory requirements, making it eligible for an "alternative schedule" if implantation slips past the first of the year. VRE is, nevertheless, proceeding with a planned implementation by the end of the year.

Mr. Allen reported ridership for October was around 19,000 daily riders and On-Time Performance was 86 percent. Mr. Allen observed On-time performance is trending up from issues experienced over the summer, but VRE is still being impacted by rail congestion due to the loss of the third track in Alexandria. The repairs to the track and bridge, caused by a freight derailment in May, is expected to be completed by the end of the year.

Mr. Allen reported VRE had taken new NVTC Commissioners on an abbreviated system tour to give them an overview of operations. Mr. Allen briefed the Board on the implications of the Amazon HQ2 announcement for VRE Crystal City Station. He reported VRE will also undertake an update of its System Plan 2040 with this and other recent developments in mind.

Mr. Allen informed the Board on progress being made on development of the Potomac Shores Station. VRE hosted a meeting with the developer and CSX to discuss modifications to the station concept to simplify its construction within railroad requirements. Ms. Caddigan thanked VRE staff for facilitating the coordination.

Mr. Allen announced the upcoming Operation Lifesaver Santa Trains and Toys for Tots holiday events. Onboard collection of new, unwrapped toys will take place on all morning trains on December 5th, and Santa Trains are scheduled for December 8th. Mr. Allen stated tickets would be sold to the public beginning at 9:00 A.M. on Monday, November 19th.

VRE Riders' and Public Comment – 7

There were no rider comments.

Consent Agenda - 8

On a motion by Mr. Kelly and a second by Ms. Maurer, the Operations Board unanimously approved the following Consent Agenda:

- Resolution #8A-11-2018: Authorization to Issue and Invitation for Bids for Delivery of Diesel Fuel for VRE locomotives
- Resolution #8B-11-2018: Approval of Correction to Resolution 9H-09-2017

The vote in favor was cast by Board Members Caddigan, Cook, Cristol, Dudenhefer, Kelly, Lawson, Maurer, McLaughlin, Naddoni, Nohe, Sebesky, and Smedberg.

Authorization to Forward the FY 2018 Audited Financial Statements and Auditor's Report to the Commission – 9A

Chairman Nohe stated the Operations Board is asked to accept the FY 2018 Comprehensive Annual Financial Report and associated information from the auditors and to authorize the CEO to forward this information to the Commissions for their consideration. Resolution #9A-11-2018 would accomplish this.

Chairman Nohe invited Dwight Buracker from PBMares, LLP, who met with the VRE Audit Committee prior to this meeting, to report the findings of the audit to the full Operations Board. Mr. Buracker stated PBMares has issued an unmodified opinion, which is the best opinion. The opinion letter states the VRE financial statements, in all material respects, fairly and accurately present the financial position of the organization.

Mr. Cook moved to approve Resolution #9A-11-2018 with the following amendment: “and directs staff to report to the Board the recommendations in the auditor’s letter to engage a review of cyber vulnerabilities. Mr. Smedberg seconded the motion as amended. Mr. Buracker followed up by explaining that the recommendation was not a result of findings, but rather a standard recommendation his firm is making to all clients this year. The vote in favor was cast by Board Members Caddigan, Cook, Cristol, Dudenhefer, Kelly, Lawson, Maurer, McLaughlin, Naddoni, Nohe, Sebesky, and Smedberg.

Recommend Approval of the 2019 VRE Legislative Agenda – 9B

Mr. Allen stated the Operations Board is being asked to recommend the Commissions approve the 2019 VRE Legislative Agenda and authorize him to actively pursue the elements set forth.

Mr. Swartz reminded the Board that they had a thorough discussion on the development of the Legislative Agenda in October and there had been no changes.

Ms. Cristol stated she appreciated the feedback and thanked staff for their work on the development of the 2019 VRE Legislative Agenda.

Ms. Cristol moved, with a second by Mr. Cook, to approve Resolution #9B-11-2018. The vote in favor was cast by Board Members Caddigan, Cook, Cristol, Dudenhefer, Kelly, Lawson, Maurer, McLaughlin, Naddoni, Nohe, Sebesky, and Smedberg.

Authorization to Issue an MEC VI Task Order for National Transit Database and Asset Management Reporting, Phase IV – 9C

Mr. Allen stated the Operations Board is being asked to authorize him to issue a task order with STV, Incorporated, under the Mechanical Engineering Consulting Services contract for National Transit Database and Asset Management Reporting in an amount not to exceed \$452,709.

Mr. Kelly moved, with a second by Ms. Maurer, to approve Resolution #9C-11-2018. The vote in favor was cast by Board Members Caddigan, Cook, Cristol, Dudenhefer, Kelly, Lawson, Maurer, McLaughlin, Naddoni, Nohe, Sebesky, and Smedberg.

Authorization to Amend the Contract for the Rehabilitation of Wheelsets and Traction Motor Assemblies – 9D

Mr. Allen stated the Operations Board is being asked to authorize him to increase the amount authorized by \$1,420,101 for the remaining three option years on the contract with UTCRAS, LLC for Rehabilitation of Wheelsets and Traction Motor Assemblies in an amount not to exceed \$1,893,468, for the base year and three option years.

In response to a question from Mr. Smedberg, Mr. Allen stated that the amended authorization was for routine and ongoing maintenance.

Ms. Caddigan moved, with a second by Mr. Smedberg, to approve Resolution #9D-11-2018. The vote in favor was cast by Board Members Caddigan, Cook, Cristol, Dudenhefer, Kelly, Lawson, Maurer, McLaughlin, Naddoni, Nohe, Sebesky, and Smedberg.

Authorization to Execute a Contract for Facility Security Services – 9E

Mr. Allen asked the Board to authorize him to execute a contract with Sentry Force Security, LLC for facility security services in an amount not to exceed \$3,104,762 for a base year and for option years, with the CEO exercising the option years at his discretion.

In response to a question from Ms. Maurer, Mr. Allen confirmed that the firm is required to use guards licensed by the Virginia Department of Criminal Justice Services.

Mr. Smedberg moved, with a second by Mr. Naddoni, to approve Resolution #9E-11-2018. The vote in favor was cast by Board Members Caddigan, Cook, Cristol, Dudenhefer, Kelly, Lawson, Maurer, McLaughlin, Naddoni, Nohe, Sebesky, and Smedberg.

Information Items:

FY 2020 Budget Update – 10A

Mr. Allen reminded the Operations Board they will be asked in December to recommend approval of the Proposed FY 2020 Operating and Capital Budget to the Commissions and Localities and asked Mr. Schofield to provide a progress update.

Mr. Schofield reminded the Operations Board that the Preliminary Budget presented in September reflected an operating gap of \$1.9M and asked for a 3 percent fare increase. The Operations Board directed staff to hold public hearings on the proposed fare increase. VRE held ten public hearings and there had not been significant concerns expressed by riders on the proposal.

Mr. Schofield reported that at the time the November Agenda report had been written, the operating budget gap was around \$400K; but noted that at present that gap had been eliminated.

Mr. Schofield stated the Capital budget has not changed materially. Based on discussion at the September Operations Board meeting and in October with the Capital Committee meeting, staff will be proposing the L'Enfant Station and Fourth Track Project receive the first of the Commuter Rail Operating and Capital Fund (C-ROC) monies.

VRE Transit Development Plan Update – 10B

Mr. Allen reminded the Operations Board of VRE's development of an updated Transit Development Plan (TDP) that is required in accordance with the Virginia Department of Rail and Public Transportation *Transit Development Plan Minimum Requirements*, as a condition of receiving state funding.

Mr. Allen introduced Ms. Soneji to brief the Operations Board on the status of the TDP update. Ms. Soneji noted VRE's updated TDP will encompass two timeframes: A six-year

(FY 2020-2025) fiscally-constrained plan; and, a ten-year minimum (FY 2020-2029) fiscally unconstrained plan identifying longer-term capital and operating needs.

Ms. Soneji detailed the role of the TDP among other VRE planning activities and documents. The fiscally-constrained timeframe serves as an implementation plan for VRE's projects and initiatives, while the longer-term unconstrained plan charts a path toward achieving the vision plan set out in the System Plan 2040.

Ms. Soneji outlined various service needs that presently exist and how demand for VRE service is anticipated to increase in the future. Ms. Soneji's presentation summarized service and capital improvements required to meet existing and forecasted needs.

Spending Authority Report -10C

There was no discussion about the report.

Operations Board Member Time

There were no comments.

Adjournment

Without objection, Chairman Nohe adjourned the meeting at 10:12 A.M.

Approved this 14th day of December 2018.

**Virginia Railway Express
Operations Board**

**Resolution
8A-11-2018**

**Authorization to Issue an Invitation for Bids for
Delivery of Diesel Fuel for VRE Locomotives**

WHEREAS, the contracts for delivery of diesel fuel for VRE's locomotives will expire on June 30, 2019; and,

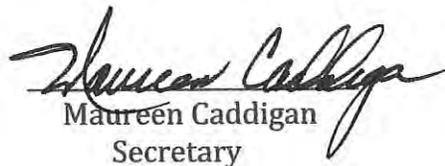

WHEREAS, to avoid an interruption in service it is necessary to solicit bids prior to expiration of the current fuel delivery contracts; and,

WHEREAS, the contracts will be structured to allow VRE to lock in future fixed prices for fuel; and,

WHEREAS, a solicitation for these services shall be initiated;

NOW, THEREFORE, BE IT RESOLVED THAT, the VRE Operations Board does hereby authorize the Chief Executive Officer to issue an Invitation for Bids for the delivery of diesel fuel to the Broad Run and Crossroads maintenance and storage facilities for VRE's fleet of locomotives.

OPERATIONS BOARD

Agenda Item 9-A
Action Item

To: Chairman Nohe and the VRE Operations Board

From: Doug Allen

Date: November 16, 2018

Re: Authorization to Forward the FY 2018 Audited Financial Statements and Auditor's Report to the Commissions

Recommendation:

The VRE Operations Board is being asked to accept the FY 2018 Comprehensive Annual Financial Report (CAFR) and associated information from the auditors and to authorize the Chief Executive Officer to forward this information to the Commissions for their consideration.

Background:

The audit of VRE's FY 2018 financial statements has been completed and the auditors have issued an unmodified opinion. Their opinion letter states the VRE statements, in all material respects, fairly and accurately present the financial position of the organization. This opinion is the best outcome of a financial audit.

The FY 2018 audit was conducted by the firm of PBMares, LLP. PBMares has served as the auditor for VRE, PRTC and NVTC for the last several years. A new three-year contract for the audits of the VRE, PRTC and NVTC financial statements was approved in April 2015, with four years of optional renewals.

The audited financial statements and associated reports were forwarded to all members of the Operations Board prior to the November 16 meeting. The auditors also met with

Northern Virginia
Transportation Commission

the VRE Audit Committee on November 16, 2018, prior to the Operations Board meeting to review the statements and their opinion.

Fiscal Impact:

There is no financial impact to the VRE Operating Budget from the presentation of these audited financial statements.

**Virginia Railway Express
Operations Board**

**Resolution
9A-11-2018**

**Authorization to Forward the FY 2018 Audited Financial
Statements and Auditor's Report to the Commissions**

WHEREAS, the VRE Operations Board has contracted with the firm of PBMares, LLC for the audit of its financial statements; and,

WHEREAS, the audit of the VRE FY 2018 financial statements has been completed; and,

WHEREAS, the auditors have issued an unmodified opinion that the VRE statements, in all material respects, fairly and accurately present the financial position of the commuter rail operation;

NOW, THEREFORE, BE IT RESOLVED THAT, the VRE Operations Board accepts the FY 2018 Comprehensive Annual Financial Report (CAFR) and associated information from the auditors and hereby authorizes the Chief Executive Officer to forward this information to the Commissions for their consideration;

BE IT FURTHER RESOLVED THAT, *the VRE Operations Board directs staff to respond back to the Board on the recommendation contained in the auditor's management letter to consider engaging "a third party service to perform a vulnerability assessment on the VRE network to identify potential exposure that could be exploited by hackers".*

Recommend Approval of the 2019 VRE Legislative Agenda

WHEREAS, VRE is an essential part of regional transportation network for the Northern Virginia and DC Metropolitan region; and,

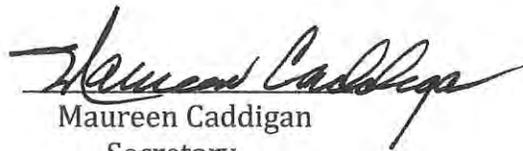

WHEREAS, VRE serves residents throughout the Commonwealth to provide a meaningful public transportation option; and,

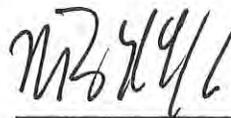

WHEREAS, it is essential for VRE to educate and advocate for desired legislative/regulatory outcomes with members of Congress and their staff, with staff of federal entities, in the Virginia General Assembly and with the Governor and his administration; and,

WHEREAS, VRE has coordinated its Legislative Agenda with the staffs of the Commissions and member jurisdictions;

NOW, THEREFORE, BE IT RESOLVED THAT, the VRE Operations Board does hereby recommend the Commissions approve the 2019 VRE Legislative Agenda and authorize the Chief Executive Officer to actively pursue the elements set forth in the attached document.

Resolution 9C-11-2018

Authorization to Issue an MEC VI Task Order for National Transit Database and Asset Management Reporting, Phase IV

WHEREAS, VRE has a contract with STV Incorporated for mechanical engineering consulting services (MEC) VI; and,

WHEREAS, VRE has completed several initiatives resulting in strategies for managing VRE rolling stock and facilities assets and maintaining these assets in a continuous state of good repair; and,

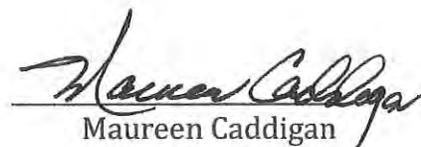

WHEREAS, VRE is required by the Federal Transit Administration to develop methodologies and processes to perform ongoing assessments of VRE rolling stock and facilities; manage and perform State of Good Repair projects and report transit asset management information; and,

WHEREAS, STV Incorporated has developed the framework and standardized processes to perform ongoing asset assessments as well as tools to prioritize funding for State of Good Repair projects consistent with the Transit Economics Requirements Model (TERM); and,

WHEREAS, STV Incorporated has developed processes for reporting asset management information to the Federal Transit Administration via the Nation Transit Database;

NOW, THEREFORE, BE IT RESOLVED THAT, the VRE Operations Board does hereby authorize the Chief Executive Officer to issue a MEC VI Task Order to STV Incorporated for further developing, implementing and executing processes for VRE's Transit Asset Management Plan (TAM) and National Transit Database (NTD) reporting compliance in the amount of \$411,553, plus a 10% contingency of \$41,156, for a total not to exceed \$452,709.

**Authorization to Amend the Contract for the
Rehabilitation of Wheelsets and Traction Motor Assemblies**

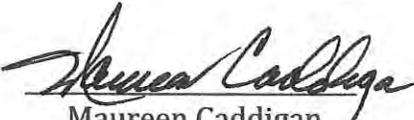

WHEREAS, VRE rail cars and locomotives require traction motor/wheel/axle assembly services; and,

WHEREAS, VRE awarded a contract to UTCRAS to provide rehabilitation of wheelsets and traction motor assemblies; and,

WHEREAS, staff is requesting an increase in the contract authorization for a total amount not to exceed \$1,893,468, for the base year and three option years of the contract;

NOW, THEREFORE, BE IT RESOLVED THAT, the VRE Operations Board does hereby authorize the Chief Executive Officer to amend the contract with UTCRAS, LLC of Morton, PA for the Rehabilitation of Wheelsets and Traction Motor Assemblies to increase the amount authorized of \$473,367 (base year) by \$1,420,101 (three option years,) to a total amount not to exceed \$1,893,468, for the base year and three option years.

**Resolution
9E-11-2018**

Authorization to Execute a Contract for Facility Security Services

WHEREAS, VRE remains committed to protecting passengers, employees and equipment from security risks at VRE facilities; and,

WHEREAS, on March 16, 2018, the VRE Operations Board authorized the CEO to issue an RFP for Facility Security Services in anticipation of the expiration of the current contract in November 2018; and,

WHEREAS, on August 13, 2018, a Request for Proposal was issued; and,

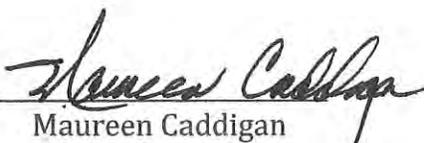

WHEREAS, on September 20, 2018, ten (10) proposals were received; and,

WHEREAS, the Technical Evaluation Team determined the proposal from Sentry Force Security of Fairfax, Virginia to be technically compliant and was selected to be the best value; and,

WHEREAS, the Operations Board's approval of this procurement does not represent its independent assessment of the candidate's responses to the solicitation or of each step in the procurement process followed by staff; rather, the Operations Board's action is premised upon its conclusion, after review of the information before it, that the process used by the staff was in accordance with law and that the staff recommendation appears to be reasonable;

NOW, THEREFORE, BE IT RESOLVED THAT, the VRE Operations Board does hereby authorize the Chief Executive Officer to execute a contract with Sentry Force, LLC of Fairfax, Virginia for Facility Security Services in the amount of \$2,822,511, plus a 10% contingency of \$282,251, for a total amount not to exceed \$3,104,762. The contract will be for a base year and four option years, with the VRE CEO exercising the option years at his discretion.

Agenda Item 10-C
Information Item

To: Chairman Nohe and the VRE Operations Board

From: Doug Allen

Date: November 16, 2018

Re: Spending Authority Report

On May 15, 2015, the VRE Operations Board approved increasing the Chief Executive Officer's spending authority from \$50,000 to \$100,000. It was resolved any purchase of greater than \$50,000 would be communicated to the Board as an information item.

- On October 9, 2018, VRE issued a Task Order in the amount of \$57,490 to NVE, Inc. under the Maintenance Services for VRE Facilities Contract to remove and replace existing electrical and communications conduits, wiring and the electrical cabinet at the Manassas Park Station.
- On October 15, 2018, VRE issued a Task Order in the amount of \$76,206 to Fresh Air Duct Cleaning, LLC under the Custodial and Seasonal Services for VRE Facilities Contract to pressure wash the exterior of the Woodbridge Station tower, apply a transparent sealant to the existing windows and perform glass restoration for all windows.

MOTION:

SECOND:

**RE: ENDORSE PRTC’s CONGESTION MITIGATION AND AIR QUALITY (CMAQ)
FY2025 FUNDING REQUEST**

WHEREAS, the Potomac and Rappahannock Transportation Commission annually submits a list of projects to the Northern Virginia Transportation Authority (NVTA) for consideration of regionally-allocated federal CMAQ and/or Regional Surface Transportation Program (RSTP) funds; and

WHEREAS, PRTC management is proposing two projects for FY2025 CMAQ only funding consideration: funding for the Commission’s ongoing “commuter assistance” program continuation and replacement of 2009 Model Year 45-foot buses; and

NOW, THEREFORE, BE IT RESOLVED that the Potomac and Rappahannock Transportation Commission does hereby endorse the proposed PRTC projects for regional consideration by the NVTA for its FY 2020 – FY 2025 CMAQ/RSTP program.

Through: Robert A. Schneider, PhD *Robert A. Schneider*
Executive Director

SUBJECT: Endorse PRTC's Congestion Mitigation and Air Quality (CMAQ) FY2025 Funding Request

Recommendation:

Endorse PRTC's Congestion Mitigation and Air Quality (CMAQ) FY2025 funding request.

Background:

Each year, the Northern Virginia Transportation Authority (NVTA) requests jurisdictions and regional transportation providers to identify transportation projects for consideration of the regionally-allocated Congestion Mitigation and Air Quality (CMAQ) and Regional Surface Transportation Program (RSTP) funds. PRTC annually submits project funding requests for CMAQ only, in consultation with Prince William County staff on the planned submissions.

Each year the NVTA must approve a new six-year CMAQ/RSTP program, removing the first year and adding a new sixth year. The upcoming six year program is for the FY 2020 – FY 2025 period. Since the NVTA has already approved a program of projects for fiscal years 2019 - 2024, only projects for FY 2025 have been solicited.

The total estimated amount for Northern Virginia's FY 2025 CMAQ and RSTP Program is approximately \$77,717,000 (\$22,855,000 in CMAQ and \$54,862,000 in RSTP).

PRTC management proposes to submit the following projects for CMAQ funding:

1. **Rideshare Program** - This funding request would sustain ongoing PRTC ridesharing efforts. PRTC's ridematching services, OmniMatch, in association with the regional Commuter Connections program, provides both non-financial and limited financial
2. Support for about nine (9) full-size (15-passenger vans), 68 mini-vans (seven (7) or nine (9) passenger) and hundreds of carpools. The program also provides ride match lists to over 650 Prince William County residents who are interested in carpooling and vanpooling. Like other regional ridesharing programs, PRTC's OmniMatch Program does not have a dedicated source of funding.
3. **Commuter Bus Replacements** – This CMAQ request will support the purchase of four (4) MCI 2009 Model Year 45-foot buses to be replaced in FY2025, which will reach the end of their useful life at that time, under FTA guidelines. PRTC is estimating the cost to be approximately \$669,761 per bus.

No.	Project Name	Total Request	Federal	State	Local	Type
1.	Ridesharing	\$300,000	\$240,000	\$60,000	\$0	CMAQ
2.	PRTC Bus Replacements	\$2,680,000	\$2,144,000	\$536,000	\$0	CMAQ

Fiscal Impact:

There is no local match required for any of the projects. Consequently, there would be no fiscal impact on PRTC's FY 2025 budget.

- **Updated Tax Floor Revenue Projections**
- **Agreement with NVTC for I-395 Express Lanes Project**
- **Industry Article – Impact of Bus Stop Improvements**

December 6, 2018

TO: Madam Chair Anderson and Commissioners

FROM: Robert A. Schneider, PhD.
Executive Director

SUBJECT: I-395 Express Lane Annual Transit Payment

At the December meeting, the Commission will be briefed on key elements related to the I-395 Express Lane annual transit payment in anticipation of entering into a Memorandum of Agreement (MOA) with the Northern Virginia Transportation Commission (NVTC) on the administration of the funds. This MOA would establish a new Commuter Choice program that serves commuters along the I-95/I-395 corridor.

It is anticipated that the first annual transit payment of \$15 million would be available to the Commissions at the commencement of tolling on the I-395 Express Lanes in late 2019. As such, the Commission will be presented the I-395 Annual Transit Payment MOA for approval at the January meeting so that the plans for the initial program of projects can commence.

A. Overview of the I-395 Express Lanes Project

At a future Commission meeting, staff from the Virginia Department of Transportation (VDOT) will provide the Commission with an update on construction and the project schedule of the extension of high occupancy toll (HOT) lanes along the I-395 Express Lanes. This presentation will be followed by an update from the Department of Rail and Public Transportation (DRPT) on the recently-completed I-395/95 Transit / Transportation Demand Management (TDM) Study. DRPT's effort will help inform the potential projects that could apply for funding under the annual transit payment.

Background

In June 2017, VDOT entered into an agreement with 95 Express Lanes, LLC, for

Source: Virginia Department of Transportation

the extension of approximately eight miles of HOT lanes between Turkeycock Run (near Edsall Road) and the vicinity of Eads Street in Arlington. Under this project, the two existing High Occupancy Vehicle (HOV) lanes are being converted to express lanes and a third lane is being added, providing three reversible express lanes. As a part of the agreement, 95 Express Lanes LLC agreed to provide the Commonwealth with an annual payment for transit services of \$15 million per year, escalating by 2.5 percent per year, beginning on the commencement of tolling through the life of the 70-year agreement. Once the project is completed, vehicles with three or more people will be able to use the express lanes for free while vehicles with fewer than three people have the choice to pay a variable toll and use the express lanes. Construction began in August 2017, with the new extended lanes opening in Fall 2019 and the entire project set for completion in Summer 2020.

To align with the opening of the new HOT lanes, DRPT conducted a study to identify a comprehensive set of transit and Transportation Demand Management (TDM) investments on which future toll revenues from the I-395 Express Lanes may be spent. The study identified potential projects such as new and expanded bus and rail transit services, transit capital projects, commuter parking facilities, TDM program enhancements, and technology improvements that support transit and TDM – all with the intent of maximizing person throughput along the corridor. Many of these projects may be strong candidates for funding under the annual transit payment.

B. Memorandum of Agreement Between PRTC and NVTC for the Distribution and Allocation of I-395 Annual Transit Investment Funds

The Commission will be briefed on the proposed approach for the joint administration of a new Commuter Choice program that would serve I-95/I-395 Express Lane commuters. At the January meeting the Commission will be asked to approve a Memorandum of Understanding (MOA) with NVTC that outlines the distribution and allocation of the annual transit payment under the I-395 Express Lane project. This agreement would allow for the annual transit investment (ATI) funds to be administered under a joint arrangement, reducing program administration costs and facilitating greater regional cooperation in the selection of projects.

Through a separate Memorandum of Agreement between the Commonwealth (CTB, VDOT, DRPT) and PRTC and NVTC, the Commonwealth agreed to provide \$15 million/year plus escalation to PRTC and NVTC to administer a program that funds multimodal projects along the I-395/95 Express Lanes corridor. The agreement includes the opportunity for PRTC and NVTC to mutually agree on a joint approach for selecting projects. The proposed MOA between PRTC and NVTC would allow the Commissions to collectively select projects, subject to the approval of the Commonwealth Transportation Board.

Background

As a part of the agreement between VDOT and 95 Express Lanes, LLC, the Commonwealth secured an annual payment for transit services of \$15 million per year, escalating by 2.5 percent per year, beginning on the commencement of tolling through the life of the 70-year agreement. Tolling commencement is expected in late 2019.

Approved by the CTB at their December 2017 meeting, the MOA with PRTC and NVTC allocates \$15 million/year plus escalation to PRTC and NVTC to fund multimodal projects along the I-395/95 Express Lane Corridor. The agreement proposes an allocation approach that would proportion annual funding based upon the populations of jurisdictions along the corridor. For PRTC, the population calculation is proposed to include the Counties of Prince William, Stafford, and Spotsylvania and the City of Fredericksburg; for NVTC, the population calculation is proposed to include the Counties of Fairfax and Arlington and the City of Alexandria. The agreement does permit PRTC and NVTC to develop an alternate funding approach, subject to approval by the Commonwealth.

Eligible applicants include all PRTC and NVTC jurisdictions and any public transit providers that serve those jurisdictions. Similar to the [Transform I-66 agreement](#) between NVTC and the Commonwealth, eligible projects would include transit capital and operations, park and ride lots, Transportation Demand Management (i.e., carpool/vanpool, transit incentives), and roadway operational improvements. Metrorail, Metrobus, and the Virginia Railway Express operations and capital are specifically called out as eligible projects in the proposed agreement.

As with the I-66 Commuter Choice Program, all projects would be required to benefit the toll payers of the corridor. Under the agreement with the Commonwealth, the corridor is inclusive of the entire I-395/95 37-mile Express Lane corridor.

Selected projects would need to support the goals of the agreement, as follows:

1. Move more people;
2. Enhance transportation connectivity;
3. Improve transit service;
4. Reduce roadway congestion; and
5. Increase travel options.

Elements of the Proposed Memorandum of Agreement

The proposed Memorandum of Agreement (MOA) will establish the implementation of this joint program, including how the annual transit funds are disbursed to the Commissions, and the process by which the Commissions will select projects for funding. Key elements of the proposed agreement are as follows:

1. Distribution of ATI Funds

The proposed MOA designates NVTC as the recipient and manager of the annual transit investment (ATI) funds for purposes of jointly administering the program with PRTC.

2. Project Selection Process

Each year, PRTC and NVTC would jointly agree upon a process for project selection in accordance with the MOA with the Commonwealth. The process shall include a time line such that the projects selected

by the Commissions can be sent to the CTB for review at its May workshop and approval at its June meeting.

3. Reports

- a) The PRTC Executive Director and the NVTC Executive Director shall provide joint reports to the Commissions quarterly, and at such additional times as either PRTC or NVTC may request, about the status of project funds.
- b) Annually, and in advance of the required annual report to the CTB, the PRTC Executive Director and the NVTC Executive Director shall provide a joint report to the Commissions of the status of all funded projects.

The Commissions will be presented the I-395 Annual Transit Payment MOA for approval at the January meetings. Upon enactment, PRTC and NVTC will jointly establish a program timeline and project selection process for the initial call for projects, anticipating selected projects would commence service on toll day one (as early as December 2019).

Summary: “Impacts of Bus Stop Improvements”

Original Report by University of Utah Department of City & Metropolitan Planning (March 2018)

Improving bus stops by providing shelters, seating, signage and sidewalks is relatively inexpensive and popular among riders and local officials. Making such improvements, however, is not often a priority for U.S. transit providers because of competing demands for capital funds and a perception that amenities are not tied to measurable increases in system effectiveness or efficiency.

A recent study analyzed bus stop improvements made by the Utah Transit Authority (UTA) to determine whether, and to what extent, the improvements are associated with changes in stop-level ridership and demand for Americans with Disabilities Act (ADA) paratransit service in the areas immediately surrounding improved bus stops. The study compares ridership and paratransit demand from before and after the improvements at the treated stops and at a set of unimproved stops selected using propensity score matching to control for demographic, land use and regional accessibility influences.

The bus stop improvements included creating ADA-compliant concrete pads and installing a variety of fixtures, including trash cans, benches, shelters, better connections to sidewalks, and (at a grocery store) a shopping cart corral. Amenities like shelters, seating, universally accessible bus stop platforms, trash receptacles, bike parking, signage and lighting are all popular with riders and local government partners, but do they lead to measurable improvements?

The analysis shows that the improved bus stops are associated with a statistically significant increase in overall ridership and a decrease in paratransit demand compared to the control group stops. Specifically, between 2013 and 2016, improved bus stops saw ridership increases that were *92% higher* than increases at the control group stops, while also experiencing ADA paratransit demand increases that were *94% lower* than at the control stops.

These outcomes are important for transit service providers as they seek to increase overall ridership and reduce costs associated with providing paratransit service.

So What? Why should OMNIRIDE improve bus stops?

Providing evidence on performance metrics associated with stop improvements would help inform investment decisions associated with “first-mile/last-mile” improvements, which should be prioritized in OMNIRIDE’s annual performance goals. Having the correct amenities at a bus stop is critically important. Increased levels of amenities can make elderly and disabled riders comfortable with using the fixed route system and appropriate amenities can increase the appeal of the OMNIRIDE transit system.

The study asserts that the bus stop improvements appear to be popular, but perhaps the more important finding from this study is the reduced ADA paratransit demand observed in the areas surrounding the improved stops. Many bus stops in the survey lacked a stable, level pad from which a wheelchair could easily board a bus. Many also lacked sidewalk connections that would facilitate wheelchair access to the stop location. In short, many of the stops effectively inhibited those with mobility-based disabilities from getting to UTA’s scheduled bus service.

An accessible bus stop can mean the difference between an elderly or disabled rider being able to utilize OMNIRIDE bus services or not. If accessible stops are not available, riders may be forced to use options that provide increased boarding assistance and flexibility, such as paratransit or accessible taxis. Neither of these options are as cost effective as public transit. Therefore, increasing the number of accessible stops is vital for elderly and disabled populations with Prince William County.

This study augments OMNIRIDE’s understanding of how improvements in bus stops can affect human interactions with our transit services. It is frequently asserted in transit design literature that the bus stop is the point of first contact between a transit agency and its customer. How a stop is designed and constructed sends important signals to the public about OMNIRIDE’s attitude toward existing and potential riders – are they to be valued, facilitated and coaxed into riding, or merely accommodated.

Strategic Plan
Update
PRTC Commission
Meeting
December 6, 2018

Strategic Recommendations - Partnerships

- Collaborate with local jurisdictions on the investigation and implementation of new mobility solutions
- Expand PRTC's role to become the go-to advisor and partner for multimodal transportation
- Build strategic relationships with the business community to gain support for goals and objectives

Strategic Recommendation Actions - Partnerships

- Participate in working groups for jurisdictional planning
- Engage stakeholders in planning discussions through sponsored meetings
- Create and maintain a forum to encourage input on specific initiatives
- Create a task force to develop policies connecting transit and land-use

OmniRide Mobility Council Objectives

- Establish forum for continuing productive engagement
- Build partnerships around specific topics
- Formalize relationships
- Identify common areas of concern and work towards solutions

OmniRide Mobility Council Structure

- Quarterly meetings
- Councils formed around single topics
- Organized and facilitated by OmniRide staff
- Co-sponsors for each council
- Council reports from each meeting

Potential Mobility Councils and Partners

- Vanpool Council w/ GWRC, VDPRT
- Slugging Council w/ sluglines.com, sluglines.com
- Employers Council w/ PW Chamber of Commerce
- Human Services Council, CHS, Area Agency on Aging

INDEPENDENT AUDITOR'S REPORT

To the Honorable Commission Board Members
Potomac and Rappahannock Transportation Commission

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities and each major fund of the Potomac and Rappahannock Transportation Commission (Commission), as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Commission's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Authorities, Boards, and Commissions* issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards and specifications require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Commission's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Commission's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and each major fund of the Commission, as of June 30, 2018, and the respective changes in financial position and cash flows, thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

Change in Accounting Principles

As discussed in Note 16 to the financial statements, the Commission restated beginning net position in order to record the other postemployment benefits and related components in accordance with the implementation of GASB Statement No. 75.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require the Management's Discussion and Analysis and the required supplementary information on pages 4-10 and 59-64, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Commission's basic financial statements. The accompanying schedules listed in the table of contents as supplementary information and Schedule of Expenditures of Federal Awards, as required by the Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplementary information and Schedule of Expenditures of Federal Awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information and Schedule of Expenditures of Federal Awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 19, 2018 on our consideration of the Commission's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Commission's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The management of the Potomac and Rappahannock Transportation Commission ("PRTC") offers the users of PRTC's financial statements this narrative overview and analysis of the financial activities for the fiscal year ended June 30, 2018. Please read it in conjunction with the accompanying financial statements which follow this section.

FINANCIAL HIGHLIGHTS

The basic financial statements report information about the PRTC reporting entity as a whole. The PRTC reporting entity is composed of two funds: Bus Service and Member Jurisdictions Fund and the Commuter Rail Service Fund.

As of June 30, 2018, PRTC's assets exceeded liabilities by \$293,572,261. Of this total, \$78,219,072 is for bus service and member jurisdictions and \$215,353,189 is for commuter rail service.

The net position of PRTC increased by \$3,702,283 for fiscal year 2018. This is the net effect of a \$167,355 increase from bus service and member jurisdictions and a \$3,534,928 increase from commuter rail service.

As of June 30, 2018, PRTC's unrestricted net position is \$64,492,739. Of this total, \$25,619,680 is for bus service and member jurisdictions and \$38,873,059 is for commuter rail service.

OVERVIEW OF THE BASIC FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to PRTC's basic financial statements. PRTC's basic financial statements are comprised of: Statement of Net Position; Statement of Revenues, Expenses and Changes in Net Position; Statement of Cash Flows; and notes to the financial statements. This report also contains required supplementary information and supplementary information in addition to the basic financial statements.

The *Statement of Net Position* presents information on all of PRTC's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the difference reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of PRTC is improving or declining.

The *Statement of Revenues, Expenses and Changes in Net Position* presents information on revenues, expenses, and changes in PRTC's net position. All changes in net position are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in the statement for some items that will only result in cash flows in future fiscal periods. The increase or decrease in net position may serve as an indicator of the effect of PRTC's current year operation on its financial position.

The *Statement of Cash Flows* summarizes all of PRTC's cash flows into four categories: cash flows from operating activities; cash flows from capital and related financing activities; cash flows from noncapital financing activities; and cash flows from investing activities. The Statement of Cash Flows, along with related notes and information in other financial statements, can be used to assess the following:

- PRTC's ability to generate future cash flows,
- PRTC's ability to pay its debt as it matures,
- Explanations of differences between PRTC's operating cash flows and operating loss, and
- The effect on PRTC's financial position of cash and non-cash transactions from investing, capital and financing activities.

The *notes to the financial statements* provide additional information that is essential to a full understanding of the data provided in the basic financial statements. The notes to the financial statements can be found immediately following the financial statements.

The Bus Service and Member Jurisdictions Fund accounts for operation and maintenance costs for PRTC bus service as well as the 2.1% motor fuel tax activity for the PRTC member jurisdictions.

PRTC operates commuter bus service from the Prince William County and Manassas areas to various points in the metropolitan Washington, D.C. area, and local bus service within Prince William County and the Cities of Manassas and Manassas Park.

PRTC member jurisdictions receive motor fuel tax revenue from a 2.1% sales tax levied by the Commonwealth of Virginia through its Department of Motor Vehicles. The Department of Motor Vehicles collects the tax and remits funds to PRTC monthly, after deducting its administrative costs. These funds are separately maintained by PRTC for the benefit of each member jurisdiction and are used to pay administrative costs of PRTC and transportation projects serving a particular jurisdiction.

The Commuter Rail Service Fund accounts for PRTC's portion of operation and maintenance costs of the Virginia Railway Express (VRE) commuter rail service. Assets owned by PRTC and the Northern Virginia Transportation Commission (NVTC) for the VRE operations have been funded by a variety of sources including federal assistance with PRTC as grantee, Commonwealth of Virginia assistance with NVTC as grantee, local contributions, and various loans and other financing arrangements for which one or both Commissions have served as issuer, borrower, or in other related capacities. For financial statement reporting purposes, assets, liabilities, and operations are assigned and allocated to NVTC and PRTC based on asset ownership, named entity on debt instruments, and sources of funding.

In order to present a full and accurate picture of VRE operations, all financial transactions related to the commuter rail program reported separately in the financial statements of PRTC and NVTC are combined in a separate set of financial statements. These audited financial statements can be obtained from the Director of Finance and Administration of PRTC at 14700 Potomac Mills Road, Woodbridge, Virginia 22192.

FINANCIAL ANALYSIS OF THE PRTC REPORTING ENTITY AS A WHOLE

Statement of Net Position

The following table presents a summary of the Statement of Net Position for the PRTC reporting entity as of June 30, 2018 and 2017:

Summary of Net Position As of June 30

	Bus Service and Member Jurisdictions		Commuter Rail Service		Total	
	2018	2017	2018	2017	2018	2017
Assets and deferred outflows of resources:						
Current assets	\$ 47,074,164	\$ 44,076,930	\$ 48,449,185	\$ 49,342,396	\$ 95,523,349	\$ 93,419,326
Capital assets, net	38,428,003	42,865,199	176,399,440	173,102,668	214,827,443	215,967,867
Net pension asset	217,448	-	292,569	-	510,017	-
Deferred outflows of resources	315,925	455,857	429,179	646,262	745,104	1,102,119
Total assets and deferred outflows of resources	86,035,540	87,397,986	225,570,373	223,091,326	311,605,913	310,489,312
Liabilities and deferred inflows of resources:						
Current liabilities	5,600,799	7,189,672	4,206,955	4,944,420	9,807,754	12,134,092
Noncurrent liabilities	1,997,684	2,156,597	5,713,615	6,328,645	7,711,299	8,485,242
Deferred inflows of resources	217,985	-	296,614	-	514,599	-
Total liabilities and deferred inflows of resources	7,816,468	9,346,269	10,217,184	11,273,065	18,033,652	20,619,334
Net Position:						
Net investment in capital assets	36,951,457	41,120,936	170,664,839	166,680,316	207,616,296	207,801,252
Restricted	15,647,935	11,530,153	5,815,291	5,624,865	21,463,226	17,155,018
Unrestricted	25,619,680	25,400,628	38,873,059	39,513,080	64,492,739	64,913,708
Total net position	\$ 78,219,072	\$ 78,051,717	\$ 215,353,189	\$ 211,818,261	\$ 293,572,261	\$ 289,869,978

As noted earlier, net position may serve as a useful indicator of a government's financial position. As shown above, total assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$293.5 million, an increase of \$3.7 million over the previous fiscal year. The largest portion of net position, \$207.6 million or 70.7%, represents the investment in capital assets (e.g., buses, rail rolling stock, building, building improvements and accumulated depreciation and amortization), less the related indebtedness outstanding used to acquire those capital assets. These assets are used to provide bus and rail service and consequently, are not available for future spending.

A portion of the net position, \$21.4 million or 7.3%, represents resources restricted for member jurisdictions, commuter rail liability insurance plan, and commuter rail grants or contributions.

Current assets consist primarily of cash, cash equivalents, and investments; grant revenue due from the Federal Government and the Commonwealth of Virginia; and motor fuel tax revenue receivable collected on PRTC's behalf by the Commonwealth. Current assets increased approximately \$2.1 million or 2.2% from the prior year, primarily due to increased cash and investments, of \$5.2 million, offset by decreased grant and other receivables of \$2.7 million and decreased inventory of \$0.4 million.

Capital assets, net of accumulated depreciation and amortization, decreased approximately \$1.1 million or 0.5 % primarily as the result of rail rolling stock additions and bus overhauls less the sale of older buses, vehicles and rail rolling stock.

Statement of Revenues, Expenses and Changes in Net Position

The following table shows the revenues and expenses and the change in net position of the PRTC reporting entity for the fiscal years ended June 30, 2018 and 2017:

Summary of Revenues, Expenses and Changes in Net Position Years Ended June 30

	Bus Service and Member Jurisdictions		Commuter Rail Service		Total	
	2018	2017	2018	2017	2018	2017
Revenues:						
Operating revenues	\$ 34,578,463	\$ 31,709,101	\$ 22,328,585	\$ 22,893,674	\$ 56,907,048	\$ 54,602,775

Expenses:						
Operating expenses	41,315,024	42,976,995	41,468,588	39,709,755	82,783,612	82,686,750
Depreciation and amortization	6,416,523	6,342,104	9,100,535	8,868,587	15,517,058	15,210,691
Nonoperating expenses	162,555	32,685	558,082	313,541	720,637	346,226
Total expenses	47,894,102	49,351,784	51,127,205	48,891,883	99,021,307	98,243,667
Change in net position	458,402	(1,129,096)	3,956,881	1,069,829	4,415,283	(59,267)
Net position, beginning, as restated	77,760,670	79,180,813	211,396,308	210,748,432	289,156,978	289,929,245
Net position, ending	\$ 78,219,072	\$ 78,051,717	\$ 215,353,189	\$ 211,818,261	\$ 293,572,261	\$ 289,869,978

For the fiscal year ended June 30, 2018, revenues totaled \$103.4 million, compared to \$98.2 million in the preceding year, an increase of \$5.2 million or 5.3%. Expenses increased by \$0.7 million or 0.8%. A discussion of the key components of these changes follows.

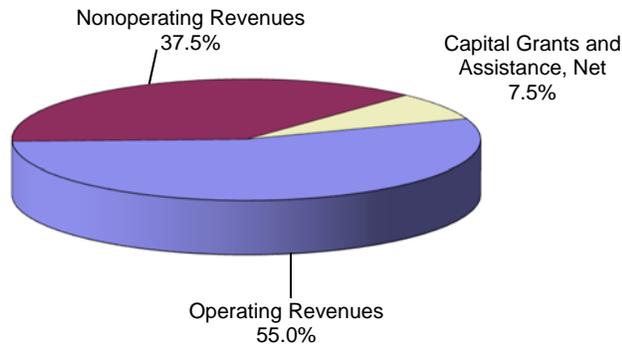

Operating revenues increased \$2.3 million or 4.2% from the prior year, primarily the result of an increase in motor fuel tax revenue of \$2.7 million offset by decreased passenger revenue of \$0.4 million.

Nonoperating revenues decreased by \$2.1 million or 5.1% from the prior year, primarily the result of decreases in federal and state nonoperating grant revenue, commuter rail jurisdictional contributions, and other revenue offset by increased investment income. Federal and state nonoperating grant revenue decreased by \$0.86 million, commuter rail jurisdictional contribution decreased by \$0.93 million, other revenue decreased by \$0.7 million, offset by an increase of \$0.4 million in investment income.

Net capital grants and assistance increased by \$5.0 million, which is attributable to less bus and rail service related federal capital grants for fiscal year 2018 compared to fiscal year 2017. In addition, the increase is due to the change in the contribution to NVTC as a result of allocating rail service between PRTC and NVTC for financial reporting purposes. Fiscal year 2018 reflects contributions to NVTC of \$4.0 million while fiscal year 2017 reflects contributions to NVTC of \$16.5 million.

The following chart shows PRTC reporting entity revenues by source for the fiscal year ended June 30, 2018.

FY18 Revenues

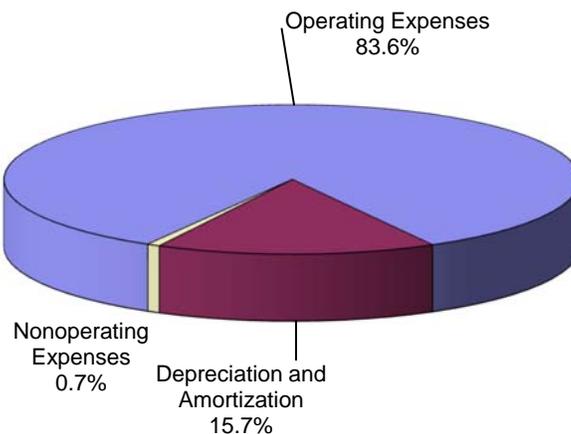

Operating expenses increased by \$0.1 million or 0.1%.

For the Bus Service and Member Jurisdictions Fund, operating expenses decreased by \$1.7 million, primarily due to direct transportation expenses. Direct transportation expenses, which represent the use of jurisdictional motor fuel tax funds for the VRE subsidy as well as other jurisdictional transportation projects independent of PRTC, decreased by \$3.1 million, while combined expenses for fuel, supplies, contractual and other services increased by \$1.4 million.

For the Commuter Rail Service Fund, operating expenses increased by \$1.7 million or 4.4%. PRTC's share of the reporting entity decreased slightly from 54% to 53%, with a corresponding increase for NVTC. Other operations and maintenance costs increased by \$1.4 million due primarily to an increase in asset management maintenance expenses, increases in diesel fuel costs, and increased costs of railcar maintenance.

The following chart shows PRTC reporting entity expenses for the fiscal year ended June 30, 2018.

FY18 Expenses

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The details of capital assets as of June 30, 2018 and 2017 are as follows:

	Bus Service and Member Jurisdictions		Commuter Rail Service		Total	
	2018	2017	2018	2017	2018	2017
Buses and related equipment	\$ 77,998,888	\$ 78,422,864	\$ -	\$ -	\$ 77,998,888	\$ 78,422,864

Furniture, equipment and software	-	-	8,918,939	8,838,409	8,918,939	8,838,409
Equity in property of others	-	-	2,893,643	2,893,643	2,893,643	2,893,643
	109,694,289	110,059,193	262,845,177	252,725,508	372,539,466	362,784,701
Less accumulated depreciation and amortization	71,266,286	67,193,994	86,445,737	79,622,840	157,712,023	146,816,834
Total capital assets, net	\$ 38,428,003	\$ 42,865,199	\$ 176,399,440	\$ 173,102,668	\$ 214,827,443	\$ 215,967,867

PRTC's investment in capital assets as of June 30, 2018, amounted to \$214.8 million (net of accumulated depreciation and amortization), which represents a decrease of \$1.1 million or 0.5%.

For bus service and member jurisdictions, eight OmniRide buses were overhauled and five OmniRide buses were sold during fiscal year 2018. The overhaul related costs amounted to \$1.8 million.

For commuter rail service, nine Gallery railcars (\$9.4 million) were placed into service, seven Gallery railcars were sold, and the Lorton Station main platform (\$1.2 million) project was completed in fiscal year 2018.

The major additions to construction in progress for commuter rail service during the fiscal year were related to acquisition of nine new Gallery railcars (\$9.2 million); the Lorton Station main platform expansion (\$0.6 million); work toward both the L'Enfant Storage Track North (\$0.4 million); ongoing work toward implementation of Positive Train Control (PTC) (\$0.4 million); and development work for the Mid-Day Storage Yard project (\$0.3 million).

Debt Administration

At June 30, 2018, PRTC had an outstanding principal balance of \$1,295,000 for its Series 2012 Revenue Bond with the Virginia Resources Authority.

PRTC's portion of debt for the commuter rail service is \$5.7 million. PRTC and NVTC are co-lessees of the capital lease for rolling stock, which is secured by the related equipment.

REQUEST FOR INFORMATION

This financial report is designed to provide a general overview of PRTC's finances for all those interested. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Director of Finance and Administration, Potomac and Rappahannock Transportation Commission, 14700 Potomac Mills Road, Woodbridge, Virginia 22192, or by email to jembrey@omniride.com.

POTOMAC AND RAPPAHANNOCK TRANSPORTATION COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 1. Organization

The Potomac and Rappahannock Transportation Commission (“PRTC” or the “Commission”) was created on June 19, 1986, as a public body corporate and politic under the provisions of Chapter 32, Article 2, Title 15.1, of the *Code of Virginia*, 1950, as amended, for the purpose of facilitating the planning and development of an improved transportation system. The transportation system is composed of transit facilities, public highways, and other modes of transportation required in order to promote orderly transportation into, within, and from the various contiguous counties and cities composing the Commission, and to secure the comfort, convenience, and safety of its citizens through joint action by those contiguous counties and cities. The Commission includes the counties of Prince William, Spotsylvania, and Stafford, as well as the cities of Fredericksburg, Manassas, and Manassas Park (collectively referred to as “member jurisdictions”). The Commission was created to manage and control the function, affairs, and property of PRTC.

The Commission has 17 members, including three from the General Assembly and one ex-officio representative from the Virginia Department of Rail and Public Transportation. The governing body of each member jurisdiction appoints, from among its members, its representatives to act as Commissioners. The composition of the Commission is as follows:

	Members	Represented Jurisdictions
Prince William County	6	1
Stafford County	2	1
Spotsylvania County	2	1
City of Manassas	1	1
City of Manassas Park	1	1
City of Fredericksburg	1	1
Commonwealth House of Delegates	2	1
Commonwealth Senate	1	1
Virginia Department of Rail and Public Transportation	1	-
	<hr/>	<hr/>
	17	8

Each Commission member, including the Virginia Department of Rail and Public Transportation representative, is entitled to one vote in all matters requiring action by the Commission. A majority vote of the Commission members present and voting, and a majority of the jurisdictions represented are required to act. For purposes of determining the number of jurisdictions present, the Virginia Department of Rail and Public Transportation is not counted as a separate jurisdiction.

Member jurisdictions do not have an explicit equity interest in PRTC. Each jurisdiction controls PRTC’s use of the motor fuel tax proceeds from that jurisdiction.

Revenues of PRTC consist principally of a 2.1% motor fuel tax, farebox and passenger revenues, and federal and state grants. The fuel tax revenues represent a sales tax on retail sales of motor vehicle fuel levied by the Commonwealth of Virginia through its Department of Motor Vehicles. The Department of Motor Vehicles collects the tax and remits funds to PRTC monthly, after deducting its administrative costs. These funds are separately maintained by PRTC for the benefit of each member jurisdiction and are used to pay administrative costs of PRTC and transportation projects serving a particular jurisdiction.

POTOMAC AND RAPPAHANNOCK TRANSPORTATION COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 2. Summary of Significant Accounting Policies

The following summarizes PRTC's significant accounting policies:

Reporting entity: PRTC has considered its relationship with the member jurisdictions in establishing the appropriate reporting entity in terms of financial accountability and fiscal dependency. None of the member jurisdictions appoint a voting majority of the Commission. Although action by PRTC, including adoption of a budget and issuance of debt, requires approval of a majority of the member jurisdictions, each jurisdiction controls PRTC's use of its 2.1% motor fuel tax proceeds. PRTC is not fiscally dependent on one particular jurisdiction. Thus, PRTC does not consider itself a component unit of any government.

The Northern Virginia Transportation Commission (NVTC) and PRTC reporting entities each include a portion of the financial activity of the joint venture Virginia Railway Express (VRE) commuter rail service. Pursuant to a Master Agreement signed in 1989, NVTC and PRTC jointly (as the "Commissions") own and operate VRE. Assets for VRE operations have been purchased in the name of the Commissions and funded primarily by grants, loans or other financing arrangements for which one or both Commissions have served as grantee, issuer, borrower, or in other related capacities. VRE provides commuter rail service on two railroad lines originating in Fredericksburg and Manassas, Virginia and terminating at Union Station, Washington, D.C. The service uses existing tracks of the CSX Transportation Corporation ("CSX"), and the Norfolk Southern Railway Company, under respective operating access agreements. Trains are operated and maintained pursuant to an agreement between the Commissions and Keolis Rail Services Virginia, LLC, and Amtrak provides the Commissions with access to storage at Union Station and other services.

Basis of presentation: The accounting policies of PRTC conform to accounting principles generally accepted in the United States of America as applicable to enterprise funds of governmental units. While separate funds are maintained internally to account for each member jurisdiction's 2.1% motor fuel tax revenues, one combined enterprise fund (Bus Service and Member Jurisdictions Fund) is used for financial statement presentation. The activities of PRTC are similar to those of proprietary funds of local jurisdictions.

PRTC reports the following major enterprise funds:

Bus Service and Member Jurisdictions Fund: The Bus Service and Member Jurisdictions Fund accounts for operation and maintenance costs for PRTC bus service, financed by the 2.1% motor fuel tax, charges for services and operating and capital funding received from the Federal government and Commonwealth of Virginia. This fund also includes the 2.1% motor fuel tax activity for the PRTC member jurisdictions.

Commuter Rail Service Fund: The Commuter Rail Service Fund accounts for PRTC's portion of operation and maintenance costs for commuter rail service, financed by passenger charges and operating and capital funding received from the Federal government, Commonwealth of Virginia and regional grants.

Basis of accounting: Basis of accounting refers to when revenues and expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to timing of the measurements made, regardless of the measurement focus applied. PRTC uses the accrual basis of accounting, where revenues are recognized when they are earned and expenses are recognized when they are incurred. Eliminations have been made to minimize the double counting of internal activities.

POTOMAC AND RAPPAHANNOCK TRANSPORTATION COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 2. Summary of Significant Accounting Policies (Continued)

Cash and investments in pooled funds, member jurisdictions: Cash and investments in pooled funds represent PRTC's share of the pooled cash and investments held by the State Treasurer's Local Government Investment Pool ("LGIP") for the benefit of the member jurisdictions. The LGIP holds and invests certain funds of PRTC on its behalf.

The Commission classifies as cash and cash equivalents amounts on deposit with banks and cash invested temporarily in various instruments with maturities of three months or less at time of purchase.

Restricted assets: Restricted assets represent funds designated for specific purposes.

Restricted cash and investments in pooled funds – member jurisdictions of \$10,920,879 at June 30, 2018 for the Bus Service and Member Jurisdictions Fund are comprised of funds related to the 2.1% motor fuel tax revenue received on behalf of the Member Jurisdictions to be used for transit related projects.

Restricted cash, cash equivalents and investments of \$5,815,291 at June 30, 2018 for the Commuter Rail Service Fund are comprised of funds related to the balance in the Liability Insurance Plan, a small liability claims account, and funds related to a property transfer with restricted future uses.

Allowance for uncollectible accounts: The allowance for uncollectible accounts is calculated by using historical collection data and specific account analysis. The allowance was approximately \$111,000 at June 30, 2018.

Inventory: An inventory of spare parts for rail rolling stock has been purchased and is maintained and managed at the Commission's warehouse located at the Crossroads yard. Inventory is stated at cost, which approximates market, and is valued using the first-in, first-out method.

Prepaid expenses: Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid expenses in the financial statements using the consumption method.

Deferred outflows/inflows of resources: In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expenditure) until then. PRTC currently has items related to the pension plan and other postemployment benefits (OPEB) – Group Life Insurance Program (GLI) that qualify for reporting in this category. See Notes 13 and 14 for details regarding these items.

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. PRTC currently has items related to the pension plan and GLI - OPEB that qualify for reporting in this category. See Notes 13 and 14 for details regarding these items.

POTOMAC AND RAPPAHANNOCK TRANSPORTATION COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 2. Summary of Significant Accounting Policies (Continued)

Capital assets: Capital assets are stated at historical cost. Capital assets are defined by PRTC for the Bus Service and Member Jurisdictions Fund as tangible assets with an initial, individual cost of more than \$5,000 or intangible assets costing more than \$25,000 with an estimated useful life in excess of one year. Donated capital assets are recorded at estimated fair market value at the date of donation. The Commuter Rail Service Fund capitalizes assets that have an initial cost of \$5,000 or more per unit and a useable life of two or more years, with the exception of software purchases, which are only capitalized if the initial cost is \$15,000 or more.

Depreciation and amortization of all exhaustible equipment and building is charged as an expense against operations using the straight-line method over the following estimated useful lives:

Buses and related equipment	2 - 12 years
Rail rolling stock	8 - 25 years
Buildings and improvements	5 - 30 years
Site improvements	5 - 20 years
Bus shelters	5 years
Vehicles	5 years
Facilities	30 - 40 years
Track and signal improvements	30 years
Furniture, equipment, and software	2 - 15 years
Equity in property of others	3 - 35 years

When, in the opinion of management, certain assets are impaired, any estimated decline in value is accounted for as a non-operating expense. There were no impaired assets as of June 30, 2018.

Compensated absences: Employees are granted annual and sick leave based on years of service. Employees with less than ten years of service may carry over a total of 225 hours of annual leave from year to year, while those with more than ten years may carry over 300 hours of annual leave. Excess annual leave may convert to sick leave or may be paid out with the approval of the Executive Director or Commuter Rail Service Chief Executive Officer. In the event of termination, an employee is reimbursed in full for accumulated annual leave.

Employees may accumulate sick leave without limitation. Employees who separate in good standing after five or more years of service will be paid for 25 percent of their sick leave credit in excess of 450 hours. Certain employees may accumulate compensatory leave for overtime worked and is payable upon termination of employment.

Compensated absences are accrued when incurred. The liability for compensated absences is included in the accompanying financial statements as both a current and noncurrent liability.

Long-term obligations: Bond premiums are deferred and amortized over the life of the bond using the straight-line method.

Pensions: For purposes of measuring the net pension asset or liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Virginia Retirement System (VRS) PRTC's Retirement Plan and the additions to/deductions from the VRS PRTC's Retirement Plan net fiduciary position have been determined on the same basis as they were reported by VRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

POTOMAC AND RAPPAHANNOCK TRANSPORTATION COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 2. Summary of Significant Accounting Policies (Continued)

Group life insurance program (GLI): The VRS GLI is a multiple employer, cost-sharing OPEB plan. It provides coverage to state employees, teachers, and employees of participating political subdivisions. The GLI was established pursuant to Section 51.1-500 et seq. of the *Code of Virginia*, as amended, and which provides the authority under which benefit terms are established or may be amended. The GLI is a defined benefit plan that provides a basic GLI benefit for employees of participating employers. For purposes of measuring the net GLI OPEB liability, deferred outflows of resources and deferred inflows of resources related to the GLI OPEB, and GLI OPEB expense, information about the fiduciary net position of the VRS GLI OPEB and the additions to/deductions from the VRS GLI OPEB's net fiduciary position have been determined on the same basis as they were reported by VRS. In addition, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Net position: Net position represents the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources. The net position caption "net investment in capital assets" consists of capital assets, net of accumulated depreciation and amortization, reduced by outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net investment in capital assets excludes unspent debt proceeds. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by PRTC or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

PRTC first applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

Revenue recognition: Intergovernmental revenues, consisting primarily of Federal and Commonwealth of Virginia grants, designated for payment of specific expenses, are recognized at the time the expenses are incurred. Capital grants and assistance are recognized as additions are made to capital assets and operating resources are included in the Statement of Revenues, Expenses and Changes in Net Position when expended.

Operating revenues and expenses: Operating revenues are generated from activities related to providing public transportation services to users. Operating revenues include 2.1% motor fuel tax revenues, farebox and passenger revenues, and advertising revenues. Nonoperating revenues include federal and state grants and investment income.

Operating expenses are incurred for activities related to providing public transportation services to users. Operating expenses include direct transportation expenses and general and administrative expenses. Nonoperating expenses include interest expense.

Statement of cash flows: For purposes of reporting cash flows, cash and cash equivalents include cash on hand, demand deposits, pooled funds, money market funds, overnight repurchase agreements, and U.S. Government agency obligations having an original maturity of three months or less.

Estimates and assumptions: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

POTOMAC AND RAPPAHANNOCK TRANSPORTATION COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 2. Summary of Significant Accounting Policies (Continued)

Inter-fund transfers: Transactions among the Commission's funds would be treated as revenues and expenditures or expenses if they involved organizations external to the Commission are accounted for as revenues and expenditures or expenses in funds involved.

Transactions, which constitute reimbursements to a fund for expenditures initially made from it, which are properly applicable to another fund, are recorded as expenditures in the reimbursing fund and as reductions of expenditures in the reimbursed fund.

Transactions, which constitute the transfer of resources from a fund receiving revenues to a fund through which the revenues are to be expended, are separately reported in the respective funds' operating statements.

Subsequent events: The Commission has evaluated subsequent events through November 19, 2018, which was the date the financial statements were available to be issued.

Note 3. Cash and Investments

Deposits: Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act"), Section 2.2-4400 et seq. of the *Code of Virginia*. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

Investments: State statutes authorize local governments and other public bodies to invest in obligations of the United States or its agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper and certain corporate notes, bankers' acceptances, repurchase agreements and the LGIP.

The Commission has investments in the LGIP and Federated Government Obligations Fund (FG), which are professionally managed money market funds that invest in qualifying obligations and securities as permitted by state statutes. Pursuant to Section 2.2-4605 *Code of Virginia*, the Treasury Board of the Commonwealth sponsors the LGIP and has delegated certain functions to the State Treasurer. The LGIP reports to the Treasury Board at their regularly scheduled monthly meetings. PRTC's investments in the LGIP are stated at amortized cost and classified as cash and cash equivalents. The LGIP and FG have been assigned an "AAAm" rating by Standard & Poor's. The maturity of the LGIP and FG is less than one year.

The Commonwealth of Virginia Department of the Treasury manages PRTC's Insurance Trust. State statutes govern the portion of assets invested in the Commonwealth's pooled accounts, while the remainder is invested by an external portfolio manager. At June 30, 2018, PRTC had \$5,240,952 invested in the Insurance Trust.

POTOMAC AND RAPPAHANNOCK TRANSPORTATION COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 3. Cash and Investments (Continued)

Interest Rate Risk

Interest rate risk is defined as the risk that changes in interest rates will adversely affect the fair value of an investment if the investment is held for a long period of time. Interest rate risk does not apply to the LGIP since it is an external investment pool classified in accordance with Governmental Accounting Standards Board (GASB) Statement No. 79.

As of June 30, 2018, the carrying values and maturity of investments were as follows:

	Bus Service and Member Jurisdictions	Commuter Rail Service	Total	Fair Value	Maturities Less Than One Year
Sweep Account	\$ 23,657,000	\$ -	\$ 23,657,000	\$ 23,657,000	\$ 23,657,000

The Commission categorizes its fair value measurements within the fair value hierarchy established by accounting principles generally accepted in the United States of America. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

The Commission has the following recurring fair value measurement as of June 30, 2018:

- Sweep Account of \$23,657,000 is valued using quoted market prices (Level 2 inputs).

PRTC has adopted a formal investment policy. The policy specifies eligible and ineligible investments; diversification requirements; maximum length of time for various types of investments; and the process for purchasing securities.

POTOMAC AND RAPPAHANNOCK TRANSPORTATION COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 3. Cash and Investments (Continued)

PRTC's investment policy establishes the maximum percentages of the portfolio permitted on each of the following instruments:

Authorized Investments

Authorized investments for public funds are set forth in Chapter 18, Sections 2.1-327 to 2.1-329.1 of the *Code of Virginia*. The following are included on the list of authorized investments:

1. Obligations issued or guaranteed by the U.S. Government, an agency thereof, or U.S. Government sponsored corporation.
2. Certificates of deposit and time deposits in any of Virginia's qualified public depositories federally insured to the maximum extent possible and collateralized under the Virginia Security for Public Deposits Act.
3. Repurchase agreements collateralized by U.S. Treasury/agency securities.
4. Bankers' acceptances from "prime quality" major U.S. banks and domestic offices of international banks.
5. "Prime quality" commercial paper issued by domestic corporations.
6. Short-term corporate notes and/or bank notes of domestic corporations/banks.
7. The LGIP as established by the Virginia Department of the Treasury.

Diversification

Diversification of investments by security type and by issuer will be consistent with the following guidelines:

1. The portfolio will be diversified with not more than 5% of the value of the investment pool's assets invested in the securities of any single issuer. This limitation will not apply to securities of the U.S. Government or agency thereof, government sponsored corporation securities, or fully insured and/or collateralized certificates of deposit.
2. The Bus Service and Member Jurisdiction Fund investment policy establishes the maximum percentages of the portfolio permitted in each of the following instruments:

LGIP	100% maximum
U.S. Treasury and Agency Securities	100% maximum
Certificates of Deposit	25% maximum
Repurchase Agreements	50% maximum
Bankers' Acceptances	40% maximum
Commercial Paper	35% maximum
Corporate Notes and Bank Notes	25% maximum

The Commuter Rail Service Fund's investment policy provides limitations on the percentage of the portfolio that can be invested in each type of security, as indicated in the following chart.

POTOMAC AND RAPPAHANNOCK TRANSPORTATION COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 3. Cash and Investments (Continued)

The limitations provided in the investment policy for maximum maturity and the percentages of the portfolio permitted for each category of investments are as follows:

Investment	Length of Maturity	Percent Allowed
Bonds, notes, and other evidence of indebtedness of the United States	60 months or less	100%
Bonds, notes, and other evidence of indebtedness of the Commonwealth of Virginia	60 months or less	100%
Bonds, notes, and other evidence of indebtedness of any county, city, town, district, authority, or other public body of the Commonwealth of Virginia	36 months or less	100%
Bonds and notes of FNMA and FHLB	36 months or less	75%
Savings accounts or CD's of any bank or savings and loan association within the Commonwealth of Virginia	12 months or less	20%
Money market mutual funds	13 months or less	60%
Repurchase agreements	24 months or less	20%
Bankers' acceptances	24 months or less	10%
Prime Quality Commercial Paper (no more than 5% from one issuer)	270 days or less	35%
High Quality Corporate Notes	24 months or less	50%
Certificates representing ownership in treasury bond principal	24 months or less	50%
LGIP	N/A	100%
Negotiable CD's and negotiable bank deposit notes	24 months or less	25%

Funds are held in the LGIP for the benefit of the various member jurisdictions as follows:

	Bus Service and Member Jurisdictions
Stafford County	\$ 2,605,462
Prince William County	927,646
City of Manassas	371,558
City of Manassas Park	2,495,070
City of Fredericksburg	944,025
Spotsylvania County	<u>3,577,118</u>
	<u>\$ 10,920,879</u>

POTOMAC AND RAPPAHANNOCK TRANSPORTATION COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 8. Joint Venture – Virginia Railway Express

The NVTC reporting entity and the PRTC reporting entity contain their respective shares of the financial activity of the VRE joint venture. In order to present a full and accurate picture of VRE operations, all financial transactions related to the commuter rail program are combined in a separate set of financial statements. These audited financial statements can be obtained from the Director of Finance and Administration of PRTC at 14700 Potomac Mills Road, Woodbridge, Virginia 22192.

Assets owned by the Commissions for the VRE operations have been funded by a variety of sources including federal assistance with PRTC as grantee, Commonwealth of Virginia assistance with NVTC-VRE as grantee, local contributions, and various loans and other financing arrangements for which one or both Commissions have served as issuer, borrower, or in other related capacities.

The federal grant agreements control the use and disposal of property acquired with federal grant funds. If property is removed from service prior to the end of its useful life, the grant recipient may be required to return to the grantor agency the federal assistance expended on that property. In addition, permission of the grantor agency is required if property is disposed of prior to the end of its useful life or at any time for an amount in excess of \$5,000.

The Master Agreement for the use of Commonwealth of Virginia Transportation Funds controls the use and disposal of property acquired with state grant funds. If any project equipment are not used for the purpose for which they were purchased for the duration of their useful lives, the Commonwealth has the option of requiring the grantee to relinquish title to the project equipment or remit an amount equal to the proportional share of the fair market value based upon the ratio of participation by the state. For facilities, the Commonwealth requires an amount equal to the proportional share of fair market value based upon the ratio of participation by the state be remitted.

Pursuant to a Master Agreement signed in 1989, the Commissions own and operate VRE. VRE provides commuter rail service on two railroad lines originating in Fredericksburg and Manassas, Virginia and terminating at Union Station, Washington, D.C. The service uses existing track of the CSX Transportation Corporation ("CSX"), and the Norfolk Southern Railway Company, under respective operating access agreements. Trains are operated and maintained pursuant to an agreement between the Commissions and Keolis Rail Services Virginia, LLC, and Amtrak provides the Commissions with access to storage at Union Station and other services.

VRE is managed by the Commissions. Certain functions have been delegated to the VRE Operations Board, which consists of representatives of all contributing and participating jurisdictions and one representative of the Commonwealth of Virginia's Department of Rail and Public Transportation. The system is not currently configured for fare revenues alone to produce positive operating income. In addition to fares, the project is financed with proceeds from the Commuter Rail Revenue Bonds, a federal loan (refinanced in fiscal year 2018 to a bond), a lease financing, Federal and Commonwealth of Virginia grants, Northern Virginia Transportation Authority (NVTA) regional grants and jurisdictional contributions apportioned through a formula based on ridership, supplemented by voluntary donations from contributing jurisdictions. Grants and contributions fund both operations and capital projects. Participating jurisdictions include the counties of Fairfax, Prince William, Spotsylvania, and Stafford; and the cities of Manassas, Manassas Park, and Fredericksburg, Virginia. Contributing jurisdictions include Arlington County and the City of Alexandria, Virginia.

POTOMAC AND RAPPAHANNOCK TRANSPORTATION COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 8. Joint Venture – Virginia Railway Express (Continued)

In July 2007, the Commissions adopted amendments to the VRE Master Agreement that expanded the Operations Board to include all member jurisdictions and provided for board representation proportionate to system ridership, and weighted voting proportionate to jurisdictional subsidy. In addition, the amendments apportioned jurisdictional subsidies on system ridership only, rather than the former 90% system ridership and 10% population formula. The amendment to the subsidy formula was phased in over four years, beginning in fiscal year 2008. The amendments also allowed for greater autonomy for the Operations Board, with progressively more decisions made by the Board without referral to PRTC and NVTC.

POTOMAC AND RAPPAHANNOCK TRANSPORTATION COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 9. Direct Transportation Expenses

In addition to PRTC administrative costs, the member jurisdictions authorize disbursements from their respective 2.1% motor fuel tax revenues for transportation projects operating or originating within their jurisdiction. During the year ended June 30, 2018, amounts expended for joint and jurisdictional transportation projects consisted of:

	Bus Service and Member Jurisdictions
VRE support	\$ 5,191,287
Other jurisdictional projects	2,981,111
	<u>\$ 8,172,398</u>

VRE payments are made in accordance with operating and capital budgets prepared by VRE and adopted by its Operations Board.

Note 10. Risk Management and Liability Insurance Plan

PRTC and the VRE commuter rail operation is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Commercial insurance is purchased to address these risks, including workers' compensation and employee health and accidental insurance. The Virginia Department of Treasury, Division of Risk Management has established the terms of VRE's Commuter Rail Operations Liability Plan (the Insurance Plan). The Insurance Plan consists of a combination of self-insurance reserves and purchased insurance in amounts actuarially determined to meet the indemnification requirements of the Operating Access Agreements and the Purchase of Services Agreement and for liability and property coverage. The Commissions indemnify each of the railroads in an amount up to the passenger rail liability cap (currently at \$295,000,000) for any claims against persons or property associated with commuter rail operations. Settled claims have not exceeded commercial coverage during any of the past three fiscal years. The liability for incurred but not reported claims was approximately \$140,000 at June 30, 2018, of which \$70,000 was included in the PRTC reporting entity. PRTC is indemnified from risk related to its bus/bus facility issues by virtue of its contract with First Transit, the third-party bus services provider.

NOTES TO FINANCIAL STATEMENTS

Note 10. Risk Management and Liability Insurance Plan (Continued)

The Division of Risk Management manages the Insurance Trust Fund pursuant to provisions of the Insurance Plan. Since November 2006, all plan assets have been invested in the Department of the Treasury common pool. Activity in the Insurance Trust Fund for the year ended June 30, 2018 was as follows:

	Total	PRTC Reporting Entity
Beginning balance, July 1, 2017	\$ 10,416,871	\$ 5,208,436
Contribution to reserves	3,700,000	1,850,000
Insurance premiums paid	(3,742,259)	(1,871,130)
Investment income	132,037	66,019
Actuarial and administrative charges	(24,745)	(12,373)
Ending balance, June 30, 2018	<u>\$ 10,481,904</u>	<u>\$ 5,240,952</u>

An actuarial study is performed annually to determine the adequacy of the Insurance Trust Fund for the risk retained and to determine the required contribution to reserves.

Note 11. Related Party Transactions

For the year ended June 30, 2018, expenses incurred for legal services provided by Prince William County were \$39,000.

Note 12. Deferred Compensation Benefits

PRTC offers a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan is available to all employees and permits them to defer a portion of their current salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property, or rights are held in trust for the exclusive benefit of plan participants and/or beneficiaries. PRTC has the duty of due care that would be required of any prudent investor.

PRTC contributions to the deferred compensation plan for the year ended June 30, 2018 were \$18,400.

PRTC also offers a Governmental Money Purchase Plan (401a) to the Executive Director (including the Interim) for deferred compensation purposes. PRTC contributions to the 401a for the year ended June 30, 2018 were \$18,518.

Note 13. Pension Plan

Name of Plan: Virginia Retirement System (VRS)
Identification of Plan: Agent Multiple-Employer Pension Plan
Administering Entity: Virginia Retirement System (System)

A. Plan Description

All full-time, salaried permanent employees of PRTC are automatically covered by VRS Retirement Plan upon employment. This plan is administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia. Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the *Code of Virginia*, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service.

The System administers three different benefit structures for covered employees – Plan 1, Plan 2, and Hybrid. Each of these benefit structures has a different eligibility criteria. The specific information for each plan and the eligibility for covered groups within each plan are set out in the table below:

PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN
About Plan 1 Plan 1 is a defined benefit plan. The retirement benefit is based on a member's age, creditable service and average final compensation at retirement using a formula.	About Plan 2 Plan 2 is a defined benefit plan. The retirement benefit is based on a member's age, creditable service and average final compensation at retirement using a formula.	About the Hybrid Retirement Plan The Hybrid Retirement Plan combines the features of a defined benefit plan and a defined contribution plan. <ul style="list-style-type: none">•The defined benefit is based on a member's age, creditable service and average final compensation at retirement using a formula.•The benefit from the defined contribution component of the plan depends on the member and employer contributions made to the plan and the investment performance of those contributions.•In addition to the monthly benefit payment payable from the defined benefit plan at retirement, a member may start receiving distributions from the balance in the defined contribution account, reflecting the contributions, investment gains or losses, and any required fees.

NOTES TO FINANCIAL STATEMENTS

Note 13. Pension Plan (Continued)

B. Employees Covered by Benefit Terms

As of the June 30, 2016 actuarial valuation, the following employees were covered by the benefit terms of the pension plan:

	Number
Inactive members or their beneficiaries currently receiving benefits	22
Inactive members:	
Vested	18
Non-vested	27
Active elsewhere in VRS	9
Total inactive members	54
Active members	91
Total covered employees	167

C. Contributions

The contribution requirement for active employees is governed by Section 51.1-145 of the *Code of Virginia*, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement. Prior to July 1, 2012, all or part of the 5.00% member contribution may have been assumed by the employer. Beginning July 1, 2012, new employees were required to pay the 5.00% member contribution. In addition, for existing employees, employers were required to begin making the employee pay the 5.00% member contribution. This could be phased in over a period of up to 5 years and the employer is required to provide a salary increase equal to the amount of the increase in the employee-paid member contribution. The Commission elected to not phase in the increase, but rather provided a 5.00% salary increase to all employees on July 1, 2012.

PRTC's contractually required contribution rate for the year ended June 30, 2018 was 5.37% for Plan 1 and Plan 2 and 4.37% for the Hybrid Plan of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2016.

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by an employee during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from PRTC were \$413,766 and \$419,283 for the years ended June 30, 2018 and 2017, respectively.

D. Net Pension (Asset) Liability

PRTC's net pension (asset) liability was measured as of June 30, 2017. The total pension liability used to calculate the net pension (asset) liability was determined by an actuarial valuation performed as of June 30, 2016, using updated actuarial assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2017.

POTOMAC AND RAPPAHANNOCK TRANSPORTATION COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 13. Pension Plan (Continued)

E. Actuarial Assumptions

The total pension liability for the Commission's retirement plan was based on an actuarial valuation using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2017.

Inflation	2.5 percent
Salary increases, including inflation	3.5 percent – 5.35 percent
Investment rate of return	7.0 percent, net of pension plan investment expense, including inflation*

* Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 7.0%. However, since the difference was minimal, and a more conservative 7.0% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 7.0% to simplify preparation of pension liabilities.

Mortality Rates:	15% of deaths are assumed to be service related.
– Pre-retirement:	RP-2014 Employee Rates at age 80, Healthy Annuitant Rates at ages 81 and older projected with scale BB to 2020; males 95% of rates; females 105% of rates.
– Post-retirement:	RP-2014 Employee Rates to age 49, Healthy Annuitant Rates at ages 50 and older projected with scale BB to 2020; males set forward 3 years; females 1.0% increase compounded from ages 70 to 90.
– Post-disablement:	RP-2014 Disability Mortality Rates projected with scale BB to 2020; males set forward 2 years, 110% of rates; females 125% of rates.

The actuarial assumptions used in the June 30, 2016 valuation were based on the results of an actuarial experience study for the period from July 1, 2012 through June 30, 2016. Changes to the actuarial assumptions as a result of the experience study are as follows:

Mortality Rates (Pre-retirement, post-retirement healthy, and disabled)	Update to a more current mortality table – RP-2014 projected to 2020
Retirement Rates	Lowered rates at older ages and changed final retirement from 70 to 75
Withdrawal Rates	Adjusted rates to better fit experience at each year age and service through nine years of service
Disability Rates	Lowered rates
Salary Scale	No change

POTOMAC AND RAPPAHANNOCK TRANSPORTATION COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 13. Pension Plan (Continued)

F. Long-Term Expected Rate of Return

The long-term expected rate of return on pension System investments was determined using log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Target Allocation	Arithmetic Long-Term Expected Rate of Return	Weighted Average Long-Term Expected Rate of Return
Public Equity	40.00%	4.54%	1.82%
Fixed Income	15.00%	0.69%	0.10%
Credit Strategies	15.00%	3.96%	0.59%
Real Assets	15.00%	5.76%	0.86%
Private Equity	15.00%	9.53%	1.43%
Total	100.00%		4.80%
		Inflation	2.50%
		* Expected arithmetic nominal return	7.30%

* The above allocation provides a one-year return of 7.30%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the system, stochastic projections are employed to model future returns under various economic conditions. The results provide a range of returns over various time periods that ultimately provide a median return of 6.83%, including expected inflation of 2.50%.

POTOMAC AND RAPPAHANNOCK TRANSPORTATION COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 13. Pension Plan (Continued)

G. Discount Rate

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ending June 30, 2019, the rate contributed by the employer for PRTC's retirement plan will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly. From July 1, 2019 on, participating employers are assumed to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

H. Changes in the Net Pension (Asset) Liability

	Total Pension Liability	Plan Fiduciary Net Position	Net Pension (Asset) Liability
Balance at June 30, 2016	\$ 15,244,599	\$ 14,713,522	\$ 531,077
Changes for the year:			
Service cost	756,831	-	756,831
Interest	1,051,830	-	1,051,830
Changes of assumptions	(243,263)	-	(243,263)
Difference between expected and actual experience	38,724	-	38,724
Contributions – employer	-	419,283	(419,283)
Contributions – employee	-	407,825	(407,825)
Net investment income	-	1,829,732	(1,829,732)
Benefit payments, including refunds of employee contributions	(436,912)	(436,912)	-
Administrative expense	-	(9,970)	9,970
Other changes	-	(1,654)	1,654
Net changes	1,167,210	2,208,304	(1,041,094)
Balance at June 30, 2017	\$ 16,411,809	\$ 16,921,826	\$ (510,017)

POTOMAC AND RAPPAHANNOCK TRANSPORTATION COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 13. Pension Plan (Continued)

I. Sensitivity of the Net Pension (Asset) Liability to Changes in the Discount Rate

The following presents the net pension (asset) liability of the Commission, using the discount rate of 7.00%, as well as what the Commission's net pension (asset) liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00%) or 1-percentage-point higher (8.00%) than the current rate:

	1% Decrease (6.00%)	Current Discount Rate (7.00%)	1% Increase (8.00%)
Plan's net pension (asset) liability	\$ 1,834,373	\$ (510,017)	\$ (2,442,477)

J. Pension Expense and Deferred Outflows and Inflows of Resources Related to Pensions

For the year ended June 30, 2018, the Commission recognized pension expense of \$19,085. The Commission also reported deferred outflows and inflows of resources from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 234,187	\$ -
Changes of assumptions	-	187,340
Net difference between projected and actual earnings on pension plan investments	-	249,259
Employer contributions subsequent to the measurement date	413,766	-
Total	\$ 647,953	\$ 436,599

The \$413,766 reported as deferred outflows of resources related to pensions resulting from PRTC's contributions subsequent to the measurement date will be recognized as a decrease of the net pension liability in the year ending June 30, 2019.

Other amounts reported as deferred outflows and (inflows) of resources related to pensions will be recognized in pension expense as follows:

<u>Year Ending June 30,</u>	<u>Amount</u>
2019	\$ (105,827)
2020	81,034
2021	(3,857)
2022	(173,762)
	<u>\$ (202,412)</u>

K. Pension Plan Data

Information about the VRS Political Subdivision Retirement Plan is also available in the separately issued VRS 2017 Comprehensive Annual Financial Report (CAFR). A copy of the 2017 VRS CAFR may be downloaded from the VRS website at <http://www.varetire.org/Pdf/Publications/2017-annual-report.pdf>, or by writing to the VRS Chief Financial Officer at P.O. Box 2500, Richmond, Virginia 23218-2500.

Note 14. Other Postemployment Benefits Plan – Group Life Insurance Program

A. Plan Description

All full-time, salaried permanent employees of PRTC are automatically covered by the VRS Group Life Insurance Program (GLI) upon employment. This plan is administered by the Virginia Retirement System (the System), along with pensions and other OPEB plans, for public employer groups in the Commonwealth of Virginia.

In addition to the Basic GLI benefit, members are also eligible to elect additional coverage for themselves as well as a spouse or dependent children through the Optional GLI program. For members who elect the optional GLI coverage, the insurer bills employers directly for the premiums. Employers deduct these premiums from the members' paychecks and pay the premiums to the insurer. Since this is a separate and fully insured program, it is not included as part of the GLI Program OPEB.

POTOMAC AND RAPPAHANNOCK TRANSPORTATION COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 14. Other Postemployment Benefits Plan – Group Life Insurance Program (Continued)

A. Plan Description (Continued)

The specific information for GLI Program OPEB, including eligibility, coverage and benefits is set out in the table below:

GROUP LIFE INSURANCE PROGRAM PLAN PROVISIONS
<p>Eligible Employees The GLI was established July 1, 1960, for state employees, teachers and employees of political subdivisions that elect the program.</p> <p>Basic GLI coverage is automatic upon employment. Coverage ends for employees who leave their position before retirement eligibility or who take a refund of their member contributions and accrued interest.</p>
<p>Benefit Amounts The benefits payable under the GLI have several components.</p> <ul style="list-style-type: none"> • Natural Death Benefit – The natural death benefit is equal to the employee’s covered compensation rounded to the next highest thousand and then doubled. • Accidental Death Benefit – The accidental death benefit is double the natural death benefit. • Other Benefit Provisions – In addition to the basic natural and accidental death benefits, the program provides additional benefits provided under specific circumstances. These include: <ul style="list-style-type: none"> ○ Accidental dismemberment benefit ○ Safety belt benefit ○ Repatriation benefit ○ Felonious assault benefit ○ Accelerated death benefit option
<p>Reduction in Benefit Amounts The benefit amounts provided to members covered under the GLI are subject to a reduction factor. The benefit amount reduces by 25% on January 1 following one calendar year of separation. The benefit amount reduces by an additional 25% on each subsequent January 1 until it reaches 25% of its original value.</p>
<p>Minimum Benefit Amount and Cost-of-Living Adjustment (COLA) For covered members with at least 30 years of creditable service, there is a minimum benefit payable under GLI. The minimum benefit was set at \$8,000 by statute. This amount is increased annually based on the VRS Plan 2 COLA and is currently \$8,111.</p>

POTOMAC AND RAPPAHANNOCK TRANSPORTATION COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 14. Other Postemployment Benefits Plan – Group Life Insurance Program (Continued)

B. Contributions

The contribution requirements for the GLI are governed by Sections 51.1-506 and 51.1-508 of the *Code of Virginia*, as amended, but may be impacted as a result of funding provided to state agencies and school divisions by the Virginia General Assembly. The total rate for the GLI was 1.31% of covered employee compensation. This was allocated into an employee and an employer component using a 60/40 split. The employee component was 0.79% (1.31% X 60%) and the employer component was 0.52% (1.31% X 40%). Employers may elect to pay all or part of the employee contribution, however, the employer must pay all of the employer contribution. Each employer’s contractually required employer contribution rate for the year ended June 30, 2018 was 0.52% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2016. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits payable during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the GLI from PRTC were \$46,151 and \$44,865 for the years ended June 30, 2018 and June 30, 2017, respectively.

C. GLI OPEB Liabilities, GLI OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the Group Life Insurance Program OPEB

At June 30, 2018, PRTC reported a liability of \$703,000 for its proportionate share of the net GLI OPEB liability. The net GLI OPEB liability was measured as of June 30, 2017 and the total GLI OPEB liability used to calculate the net GLI OPEB liability was determined by an actuarial valuation as of that date. The covered employer’s proportion of the net GLI OPEB liability was based on the covered employer’s actuarially determined employer contributions to the GLI for the year ended June 30, 2017 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2017, the participating employer’s proportion was \$44,865 or 0.04678% as compared to \$37,373 or 0.04333% at June 30, 2016.

For the year ended June 30, 2018, PRTC recognized GLI OPEB expense of \$17,000. Since there was a change in the proportionate share between measurement dates, a portion of the GLI OPEB expense was related to deferred amounts from changes in proportion.

At June 30, 2018, the employer reported deferred outflows of resources and deferred inflows of resources related to the GLI OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Net difference between expected and actual experience	\$ -	\$ 16,000
Changes of assumptions	-	36,000
Net difference between projected and actual earnings on GLI OPEB program investments	-	26,000
Changes in proportion	51,000	-
Employer contributions subsequent to the measurement date	46,151	-
Total	\$ 97,151	\$ 78,000

POTOMAC AND RAPPAHANNOCK TRANSPORTATION COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 14. Other Postemployment Benefits Plan – Group Life Insurance Program (Continued)

C. GLI OPEB Liabilities, GLI OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the Group Life Insurance Program OPEB (Continued)

The \$46,151 reported as deferred outflows of resources related to the GLI OPEB resulting from the employer’s contributions subsequent to the measurement date will be recognized as a reduction of the net GLI OPEB liability in the fiscal year ending June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the GLI OPEB will be recognized in the GLI OPEB expense in future reporting periods as follows:

Year Ending June 30,	Amount
2019	\$ (7,000)
2020	(7,000)
2021	(7,000)
2022	(6,000)
	<u>\$ (27,000)</u>

D. Actuarial Assumptions

The total GLI OPEB liability was based on an actuarial valuation as of June 30, 2016, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2017.

Inflation	2.5%
Salary increases, including inflation:	
Locality – general employees	3.5%-5.35%
Investment rate of return	7.0%, net of investment expenses, including inflation*

* Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 7.0%. However, since the difference was minimal, and a more conservative 7.0% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 7.0% to simplify preparation of the OPEB liabilities.

Mortality Rates – Non-Largest Ten Locality Employers – General Employees

Pre-Retirement: RP-2014 Employee Rates to age 80, Healthy Annuitant Rates to 81 and older projected with Scale BB to 2020; males 95% of rates; females 105% of rates.

Post-Retirement: RP-2014 Employee Rates to age 49, Healthy Annuitant Rates at ages 50 and older projected with Scale BB to 2020; males set forward three years; females 1.0% increase compounded from ages 70 to 90.

Post-Disablement: RP-2014 Disability Life Mortality Table projected with Scale BB to 2020; males set forward two years, 110% of rates; females 125% of rates.

POTOMAC AND RAPPAHANNOCK TRANSPORTATION COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 14. Other Postemployment Benefits Plan – Group Life Insurance Program (Continued)

D. Actuarial Assumptions (Continued)

The actuarial assumptions used in the June 30, 2016 valuation were based on the results of an actuarial experience study for the period from July 1, 2012 through June 30, 2016. Changes to the actuarial assumptions as a result of the experience study are as follows:

Mortality Rates (pre-retirement, post-retirement healthy, and disabled)	Updated to a more current mortality table – RP-2014 projected to 2020
Retirement Rates	Lowered retirement rates at older ages and extended final retirement age from 70 to 75
Withdrawal Rates	Adjusted termination rates to better fit experience at each age and service year
Disability Rates	Lowered disability rates
Salary Scale	No change

E. Net GLI OPEB Liability

The net OPEB liability (NOL) for the GLI represents the program’s total OPEB liability determined in accordance with GASB Statement No. 74, less the associated fiduciary net position. As of June 30, 2017, NOL amounts for the GLI is as follows (expressed in thousands):

	<u>GLI OPEB Program</u>
Total GLI OPEB liability	\$ 2,942,426
Plan fiduciary net position	<u>1,437,586</u>
Employers' net GLI OPEB liability	<u>\$ 1,504,840</u>

Plan fiduciary net position as a percentage of the total GLI OPEB liability 48.86%

The total GLI OPEB liability is calculated by the System’s actuary, and each plan’s fiduciary net position is reported in the System’s financial statements. The net GLI OPEB liability is disclosed in accordance with the requirements of GASB Statement No. 74 in the System’s notes to the financial statements and required supplementary information.

POTOMAC AND RAPPAHANNOCK TRANSPORTATION COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 14. Other Postemployment Benefits Plan – Group Life Insurance Program (Continued)

F. Long-Term Expected Rate of Return

The long-term expected rate of return on the System’s investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of System’s investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Target Allocation	Arithmetic Long-Term Expected Rate of Return	Weighted Average Long-Term Expected Rate of Return
Public Equity	40.00%	4.54%	1.82%
Fixed Income	15.00%	0.69%	0.10%
Credit Strategies	15.00%	3.96%	0.59%
Real Assets	15.00%	5.76%	0.86%
Private Equity	15.00%	9.53%	1.43%
Total	100.00%		4.80%
		Inflation	2.50%
		* Expected arithmetic nominal return	7.30%

* The above allocation provides a one-year return of 7.30%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the System, stochastic projections are employed to model future returns under various economic conditions. The results provide a range of returns over various time periods that ultimately provide a median return of 6.83%, including expected inflation of 2.50%.

G. Discount Rate

The discount rate used to measure the total GLI OPEB liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made per the VRS guidance and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ending June 30, 2019, the rate contributed by PRTC for the GLI OPEB will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly. From July 1, 2019 on, employers are assumed to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the GLI OPEB’s fiduciary net position was projected to be available to make all projected future benefit payments of eligible employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total GLI OPEB liability.

POTOMAC AND RAPPAHANNOCK TRANSPORTATION COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 14. Other Postemployment Benefits Plan – Group Life Insurance Program (Continued)

H. Sensitivity of PRTC’s Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate

The following presents PRTC’s proportionate share of the net GLI OPEB liability using the discount rate of 7.00%, as well as what PRTC’s proportionate share of the net GLI OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (6.00%) or one percentage point higher (8.00%) than the current rate:

	1% Decrease (6.00%)	Current Discount Rate (7.00%)	1% Increase (8.00%)
PRTC's proportionate share of the GLI net OPEB liability	\$ 910,000	\$ 703,000	\$ 536,000

I. GLI Fiduciary Net Position

Detailed information about the GLI’s Fiduciary Net Position is available in the separately issued VRS 2017 Comprehensive Annual Financial Report (CAFR). A copy of the 2017 VRS CAFR may be downloaded from the VRS website at <http://www.varetire.org/Pdf/Publications/2017-annual-report.pdf>, or by writing to the System’s Chief Financial Officer at P.O. Box 2500, Richmond, Virginia, 23218-2500.

Note 15. Contingencies and Contractual Commitments

Fuel Contractual Commitments

PRTC entered into contracts in July, August, and November 2018 to purchase fuel at set prices for delivery in July 2018 through January 2019. The total commitment is for 462,000 gallons of fuel at approximately \$1,039,800. The fuel will be used in the normal course of business and is not being purchased for resale.

Federal and State-Assisted Programs

The Commission has received proceeds from several federal and state grant programs. Periodic audits of these grants are required and certain costs may be questioned as not being appropriate expenditures under the grant agreements. Such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds will be immaterial. Based upon past experience, no provision has been made in the accompanying financial statements for the refund of grant monies.

A combination of federal and state grants and local funds are relied upon to finance a majority of PRTC contractual services and capital projects.

At June 30, 2018, there were disputes between VRE and certain vendors. The amounts of any settlements, should they occur, are not determinable at this time. However, such amounts are not expected to be material in relation to the recorded amounts.

POTOMAC AND RAPPAHANNOCK TRANSPORTATION COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 15. Contingencies and Contractual Commitments (Continued)

The Commissions have outstanding commitments for construction of facilities and equipment. A combination of Federal (with PRTC as grantee) and Commonwealth of Virginia grants (with NVTC – VRE as grantee) and local funds will be used to finance these capital projects. The following is a summary of the more significant contractual commitments, net of expenses incurred as of June 30, 2018:

Stations and parking lots	\$	3,082,662
Rail rolling stock		1,390,011
Maintenance and layover yards		3,319,017
Track and signal improvements		90,486
Other administrative		315,106
		<hr/>
Total	\$	8,197,282
		<hr/> <hr/>

Note 16. Restatement of Beginning Net Position

The following shows the change to the beginning net position from the amounts previously reported:

	Bus Service and Member Jurisdictions	Commuter Rail Service
	<hr/>	<hr/>
Balance at June 30, 2017	\$ 78,051,717	\$ 211,818,261
Net adjustment for implementation of GASB Statement No. 75	(291,047)	(421,953)
	<hr/>	<hr/>
Balance at June 30, 2017, as restated	\$ 77,760,670	\$ 211,396,308
	<hr/> <hr/>	<hr/> <hr/>

Note 17. Operating Leases

Operating Access Agreements with the CSX and Norfolk Southern railroads provide the Commissions the right to use tracks owned by the railroads in the provision of commuter rail passenger service. These agreements require the Commissions to pay the railroads a monthly base fee and to reimburse the railroads for any incremental cost incurred by the railroads as a result of providing tracks for commuter rail service. For the year ended June 30, 2018, annual track usage fees totaled approximately \$9,888,000, of which \$5,196,000 is recognized by the PRTC reporting entity, and facility and other identified costs totaled approximately \$571,000, of which \$300,000 is recognized by the PRTC reporting entity.

POTOMAC AND RAPPAHANNOCK TRANSPORTATION COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 17. Operating Leases (Continued)

The agreement between Amtrak and the Commissions for access to and storage of equipment at Union Station and mid-day services and electrical power became effective on July 1, 2015. For the year ended June 30, 2018, costs for track access and equipment storage totaled approximately \$6,628,000, of which \$3,483,000 was recognized by the PRTC reporting entity. Costs for mid-day maintenance, utility, and other services totaled approximately \$4,965,000, of which \$2,609,000 was recognized by the PRTC reporting entity. Cost adjustments will be made in fiscal year 2019 to reflect changes to various published cost indices and the number of trains that have access to and are stored and serviced at the terminal. After October 1, 2015, charges for terminal access are determined in accordance with the cost-sharing arrangement for the Northeast Corridor passenger rail infrastructure mandated by the Passenger Rail Investment and Improvement Act of 2008 (PRIIA).

The Commissions signed a contract with Keolis Rail Services Virginia, LLC for train operations and maintenance for a five year period beginning July 1, 2015. The cost of train operations and maintenance for the year ended June 30, 2018, based on an annual budget prepared in advance, was approximately \$22,060,000, of which \$11,593,000 is recognized by the PRTC reporting entity. Costs for fiscal year 2019 will be adjusted for service additions or deletions and annual changes to the Consumer Price Index.

Note 18. Interfund Transfers

	Bus Service and Member Jurisdictions	Commuter Rail Service	Total Transferred Out
Transfer from fund:			
Bus Service and Member Jurisdictions	\$ -	\$ 24,921,858	\$ 24,921,858
Commuter Rail Service	(72,022)	-	(72,022)
Total transferred in	\$ (72,022)	\$ 24,921,858	\$ 24,849,836

The transfer from the Commuter Rail Service Fund to the Bus Service and Member Jurisdictions Fund is for general administrative services related to grant activity performed by staff of the Bus Service and Member Jurisdictions Fund.

The transfer from the Bus Service and Member Jurisdictions Fund to the Commuter Rail Service Fund is for federal grant activity in which PRTC serves as grantee on behalf of VRE.

POTOMAC AND RAPPAHANNOCK TRANSPORTATION COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 19. Pending GASB Statements

At June 30, 2018, GASB had issued statements not yet implemented by PRTC. The statements which might impact PRTC are as follows:

GASB Statement No. 83, *Certain Asset Retirement Obligations*, addresses accounting and financial reporting for certain asset retirement obligations (ARO's). This Statement establishes criteria for determining the timing and pattern of recognition of a liability and a corresponding deferred outflow of resources for ARO's. Statement No. 83 will be effective for fiscal years beginning after June 15, 2018.

GASB Statement No. 87, *Leases*, will increase the usefulness of PRTC's financial statements by requiring reporting of certain lease assets and liabilities and deferred inflows of resources for leases that previously were classified as operating leases. Statement No. 87 will be effective for fiscal years beginning after December 15, 2019.

GASB Statement No. 88, *Certain Disclosures Related to Debt*, will improve the information that is disclosed in notes related to debt. It also clarifies which liabilities governments should include when disclosing information related to debt. Statement No. 88 will be effective for fiscal years beginning after June 15, 2018.

GASB Statement No. 89, *Accounting for Interest Cost Incurred Before the End of a Construction Period*, will (1) enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period. Statement No. 89 will be effective for fiscal years beginning after December 15, 2019.

GASB Statement No. 90, *Majority Equity Interests*, is intended to improve the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. Statement No. 90 will be effective for fiscal years beginning after December 15, 2018.

PRTC has not yet determined the effect of these statements on its financial statements.

Note 20. Subsequent Events

In July 2018, VRE placed into service the L'Enfant North Storage Track, a capital improvement project. The project will be capitalized in fiscal year 2019.

In July 2018, the Commissions voted to approve a preferred design concept for the Broad Run Expansion project. While this approval has no immediate financial impact, the choice of a preferred concept will drive future decisions regarding this station location and the material costs and potential revenues related to its improvement.

In July 2018, the VRE Operations Board authorized the Chief Executive Officer to execute a Sole Source Contract with Meteorcomm LLC for five years in the amount of \$3,791,213 including contingency. Meteorcomm is the sole provider of software necessary for communications between VRE locomotives/cab control cars and the host railroads' wayside and back office systems, as required for the implementation and ongoing operations of Positive Train Control (PTC).

POTOMAC AND RAPPAHANNOCK TRANSPORTATION COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 20. Subsequent Events (Continued)

In September 2018, the VRE Operations Board authorized the Chief Executive Officer to execute a contract amendment with Vanasse Hangen Brustlin, Inc. (VHB), of Vienna, VA to exercise Option B of the Engineering and Environmental Services for the Manassas Park Station Parking Expansion Project Contract, for final design, procurement support and construction administration services in the amount of \$1,744,827, including contingency.

In June 2018, VRE entered into contracts to purchase diesel fuel at set prices for delivery in July and August 2018. The total commitment was for 168,000 gallons of fuel at a total cost of approximately \$380,000. Similarly, in September 2018, VRE entered into contracts to purchase diesel fuel at set prices for delivery in October, November, and December 2018. The total commitment was for 252,000 gallons of fuel at a total cost of approximately \$640,000. In all cases, the fuel is for use in the normal course of operations and is not being purchased for resale.

PRTC received 37 Motor Coach Industries, Inc. (MCI) 45-foot bus replacements costing \$21.3 million during September and October 2018. These buses are funded by federal, state, and local sources.

In October 2018, the Commission approved a contract amendment with Clark Construction Group, LLC to include the construction of the western maintenance facility for a guaranteed maximum price of \$39,960,147. Construction is anticipated to be completed in June 2020.

**NOTES TO REQUIRED SUPPLEMENTARY INFORMATION –
VIRGINIA RETIREMENT SYSTEM
Year Ended June 30, 2018**

Note 1. Changes of Benefit Terms

There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation. The 2014 valuation includes Hybrid Retirement Plan members for the first time. The hybrid plan applies to most new employees hired on or after January 1, 2014 and not covered by enhanced hazardous duty benefits. Because this is a fairly new benefit and the number of participants was relatively small, the impact on the liabilities as of the measurement date of June 30, 2017 are not material.

Note 2. Changes of Assumptions

The following changes in actuarial assumptions were made effective June 30, 2016 based on the most recent experience study of the System for the four-year period ended June 30, 2016:

Non-Hazardous Duty

Mortality Rates (Pre-retirement, post-retirement healthy, and disabled)	Update to a more current mortality table – RP-2014 projected to 2020
Retirement Rates	Lowered rates at older ages and changed final retirement from 70 to 75
Withdrawal Rates	Adjusted rates to better fit experience at each year age and service through nine years of service
Disability Rates	Lowered rates
Salary Scale	No change

Note 3. Contractually Required Contributions

The actuarially determined contribution rates are calculated as of June 30, one year prior to the beginning of the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rates:

Non-Hazardous Duty

Mortality Rates:	15% of deaths are assumed to be service related.
Pre-retirement:	RP-2014 Employee Rates at age 80, Healthy Annuitant Rates at ages 81 and older projected with scale BB to 2020; males 95% of rates; females 105% of rates.
Post-retirement:	RP-2014 Employee Rates to age 49, Healthy Annuitant Rates at ages 50 and older projected with scale BB to 2020; males set forward 3 years; females 1.0% increase compounded from ages 70 to 90.
Post-disablement:	RP-2014 Disability Mortality Rates projected with scale BB to 2020; males set forward 2 years, 110% of rates; females 125% of rates.

POTOMAC AND RAPPAHANNOCK TRANSPORTATION COMMISSION

**NOTES TO REQUIRED SUPPLEMENTARY INFORMATION –
OTHER POSTEMPLOYMENT BENEFITS
Year Ended June 30, 2018**

Note 1. Group Life Insurance Program

A. Changes of Benefit Terms

There have been no actuarially material changes to the Virginia Retirement System benefit provisions since the prior actuarial valuation.

B. Changes of Assumptions

The following changes in actuarial assumptions were made effective June 30, 2016 based on the most recent experience study of the Virginia Retirement System for the four-year period ended June 30, 2016:

Non-Largest Ten Locality Employers – General Employees

Mortality Rates (pre-retirement, post-retirement healthy, and disabled)	Updated to a more current mortality table – RP-2014 projected to 2020
Retirement Rates	Lowered retirement rates at older ages and extended final retirement age from 70 to 75
Withdrawal Rates	Adjusted termination rates to better fit experience at each age and service year
Disability Rates	Lowered disability rates
Salary Scale	No change

POTOMAC AND RAPPAHANNOCK TRANSPORTATION COMMISSION

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

Year Ended June 30, 2018

Note 1. Basis of Presentation and Accounting

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of PRTC under programs of the federal government for the year ended June 30, 2018. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of PRTC, it is not intended to and does not present the financial position or changes in net position of PRTC.

Federal Financial Assistance – The Single Audit Act Amendments of 1996 (Public Law 104-156) and Uniform Guidance define federal financial assistance as grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations or other assistance.

Direct Payments – Assistance received directly from the Federal government is classified as direct payments on the Schedule.

Pass-through Payments – Assistance received in a pass-through relationship from entities other than the Federal government is classified as pass-through payments on the Schedule.

Major Programs – The Single Audit Act Amendments of 1996 and Uniform Guidance establish the criteria to be used in defining major programs. Major programs for PRTC were determined using a risk-based approach in accordance with Uniform Guidance.

Catalog of Federal Domestic Assistance – The Catalog of Federal Domestic Assistance (CFDA) is a government-wide compendium of individual federal programs. Each program included in the catalog is assigned a five-digit program identification number (CFDA Number), which is reflected in the Schedule.

Cluster of Programs – Closely related programs that share common compliance requirements are grouped into clusters of programs. A cluster of programs is considered as one federal program for determining major programs. The following are the clusters administered by PRTC: Federal Transit Cluster and Highway Planning and Construction Cluster.

Note 2. Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

Pass-through identifying numbers are presented where available and applicable.

POTOMAC AND RAPPAHANNOCK TRANSPORTATION COMMISSION

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

Year Ended June 30, 2018

Note 3. Indirect Cost Rate

PRTC has elected not to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

**INDEPENDENT AUDITOR'S REPORT ON
INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the Honorable Commission Board Members
Potomac and Rappahannock Transportation Commission

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the *Specifications for Audits of Authorities, Boards, and Commissions*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia; the financial statements of the business-type activities and each major fund of the Potomac and Rappahannock Transportation Commission (Commission), as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Commission's basic financial statements, and have issued our report thereon dated November 19, 2018.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Commission's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Commission's internal control. Accordingly, we do not express an opinion on the effectiveness of the Commission's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility a material misstatement of the Commission's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Commission's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Commission's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Commission's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR’S REPORT ON COMPLIANCE
FOR EACH MAJOR FEDERAL PROGRAM AND
REPORT ON INTERNAL CONTROL OVER COMPLIANCE
REQUIRED BY THE UNIFORM GUIDANCE**

To the Honorable Commission Board Members
Potomac and Rappahannock Transportation Commission

Report on Compliance for Each Major Federal Program

We have audited the Potomac and Rappahannock Transportation Commission’s (Commission) compliance with the types of compliance requirements described in the OMB *Compliance Supplement* that could have a direct and material effect on each of the Commission’s major federal programs for the year ended June 30, 2018. The Commission’s major federal programs are identified in the summary of auditor’s results section of the accompanying Schedule of Findings and Questioned Costs.

Management’s Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor’s Responsibility

Our responsibility is to express an opinion on compliance for each of the Commission’s major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Commission’s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Commission’s compliance.

Opinion on Each Major Federal Program

In our opinion, the Commission complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2018.

Report on Internal Control over Compliance

Management of the Commission is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Commission's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Commission's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Purpose of this Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

POTOMAC AND RAPPAHANNOCK TRANSPORTATION COMMISSION

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

Year Ended June 30, 2018

The prior year single audit disclosed no findings in the Schedule of Findings and Questioned Costs and no uncorrected or unresolved findings exist from prior audit's Summary Schedule of Prior Audit Findings.

November 19, 2018

To the Honorable Commission Board Members
Potomac and Rappahannock Transportation Commission
Woodbridge, Virginia

In connection with our audit of the financial statements of the Potomac and Rappahannock Transportation Commission (“PRTC” or the “Commission”) for the year ended June 30, 2018, we are recommending the following comment as a constructive suggestion for your consideration.

Cyber Security

Cyber security is now widely considered one of the most significant risks affecting businesses and organizations today as a result of the increasing reliance on technology, the increase in the number of confidential records being transmitted and stored electronically (external and internal), and an ever increasing array of cyber-attacks (malware, ransomware, etc.). While we recognize during fiscal year 2018 PRTC had a network assessment performed by an outside party and has implemented a number of its recommendations, we recommend management implement any policies and procedures it deems necessary to mitigate the threat of a cyber-attack. This would also be a great opportunity for PRTC to review its current security policies and procedures regarding the types of information that must be secured, management and monitoring of user rights and privileges, social engineering training and awareness. These efforts could help prevent PRTC from suffering losses brought on by a cyber-attack.

The following are new Governmental Accounting Standard Board (GASB) pronouncements we think should be communicated to PRTC.

New GASB Pronouncements

As of June 30, 2018, the Governmental Accounting Standards Board (GASB) had issued several statements not yet implemented by the Commission. The statements which might impact the Commission are as follows:

Statement No. 83, *Certain Asset Retirement Obligations*

This Statement addresses accounting and financial reporting for certain asset retirement obligations (ARO). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible assets should recognize a liability based on the guidance in this Statement.

This Statement will enhance comparability of financial statements among governments by establishing uniform criteria for governments to recognize and measure certain AROs, including obligations that may not have been previously reported. This Statement will also enhance the decision-usefulness of the information provided to financial statement users by requiring disclosures related to those AROs.

The requirements of Statement No. 83 are effective for financial statements for fiscal years beginning after June 15, 2018.

Statement No. 87, *Leases*

The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. A lease is defined as a contract that conveys control of the right to use another entity's nonfinancial asset as specified in the contract for a period of time in an exchange or exchange-like transaction. Examples of nonfinancial assets include buildings, land, vehicles, and equipment. Any contract that meets this definition should be accounted for under the leases guidance, unless specifically excluded in this Statement.

The requirements of Statement No. 87 are effective for financial statements for fiscal years beginning after December 15, 2019.

Statement No. 88, *Certain Disclosures Related to Debt*

The primary objective of this Statement is to improve the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt.

This Statement defines debt for purposes of disclosure in notes to financial statements as a liability that arises from a contractual obligation to pay cash (or other assets that may be used in lieu of cash) in one or more payments to settle an amount that is fixed at the date the contractual obligation is established.

This Statement requires that additional essential information related to debt be disclosed in notes to financial statements, including unused lines of credit; assets pledged as collateral for the debt; and terms specified in debt agreements related to significant events of default with finance-related consequences, significant termination events with finance-related consequences, and significant subjective acceleration clauses.

For notes to financial statements related to debt, this Statement also requires that existing and additional information be provided for direct borrowings and direct placements of debt separately from other debt.

The requirements of Statement No. 88 are effective for financial statements for fiscal years beginning after June 15, 2018.

Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*

The objectives of this Statement are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period.

This Statement establishes accounting requirements for interest cost incurred before the end of a construction period. Such interest cost includes all interest that previously was accounted for in accordance with the requirements of paragraphs 5–22 of Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*, which are superseded by this Statement. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund.

This Statement also reiterates that in financial statements prepared using the current financial resources measurement focus, interest cost incurred before the end of a construction period should be recognized as an expenditure on a basis consistent with governmental fund accounting principles.

The requirements of Statement No. 89 are effective for reporting periods beginning after December 15, 2019. Earlier application is encouraged. The requirements of Statement No. 89 should be applied prospectively.

Statement No. 90, *Majority Equity Interests – An Amendment of GASB Statements No. 14 and No. 61*

The primary objectives of this Statement are to improve the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. It defines a majority equity interest and specifies that a majority equity interest in a legally separate organization should be reported as an investment if a government's holding of the equity interest meets the definition of an investment. A majority equity interest that meets the definition of an investment should be measured using the equity method, unless it is held by a special-purpose government engaged only in fiduciary activities, a fiduciary fund, or an endowment (including permanent and term endowments) or permanent fund. Those governments and funds should measure the majority equity interest at fair value.

For all other holdings of a majority equity interest in a legally separate organization, a government should report the legally separate organization as a component unit, and the government or fund that holds the equity interest should report an asset related to the majority equity interest using the equity method. This Statement establishes that ownership of a majority equity interest in a legally separate organization results in the government being financially accountable for the legally separate organization and, therefore, the government should report that organization as a component unit.

This Statement also requires that a component unit in which a government has a 100 percent equity interest account for its assets, deferred outflows of resources, liabilities, and deferred inflows of resources at acquisition value at the date the government acquired a 100 percent equity interest in the component unit. Transactions presented in flows statements of the component unit in that circumstance should include only transactions that occurred subsequent to the acquisition.

The requirements of this Statement are effective for reporting periods beginning after December 15, 2018.

POTOMAC AND RAPPAHANNOCK TRANSPORTATION COMMISSION

REQUIRED COMMUNICATIONS

Year Ended June 30, 2018

Generally accepted auditing standards (AU-C 260, *The Auditor's Communication with Those Charged with Governance*) require the auditor to promote effective two-way communication between the auditor and those charged with governance. Consistent with this requirement, the following summarizes our responsibilities regarding the basic financial statement audit and compliance reporting process, as well as observations arising from our audit that are significant and relevant to your responsibility to oversee the financial and compliance reporting process.

Area	Comments
Our Responsibilities With Regard to the Financial Statement and Compliance Audit	Our responsibility under auditing standards generally accepted in the United States of America; <i>Government Auditing Standards</i> , issued by the Comptroller General of the United States; the provisions of the Single Audit Act; Subpart F of Title 2 U.S. CFR Part 200, Uniform Guidance; and <i>Specifications for Audits of Authorities, Boards and Commissions</i> provided by the Auditor of Public Accounts of the Commonwealth of Virginia has been described to you in our arrangement letter dated July 10, 2018. Our audit of the financial statements does not relieve management or those charged with governance of their responsibilities, which are also described in that letter.
Overview of the Planned Scope and Timing of the Financial Statement and Compliance Audit	We have issued a separate communication dated July 10, 2018 regarding the planned scope and timing of our audit and have discussed with you our identification of and planned audit response to significant risks of material misstatement.
Accounting Policies and Practices	Preferability of Accounting Policies and Practices Under accounting principles generally accepted in the United States of America, in certain circumstances, management may select among alternative accounting practices. In our view, in such circumstances, management has selected the preferable accounting practice. Adoption of, or Change in, Accounting Policies Management has the ultimate responsibility for the appropriateness of the accounting policies used by the Commission. The Commission adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 75, <i>Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions</i> , in the current year. At June 30, 2018, GASB issued several statements not yet implemented by PRTC. The statements which might impact PRTC are included in the separately issued Management Letter.

POTOMAC AND RAPPAHANNOCK TRANSPORTATION COMMISSION

REQUIRED COMMUNICATIONS (Continued)

Year Ended June 30, 2018

Area	Comments
Accounting Policies and Practices (Continued)	Significant or Unusual Transactions We did not identify any significant or unusual transactions or significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus. Management's Judgments and Accounting Estimates Summary information about the process used by management in formulating particularly sensitive accounting estimates and about our conclusions regarding the reasonableness of those estimates is in the attached Summary of Significant Accounting Estimates.
Audit Adjustments	There were no audit adjustments made to the original trial balance presented to us to begin our audit.
Uncorrected Misstatement	We are not aware of any uncorrected misstatements other than misstatements that are clearly trivial.
Disagreements with Management	We encountered no disagreements with management over the application of significant accounting principles, the basis for management's judgments on any significant matters, the scope of the audit, or significant disclosures to be included in the financial statements.
Consultations with Other Accountants	We are not aware of any consultations management had with other accountants about accounting or auditing matters.
Significant Issues Discussed with Management	No significant issues arising from the audit were discussed or were the subject of correspondence with management.
Significant Difficulties Encountered in Performing the Audit	We did not encounter any significant difficulties in dealing with management during the audit.
Significant Written Communications Between Management and Our Firm	Copies of significant communications between our firm and management of the Commission, including the representation letter provided to us by management, are attached as Exhibit A.

POTOMAC AND RAPPAHANNOCK TRANSPORTATION COMMISSION

SUMMARY OF SIGNIFICANT ACCOUNTING ESTIMATES

Year Ended June 30, 2018

Accounting estimates are an integral part of the preparation of financial statements and are based upon management’s current judgment. The process used by management encompasses their knowledge and experience about past and current events and certain assumptions about future events. You may wish to monitor throughout the year the process used to determine and record these accounting estimates. The following describes the significant accounting estimates reflected in the Commission’s June 30, 2018 financial statements:

Estimate	Accounting Policy	Management’s Estimation Process	Basis for Our Conclusions on Reasonableness of Estimate
Capital Assets	Estimated lives of amortizable and depreciable assets	Management assigns lives to assets purchased or constructed internally based on the expected useful life of those assets or the product associated with those assets.	<p>Management’s approach to depreciation and amortization is consistent with practices of similar organizations.</p> <p>While these estimates are based on historical information, management should continue to monitor the lives assigned to the Commission’s assets to ensure the recovery period of these costs are accurate.</p>
Pension Liability and Other Postemployment Benefits (OPEB)	Pension and OPEB (assets) liabilities and costs for financial accounting and disclosure purposes	Management recognizes pension and OPEB (assets) liabilities based on market trends and industry standards.	<p>Management’s approach to recognizing pension and OPEB (assets) liabilities appears reasonable with accepted practice.</p> <p>While these estimates are based on assumptions provided by market trends and industry standards, management should monitor these estimates and compare to actual costs over time.</p>

POTOMAC AND RAPPAHANNOCK TRANSPORTATION COMMISSION

SUMMARY OF SIGNIFICANT ACCOUNTING ESTIMATES (Continued)

Year Ended June 30, 2018

Estimate	Accounting Policy	Management's Estimation Process	Basis for Our Conclusions on Reasonableness of Estimate
Inventory Valuation	Valuation assigned to inventory	Management values inventory using the first-in, first-out method. Inventory is stated at cost, which approximates market value.	While some of the items valued in inventory are based on reasonable and accurate prices, management should monitor these items to ensure values assigned to inventory items are adjusted accordingly to reflect market value.
Receivables	Allowance for doubtful accounts	Management records an allowance for uncollectible accounts based on an analysis of historical write-offs and collections to arrive at an overall assessment of whether past due accounts will be collected.	Management's approach to estimating uncollectable accounts is reasonable and consistent with prior periods. While these estimates are based on sound financial information, management should monitor these estimates and compare the actual collections of these revenues to ensure the accuracy of these estimates.

Our Firm**

Arrangement Letter

July 10, 2018

Potomac and Rappahannock Transportation Commission
14700 Potomac Mills Road
Woodbridge, Virginia 22192-2730

Attention: Robert Schneider, Executive Director

The Objective and Scope of the Audit of the Financial Statements

You have requested we audit Potomac and Rappahannock Transportation Commission's (Commission) two business-type activities and each major fund as of and for the year ended June 30, 2018, which collectively comprise the basic financial statements. Also, the required supplementary information (RSI) and supplementary information presented in relation to the financial statements taken as a whole will be subjected to the auditing procedures applied in our audit of the basic financial statements. We are pleased to confirm our acceptance and our understanding of this audit engagement by means of this letter.

Our audit will be conducted with the objective of our expressing an opinion on the financial statements.

We will also perform the audit of the Commission as of June 30, 2018 so as to satisfy the audit requirements imposed by the Single Audit Act and Subpart F of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance).

The Responsibilities of the Auditor

We will conduct our audit in accordance with auditing standards generally accepted in the United States of America (GAAS); *Government Auditing Standards* issued by the Comptroller General of the United States (GAS); the provisions of the Single Audit Act; Subpart F of Title 2 U.S. CFR Part 200, Uniform Guidance; the U.S. Office of Management and Budget's (OMB) Compliance Supplement; and the *Specifications for Audits of Authorities, Boards, and Commissions*, provided by the Auditor of Public Accounts for the Commonwealth of Virginia. Those standards, regulations, supplement, and specifications require we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

Because of the inherent limitations of an audit, together with the inherent limitations of internal control, an unavoidable risk that some material misstatements may not be detected exists, even though the audit is properly planned and performed in accordance with GAAS. Also, an audit is not designed to detect errors or fraud that are immaterial to the financial statements. The determination of abuse is subjective; therefore, GAS does not expect us to provide reasonable assurance of detecting abuse.

In making our risk assessments, we consider internal control relevant to the Commission's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Commission's internal control. However, we will communicate to you in writing concerning any significant deficiencies or material weaknesses in internal control relevant to the audit of the financial statements that we have identified during the audit.

We will also communicate to the Commission (a) any fraud involving senior management and fraud (whether caused by senior management or other employees) that causes a material misstatement of the financial statements that becomes known to us during the audit, and (b) any instances of noncompliance with laws and regulations that we become aware of during the audit (unless they are clearly inconsequential).

The funds you have told us are maintained by the Commission and that are to be included as part of our audit are listed here:

- I. Bus Service and Member Jurisdictions
- II. Commuter Rail Service

No component units are to be included in the Commission's basic financial statements.

The federal financial assistance programs and awards you have told us the Commission participates in and are to be included as part of the single audit are listed on Attachment A.

We are responsible for the compliance audit of the major programs under the Uniform Guidance, including the determination of major programs, the consideration of internal control over compliance, and reporting responsibilities.

Our reports on internal control will include any significant deficiencies and material weaknesses in controls of which we become aware as a result of updating our understanding of internal control and performing tests of internal control consistent with requirements of the standards, regulations, supplement, and specifications identified above. Our reports on compliance matters will address material errors, fraud, abuse, violations of compliance obligations, and other responsibilities imposed by state and federal statutes and regulations or assumed by contracts; and any state or federal grant, entitlement or loan program questioned costs of which we become aware, consistent with requirements of the standards, regulations, supplement, and specifications identified above.

The Responsibilities of Management and Identification of the Applicable Financial Reporting Framework

Our audit will be conducted on the basis that management and, when appropriate, those charged with governance, acknowledge and understand that they have responsibility:

1. For the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America;
2. To evaluate subsequent events through the date the financial statements are issued or available to be issued and to disclose the date through which subsequent events were evaluated in the financial statements. Management also agrees they will not evaluate subsequent events earlier than the date of the management representation letter referred to below;
3. For the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error;
4. For establishing and maintaining effective internal control over financial reporting, and for informing us of all significant deficiencies and material weaknesses in the design or operation of such controls of which it has knowledge;
5. For report distribution; and
6. To provide us with:
 - a. Access to all information of which management is aware that is relevant to the preparation and fair presentation of the financial statements such as records, documentation and other matters;
 - b. Additional information we may request from management for the purpose of the audit; and
 - c. Unrestricted access to persons within the Commission from whom we determine it necessary to obtain audit evidence.

As part of our audit process, we will request from management and, when appropriate, those charged with governance written confirmation concerning representations made to us in connection with the audit, including, among other items, that:

1. Management has fulfilled its responsibilities as set out in the terms of this letter; and
2. It believes the effects of any uncorrected misstatements aggregated by us during the current engagement and pertaining to the latest period presented are immaterial, both individually and in the aggregate, to the financial statements taken as a whole.

Management is responsible for identifying and ensuring the Commission complies with the laws and regulations applicable to its activities, and for informing us about all known material violations of such laws or regulations. In addition, management is responsible for the design and implementation of programs and controls to prevent and detect fraud or abuse, and for informing us about all known or suspected fraud or abuse affecting the Commission involving management, employees who have significant roles in internal control, and others where the fraud or abuse could have a material effect on the financial statements or compliance. Management is also responsible for informing us of its knowledge of any allegations of fraud or abuse or suspected fraud or abuse affecting the Commission received in communications from employees, former employees, analysts, regulators, or others.

Management is responsible for the preparation of the RSI and supplementary information presented in relation to the financial statements as a whole in accordance with accounting principles generally accepted in the United States of America. Management agrees to include the auditor's report on the RSI and supplementary information in any document that contains the RSI and supplementary information and indicates that the auditor has reported on such RSI and supplementary information. Management also agrees to present the RSI and supplementary information with the audited financial statements or, if the RSI and supplementary information will not be presented with the audited financial statements, to make the audited financial statements readily available to the intended users of the RSI and supplementary information no later than the date of issuance of the RSI and supplementary information and the auditor's report thereon.

Because the audit will be performed in accordance with the Single Audit Act and the Uniform Guidance, management is responsible for (a) identifying all federal awards received; (b) preparing the Schedule of Expenditures of Federal Awards (including notes and noncash assistance received) in accordance with Uniform Guidance requirements; (c) internal control over compliance; (d) compliance with federal statutes, regulations and the terms and conditions of federal awards; (e) making us aware of significant vendor relationships where the vendor is responsible for program compliance; (f) following up and taking corrective action on audit findings, including the preparation of a summary schedule of prior audit findings and a corrective action plan; and (g) submitting the reporting package and data collection form.

The Executive Committee is responsible for informing us of its views about the risks of fraud or abuse within the Commission, and its knowledge of any fraud or abuse or suspected fraud or abuse affecting the Commission.

Our association with an official statement is a matter for which separate arrangements will be necessary. The Commission agrees to provide us with printer's proofs or masters of such offering documents for our review and approval before printing, and with a copy of the final reproduced material for our approval before it is distributed. In the event our auditor/client relationship has been terminated when the Commission seeks such consent, we will be under no obligation to grant such consent or approval.

The Commission agrees that it will not associate us with any public or private securities offering without first obtaining our consent. Therefore, the Commission agrees to contact us before it includes our reports, or otherwise makes reference to us, in any public or private securities offering.

Records and Assistance

If circumstances arise relating to the condition of the Commission's records, the availability of appropriate audit evidence or indications of a significant risk of material misstatement of the financial statements because of error, fraudulent financial reporting or misappropriation of assets which, in our professional judgment, prevent us from completing the audit or forming an opinion, we retain the unilateral right to take any course of action permitted by professional standards, including declining to express an opinion or issue a report, or withdrawing from the engagement.

During the course of our engagement, we may accumulate records containing data that should be reflected in the Commission's books and records. The Commission will determine all such data, if necessary, will be so reflected. Accordingly, the Commission will not expect us to maintain copies of such records in our possession.

The assistance to be supplied by Commission personnel, including the preparation of schedules and analyses of accounts, has been discussed and coordinated with Joyce Embrey, Director of Finance and Administration. The timely and accurate completion of this work is an essential condition to our completion of the audit and issuance of our audit report.

In connection with our audit, you have requested us to perform certain non-audit services necessary for the preparation of the financial statements, including drafting the financial statements. The GAS independence standards require the auditor maintain independence so that opinions, findings, conclusions, judgments and recommendations will be impartial and viewed as impartial by reasonable and informed third parties. Before we agree to provide a non-audit service to the Commission, we determine whether providing such a service would create a significant threat to our independence for GAS audit purposes, either by itself or in aggregate with other non-audit services provided. A critical component of our determination is considerations of management's ability to effectively oversee the non-audit services to be performed. The Commission has agreed Joyce Embrey, Director of Finance and Administration, possesses suitable skill, knowledge and experience and she understands the services to be performed sufficiently to oversee them. Accordingly, the management of the Commission agrees to the following:

1. The Commission has designated Joyce Embrey, Director of Finance and Administration, as a senior member of management who possesses suitable skill, knowledge and experience to oversee the services;
2. Joyce Embrey, Director of Finance and Administration, will assume all management responsibilities for subject matter and scope of the non-audit services;
3. The Commission will evaluate the adequacy and results of the services performed; and
4. The Commission accepts responsibility for the results and ultimate use of the services.

GAS further requires we establish an understanding with the Commission's management and those charged with governance of the objectives of the non-audit services, the services to be performed, the Commission's acceptance of its responsibilities, the auditor's responsibilities and any limitations of the non-audit services. We believe this letter documents that understanding.

Other Relevant Information

PBMares, LLP may mention the Commission's name and provide a general description of the engagement in PBMares, LLP's client lists and marketing materials.

From time to time and depending upon the circumstances, we may use third-party service providers to assist us in providing professional services to you. In such circumstances, it may be necessary for us to disclose confidential client information to them. We enter into confidentiality agreements with all third-party service providers and we are satisfied that they have appropriate procedures in place to prevent the unauthorized release of your confidential information to others.

In accordance with GAS, a copy of our most recent peer review report can be located on our website at www.pbmares.com.

Fees, Costs, and Access to Workpapers

Our fees for the audit and accounting services described above are not expected to exceed \$70,000. Our fee estimate and completion of our work are based upon the following criteria:

1. Anticipated cooperation from Commission personnel.
2. Timely responses to our inquiries.
3. Timely completion and delivery of client assistance requests.
4. Timely communication of all significant accounting and financial reporting matters.
5. The assumption unexpected circumstances will not be encountered during the engagement.

If any of the aforementioned criteria are not met, then fees may increase. Fees may also increase based on the extent of accounting services and other assistance required to render a complete set of financial statements. Interim billings will be submitted as work progresses and as expenses are incurred. Billings are due upon submission. Amounts not paid within thirty days from the invoice date(s) will be subject to a late payment charge of 1.5% per month (18% per year).

Our professional standards require we perform certain additional procedures, on current and previous years' engagements, whenever a partner or professional employee leaves the firm and is subsequently employed by or associated with a client in a key position. Accordingly, the Commission agrees it will compensate PBMares, LLP for any additional costs incurred as a result of the Commission's employment of a partner or professional employee of PBMares, LLP.

In the event we are requested or authorized by the Commission or are required by government regulation, subpoena or other legal process to produce our documents or our personnel as witnesses with respect to our engagement for the Commission, the Commission will, so long as we are not a party to the proceeding in which the information is sought, reimburse us for our professional time and expenses, as well as the fees and expenses of our counsel, incurred in responding to such requests.

The documentation for this engagement is the property of PBMares, LLP. However, you acknowledge and grant your assent that representatives of the cognizant or oversight agency or their designee, other government audit staffs, and the U.S. Government Accountability Office shall have access to the audit documentation upon their request and that we shall maintain the audit documentation for a period of at least three years after the date of the report, or for a longer period if we are requested to do so by the cognizant or oversight agency. Access to requested documentation will be provided under the supervision of PBMares, LLP audit personnel and at a location designated by our firm.

Other Terms

While there is an attorney-client privilege, there is no accountant-client privilege. Accordingly, any information that you provide to us is subject to discovery. Unless prohibited by law, we will notify you if we receive any subpoena, or other third-party request for our information and/or records concerning you. If you direct us to disclose the requested information, we will comply with the subpoena and, in the case of a third-party request, we will need you to sign a form authorizing the disclosure. If you do not direct us to disclose the requested information, we will engage counsel to protect your interest in non-disclosure. In either event, we will bill you for all of our costs associated with complying with your directions. Our bill will include, in addition to our then standard fees and charges and, by way of illustration only, our attorney's fees, court costs, outside advisor's costs, penalties, and fines imposed because of our non-disclosure.

We reserve the right to withdraw from this engagement without completing our services for any reason, including, but not limited to, your failure to comply with the terms of this arrangement letter, or as we determine professional standards require.

If any portion of this engagement letter is deemed invalid or unenforceable, such a finding shall not invalidate the remainder of the terms set forth in this engagement letter.

Dispute Resolution

If any dispute other than fees arises among the parties hereto, the parties agree first to try in good faith to settle the dispute by mediation administered by the American Arbitration Association under its Rules for Professional Accounting and Related Services Disputes before resorting to litigation. The costs of any mediation proceeding shall be shared equally by all parties. You and we consent to personal jurisdiction, both for mediation and/or litigation, of the Federal District Court, Eastern District of Virginia, sitting in Richmond, Virginia, or the Richmond Circuit Court. Participation in such mediation shall be a condition to either of us initiating litigation. In order to allow time for the mediation, any applicable statute of limitations shall be tolled for a period not to exceed 120 days from the date either of us first requests in writing to mediate the dispute. The mediation shall be confidential in all respects, as allowed or required by law, except our final settlement positions at mediation shall be admissible in litigation solely to determine the prevailing party's identity for purposes of the award of attorneys' fees.

The parties hereto both agree that any dispute over fees charged by the accountant to the client will be submitted for resolution by arbitration in accordance with the Rules for Professional Accounting and Related Services Disputes of the American Arbitration Association. Such arbitration shall be binding and final. The arbitration shall take place in Richmond, Virginia. Any award rendered by the Arbitrator pursuant to this Agreement may be filed and entered and shall be enforceable in the Superior Court of the County in which the arbitration proceeds. In agreeing to arbitration, we both acknowledge that, in the event of a dispute over fees charged by the accountant, each of us is giving up the right to have the dispute decided in a court of law before a judge or jury, and instead we are accepting the use of arbitration for resolution.

Information Security – Miscellaneous Terms

PBMares, LLP is committed to the safe and confidential treatment of the Commission's proprietary information. PBMares, LLP is required to maintain the confidential treatment of client information in accordance with relevant industry professional standards which govern the provision of services described herein. The Commission agrees that it will not provide PBMares, LLP with any unencrypted electronic confidential or proprietary information, and the parties agree to utilize commercially reasonable measures to maintain the confidentiality of Commission information, including the use of collaborate sites to ensure the safe transfer of data between the parties.

Reporting

We will issue a written report upon completion of our audit of the Commission's financial statements. Our report will be addressed to the Honorable Commission Board Members. We cannot provide assurance that an unmodified opinion will be expressed. Circumstances may arise in which it is necessary for us to modify our opinion, add an emphasis-of-matter or other-matter paragraph, or withdraw from the engagement.

In addition to our report on the Commission's financial statements, we will also issue the following types of reports:

1. A report on the fairness of the presentation of the Commission's schedule of expenditures of federal awards for the year ended June 30, 2018;
2. Reports on internal control related to the financial statements and major programs. These reports will describe the scope of testing of internal control and the results of our tests of internal control;
3. Reports on compliance with laws, regulations, and the provisions of contracts or grant agreements. We will report on any noncompliance that could have a material effect on the financial statements and any noncompliance that could have a material effect, as defined by Subpart F of Title 2 U.S. CFR Part 200, Uniform Guidance, on each major program; and
4. An accompanying schedule of findings and questioned costs.

Electronic Signatures and Counterparts

Each party hereto agrees that any electronic signature of a party to this agreement or any electronic signature to a document contemplated hereby (including any representation letter) is intended to authenticate such writing and shall be as valid, and have the same force and effect, as a manual signature. Any such electronically signed document shall be deemed (i) to be "written" or "in writing," (ii) to have been signed, and (iii) to constitute a record established and maintained in the ordinary course of business and an original written record when printed from electronic files. Each party hereto also agrees that electronic delivery of a signature to any such document (via email or otherwise) shall be as effective as manual delivery of a manual signature. For purposes hereof, "electronic signature" includes, but is not limited to, (i) a scanned copy (as a "pdf" (portable document format) or other replicating image) of a manual ink signature, (ii) an electronic copy of a traditional signature affixed to a document, (iii) a signature incorporated into a document utilizing touchscreen capabilities, or (iv) a digital signature. This agreement may be executed in one or more counterparts, each of which shall be considered an original instrument, but all of which shall be considered one and the same agreement. Paper copies or "printouts," of such documents if introduced as evidence in any judicial, arbitral, mediation or administrative proceeding, will be admissible as between the parties to the same extent and under the same conditions as other original business records created and maintained in documentary form. Neither party shall contest the admissibility of true and accurate copies of electronically signed documents on the basis of the best evidence rule or as not satisfying the business records exception to the hearsay rule.

Representation Letter

November 19, 2018

PBMares, LLP
558 South Main Street
Harrisonburg, Virginia 22801

This representation letter is provided in connection with your audit of the basic financial statements of Potomac and Rappahannock Transportation Commission (Commission) as of and for the year ended June 30, 2018 for the purpose of expressing an opinion on whether the financial statements are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

We confirm, to the best of our knowledge and belief, as of November 19, 2018, the following representations made to you during your audit:

Financial Statements

1. We have fulfilled our responsibilities, as set out in the terms of the audit arrangement letter dated July 10, 2018, for the preparation and fair presentation of the financial statements referred to above in accordance with U.S. GAAP.
2. We acknowledge our responsibility for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements free from material misstatement, whether due to fraud or error.
3. We acknowledge our responsibility for the design, implementation, and maintenance of internal control to prevent and detect fraud.
4. Significant assumptions used by us in making accounting estimates, including those measured at fair value, are reasonable and reflect our judgment based on our knowledge and experience about past and current events and our assumptions about conditions we expect to exist and courses of action we expect to take.
5. Related party transactions, including those with the Virginia Railway Express, a joint venture in which the Commission has a material financial interest, and Prince William County, as defined in Section 2100 of the Governmental Accounting Standards Board's Codification of Governmental Accounting and Financial Reporting Standards, and interfund transactions, including interfund accounts and advances receivable and payable, sale and purchase transactions, interfund transfers, long-term loans, leasing arrangements, and guarantees, have been recorded in accordance with the economic substance of the transaction and appropriately accounted for and disclosed in accordance with the requirements of U.S. GAAP.
6. All events subsequent to the date of the financial statements and for which U.S. GAAP requires adjustment or disclosure have been adjusted or disclosed.

7. The effects of all known actual or possible litigation and claims have been accounted for and disclosed in accordance with U.S. GAAP, if any.
8. The following have been properly recorded and/or disclosed in the financial statements:
 - a. Guarantees whether written or oral, under which the Commission is contingently liable.
 - b. The fair value of investments.
 - c. Amounts of contractual obligations for construction and purchase of real property or equipment not included in the liabilities or encumbrances recorded on the books.
 - d. Debt issue provisions.
 - e. Leases and material amounts of rental obligations under long-term leases.
 - f. The effect on the financial statements of GASB Statement No. 83, *Certain Asset Retirement Obligations*, GASB Statement No. 87, *Leases*, GASB Statement 88, *Certain Disclosures Related to Debt*, GASB Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*, and GASB Statement No. 90, *Majority Equity Interests – An Amendment of GASB Statements No. 14 and No. 61*, which have been issued, but which we have not yet adopted.
 - g. Arrangements with financial institutions involving compensating balances or other arrangements involving restrictions on cash balances.
 - h. Assets and liabilities measured at fair value.
 - i. Significant estimates and material concentrations known to management which are required to be disclosed.
9. We have no plans or intentions that may materially affect the carrying value or classification of assets. In that regard:
 - a. The Commission has no significant amounts of idle property and equipment.
 - b. The Commission has no plans or intentions to discontinue the operations of any activities or programs or to discontinue any significant operations.
 - c. Provision has been made to reduce applicable assets that have permanently declined in value to their realizable values.
 - d. We have reviewed long-lived assets and certain identifiable intangibles to be held and used for impairment whenever events or changes in circumstances have indicated that the carrying amount of the assets might not be recoverable and have appropriately recorded the adjustment.

10. We are responsible for making the accounting estimates included in the financial statements. Those estimates reflect our judgment based on our knowledge and experience about past and current events and our assumptions about conditions we expect to exist and courses of action we expect to take. In that regard, adequate provisions have been made:
 - a. To reduce receivables to their estimated net collectable amounts.
 - b. To reduce obsolete, damaged, or excess inventories to their estimated net realizable values.
 - c. For pension obligations, post-retirement benefits other than pensions, and deferred compensation agreements attributable to employee services rendered through June 30, 2018.
 - d. For risk retention, including uninsured losses or loss retentions (deductibles) attributed to events occurring through June 30, 2018 and/or for expected retroactive insurance premium adjustments applicable to periods through June 30, 2018.

11. There are no:
 - a. Material transactions that have not been properly recorded in the accounting records underlying the financial statements.
 - b. Violations or possible violations of laws or regulations whose effects should be considered for disclosure in the financial statements or as a basis for recording a loss contingency. In that regard, we specifically represent we have not been designated as, or alleged to be, a “potentially responsible party” by the Environmental Protection Agency in connection with any environmental contamination.
 - c. Violations (and possible violations) of laws, regulations, and provisions of contracts and grant agreements whose effects should be considered for disclosure in the auditor’s report on noncompliance.
 - d. Agreements to repurchase assets previously sold.
 - e. Security agreements in effect under the Uniform Commercial Code.
 - f. Liens or encumbrances on assets or revenues or any assets or revenues which were pledged as collateral for any liability or which were subordinated in any way.
 - g. Liabilities which are subordinated in any way to any other actual or possible liabilities.
 - h. Debt issue repurchases options or agreements, or sinking fund debt repurchases ordinance requirements.
 - i. Risk financing activities.
 - j. Derivative financial instruments.
 - k. Arbitrage rebate liabilities.
 - l. Impaired capital assets.
 - m. Risk retentions, including uninsured losses or loss retentions (deductibles) attributable to events occurring through June 30, 2018 and/or for expected retroactive insurance premium adjustments applicable to periods through June 30, 2018.

- n. Material losses to be sustained in the fulfillment of, or from the inability to fulfill, any service commitments.
 - o. Material losses to be sustained as a result of purchase commitments.
 - p. Environmental clean up obligations.
 - q. Authorized but unissued bonds and/or notes.
 - r. Line of credit or similar arrangements.
12. We have no direct or indirect, legal or moral obligation for any debt of any organization, public or private, or to special assessment bond holders that is not disclosed in the financial statements.
13. The Commission has satisfactory title to all owned assets.
14. We have complied with all aspects of contractual agreements that would have a material effect on the financial statements in the event of noncompliance.
15. Net position components (net investment in capital assets, restricted; and unrestricted), are properly classified and, when applicable, approved.
16. Expenses have been appropriately classified in the Statement of Revenues, Expenses and Changes in Net Position.
17. Revenues are appropriately classified in the Statement of Revenues, Expenses and Changes in Net Position.
18. Capital assets, including intangibles, are properly capitalized, reported, and depreciated or amortized.
19. We have no knowledge of any uncorrected misstatements in the financial statements.
20. We agree with the findings of the specialist in evaluating the assertions found in Footnote 13, Pension Plan, Footnote 14, Other Postemployment Benefits Plan – Group Life Insurance Program, and have adequately considered the qualifications of the specialist in determining the amounts and disclosures used in the financial statements and underlying accounting records. We did not give or cause any instructions to be given to the specialist with respect to the values or amounts derived in an attempt to bias their work, and we are not otherwise aware of any matters that have had an impact on the independence or objectivity of the specialist.

Information Provided

21. We have provided you with:
- a. Access to all information, of which we are aware that is relevant to the preparation and fair presentation of the financial statements such as records, documentation, and other matters.
 - b. Additional information that you have requested from us for the purpose of the audit.
 - c. Unrestricted access to persons within the Commission from whom you determined it necessary to obtain audit evidence.
 - d. Minutes of the meetings of the governing body and committees of the board, or summaries of actions of recent meetings for which minutes have not yet been prepared.

22. All transactions have been recorded in the accounting records and are reflected in the financial statements.
23. We have disclosed to you the results of our assessment of risk that the financial statements may be materially misstated as a result of fraud.
24. We have no knowledge of allegations of fraud or suspected fraud, affecting the Commission's financial statements involving:
 - a. Management.
 - b. Employees who have significant roles in the internal control.
 - c. Others where the fraud could have a material effect on the financial statements.
25. We have no knowledge of any allegations of fraud or suspected fraud affecting the Commission's financial statements received in communications from employees, former employees, analysts, regulators, or others.
26. We have no knowledge of noncompliance or suspected noncompliance with laws and regulations whose effects were considered when preparing financial statements.
27. We have disclosed to you all known actual or possible litigation and claims whose effects should be considered when preparing the financial statements.
28. We are aware of no significant deficiencies, including material weaknesses in the design or operation of internal controls that could adversely affect the Commission's ability to record, process, summarize, and report financial data.
29. We have disclosed to you the identity of the Commission's related parties and all the related-party relationships and transactions of which we are aware.
30. We have informed you of all communications from regulatory agencies concerning noncompliance with, or deficiencies in, financial reporting practices.
31. During the course of your audit, you may have accumulated records containing data that should be reflected in our books and records. All such data have been so reflected. Accordingly, copies of such records in your possession are no longer needed by us.
32. We agree with the restatement to the previously issued financial statements discussed in Footnote 16. In that regard:
 - a. The restatement adjusts for a change in accounting in those financials.
 - b. We do not believe it is necessary to recall those financial statements and all users of those financial statements will receive a copy of the current year's financial statements and independent auditor's report.

Supplementary Information

33. With respect to supplementary information presented in relation to the financial statements as a whole:
 - a. We acknowledge our responsibility for the presentation of such information.

- b. We believe such information, including its form and content, is fairly presented in accordance with U.S. GAAP.
- c. The methods of measurement or presentation have not changed from those used in the prior period.

Required Supplementary Information

34. With respect to the Management's Discussion and Analysis and Required Supplementary Information presented as required by the Governmental Accounting Standards Board to supplement the basic financial statements:
- a. We acknowledge our responsibility for the presentation of such required supplementary information.
 - b. We believe such required supplementary information is measured and presented in accordance with guidelines prescribed by U.S. GAAP.
 - c. The methods of measurement or presentation have not changed from those used in the prior period.
 - d. All underlying significant assumptions or interpretations are presented in the financial statements.
 - e. When required supplementary information is presented with the audited financial statements, we will make the audited financial statements readily available to the intended users of the required supplementary information no later than the date of issuance of the required supplementary information and the auditor's report thereon.

Compliance Considerations

In connection with your audit, conducted in accordance with *Government Auditing Standards*, we confirm management:

- 35. Is responsible for the preparation and fair presentation of the financial statements in accordance with the applicable financial reporting framework.
- 36. Is responsible for compliance with the laws, regulations, and provisions of contracts and grant agreements applicable to the Commission.
- 37. Has not identified any instances that have occurred or are likely to have occurred of fraud and noncompliance with provisions of laws and regulations that have a material effect on the financial statements or other financial data significant to the audit objectives, and any other instances that warrant the attention of those charged with governance.
- 38. Has not identified any instances that have occurred or are likely to have occurred of noncompliance with provisions of contracts and grant agreements that have a material effect on the determination of financial statement amounts.
- 39. Has not identified any instances that have occurred or are likely to have occurred of abuse that could be quantitatively or qualitatively material to the financial statements.
- 40. Is responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

41. Acknowledges its responsibility for the design, implementation, and maintenance of internal controls to prevent and detect fraud.
42. Has a process to track the status of audit findings and recommendations.
43. Has provided views on the auditor's reported findings, conclusions, and recommendations, as well as management's planned corrective actions, for the report.
44. Acknowledges its responsibilities as it relates to non-audit services performed by the auditor, including a statement that it assumes all management responsibilities; that it oversees the services by designating an individual, preferably within senior management, who possesses suitable skill, knowledge, and experience; that it evaluates the adequacy and results of the services performed; and that it accepts responsibility for the results of the services.

In connection with your audit of federal awards conducted in accordance with Subpart F of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), we confirm:

45. We are responsible for complying, and we have complied, with the requirements of Uniform Guidance.
46. We are responsible for understanding and complying with the requirements of laws, regulations, and the provisions of contracts and grant agreements related to each of our federal programs.
47. We are responsible for establishing and maintaining, and we have established and maintained, effective internal control over compliance for federal programs that provides reasonable assurance we are managing federal awards in compliance with laws, regulations, and the provisions of contracts or grant agreements that could have a material effect on our federal programs in existence prior to December 26, 2014, as well as for funding increments and new awards obtained after that date.
48. We have prepared the Schedule of Expenditures of Federal Awards in accordance with Uniform Guidance and have included expenditures made during the period being audited for all awards provided by federal agencies in the form of grants.
49. We have identified and disclosed all of the Commission's government programs and related activities subject to the Uniform Guidance compliance audit.
50. We have identified and disclosed to you the requirements of laws, regulations, and the provisions of contracts and grant agreements that are considered to have a direct and material effect on each major program. We have further identified each award resulting from programs in existence prior to December 26, 2014 and funding increments or new awards obtained after that date.
51. We have made available all federal awards (including amendments, if any) and any other correspondence relevant to federal programs and related activities that have taken place with federal agencies or pass-through entities.
52. We believe we have complied with the direct and material compliance requirements.

53. We have made available all documentation related to compliance with the direct and material compliance requirements, including information related to federal program financial reports and claims for reimbursements.
54. We have provided you our interpretations of any compliance requirements subject to varying interpretations.
55. We have disclosed to you any communications from federal awarding agencies and pass-through entities concerning possible noncompliance with the direct and material compliance requirements, including communications received from the end of the period covered by the compliance audit to the date of your report.
56. We have disclosed to you the findings received and related corrective actions taken for previous audits, attestation engagements, and internal or external monitoring that directly relate to the objectives of the compliance audit, including findings received and corrective actions taken from the end of the period covered by the compliance audit to the date of the auditor's report.
57. We have provided you with all information on the status of the follow-up on prior audit findings by federal awarding agencies and pass-through entities, including all management decisions.
58. We have disclosed the nature of any subsequent events that provide additional evidence with respect to conditions that existed at the end of the reporting period that affect noncompliance during the reporting period.
59. There have been no changes in internal control over compliance or other factors that might significantly affect internal control, including any corrective action taken by us with regard to significant deficiencies in internal control over compliance (including material weaknesses in internal control over compliance), have occurred subsequent to the date as of which compliance is audited.
60. Federal program financial reports and claims for reimbursements are supported by the books and records from which the basic financial statements have been prepared.
61. The copies of federal program financial reports provided to you are true copies of the reports submitted, or electronically transmitted, to the federal agency or pass-through entity, as applicable.
62. We have charged costs to federal awards in accordance with applicable cost principles and the Uniform Guidance.
63. We are responsible for, and have accurately prepared, the summary schedule of prior audit findings to include all findings required to be included by Uniform Guidance.
64. The reporting package does not contain protected personally identifiable information.
65. We have disclosed all contracts or other agreements with service organizations.
66. We will accurately complete appropriate sections of the data collection form. We further acknowledge our responsibility for the complete, accurate, and timely filing of the data collection form with the Federal Audit Clearinghouse.

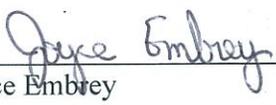

POTOMAC AND RAPPAHANNOCK TRANSPORTATION COMMISSION

Robert A. Schneider, PhD
Executive Director

11/19/18

MOTION:

SECOND:

**RE: AUTHORIZE THE EXECUTIVE DIRECTOR TO EXECUTE AN AGREEMENT
DOCUMENTING THE RESPONSIBILITIES FOR PERFORMANCE-BASED PLANNING
AND PROGRAMMING BETWEEN THE POTOMAC AND RAPPAHANNOCK
TRANSPORTATION COMMISSION AND THE FREDERICKSBURG AREA
METROPOLITAN PLANNING ORGANIZATION**

ACTION:

WHEREAS, As a condition to the receipt of Federal capital or operating assistance, have a continuing, cooperative and comprehensive transportation (3-C) planning process carried out by a metropolitan planning organization (MPO) in cooperation with the State and their local jurisdictions, and

WHEREAS, 23 CFR 450.314 – Metropolitan Planning Agreements – requires MPOs, State, and Providers of Public Transportation to cooperatively determine the mutual responsibilities necessary to carry out the metropolitan transportation planning process, and

WHEREAS, 23 CFR 450.306 - Scope of the Metropolitan Transportation Planning Process – establishes a performance-driven approach to transportation decision-making to be carried out in the metropolitan transportation planning and programming process, and

WHEREAS, The Fredericksburg Area Metropolitan Planning Organization (FAMPO) serves as the MPO for the Fredericksburg region, and

WHEREAS, FAMPO has long included representation by public transportation operators through a Board structure whose voting membership includes Board representatives from the Potomac and Rappahannock Transportation Commission (PRTC), and

WHEREAS, the Planning Agreement establishes the roles and responsibilities of each party, and

WHEREAS, PRTC would be responsible for performance-based planning and programming related to the provision of its transit service and the establishment of performance measure targets related to transit service.

NOW, THEREFORE, BE IT RESOLVED that the Potomac and Rappahannock Transportation Commission hereby authorizes the Executive Director to execute and agreement documenting the responsibilities for Performance-Based Planning and Programming (PBPP) between the Potomac and Rappahannock Transportation Commission and the Fredericksburg Area Metropolitan Planning Organization (FAMPO).

Votes:

Absent from Vote:

Alternate Present Not Voting:

Absent from Meeting:

December 6, 2018

TO: Madam Chair Anderson and PRTC Commissioners

FROM: Chuck Steigerwald
Director of Strategic Planning 

THROUGH: Robert A. Schneider, PhD
Executive Director 

SUBJECT: Authorize the Executive Director to Execute an Agreement Documenting the Responsibilities for Performance-Based Planning and Programming between the Potomac and Rappahannock Transportation Commission and the Fredericksburg Area Metropolitan Planning Organization

Recommendation:

Authorize the Executive Director to execute an agreement documenting the responsibilities for Performance-Based Planning and Programming (PBPP) between the Potomac and Rappahannock transportation Commission and the Fredericksburg Area Metropolitan Planning Organization (FAMPO).

Background:

Federal regulation (23 CFR 450.314 - Metropolitan Planning Agreements) requires MPOs, State, and Providers of Public Transportation to cooperatively determine the mutual responsibilities necessary to carry out the metropolitan transportation planning process. In addition, that the MPO(s), State(s), and the providers of public transportation shall jointly agree upon and develop specific written provisions for cooperatively developing and sharing information related to transportation performance data, the selection of performance targets, the reporting of performance targets, and the reporting of performance to be used in tracking progress toward attainment of critical outcomes for the region of the MPO. To meet these requirements, FAMPO has reached out to PRTC to take on a role representing public transportation providers in the performance-based planning and programming process.

As the designated MPO for the Fredericksburg region, FAMPO is required to ensure a performance-based planning and programming effort is developed and documented. As PRTC represents public transportation providers on the FAMPO Policy Committee, FAMPO is seeking the agency's involvement in the performance-based planning and programming process.

Madam Chair Anderson and PRTC Commissioners

December 6, 2018

Page 2

PRTC's roles and responsibilities in this process would include transit data measurement and collection, establishing and annually updating federal performance measure targets for the metropolitan transit asset management and public transportation agency safety measures and updates that report on the public transit performance history and status. PRTC would only be responsible for reporting data related to PRTC transit services operated within the FAMPO region, should the agency begin operating transit service in that region. FAMPO will be responsible for ensuring that public transportation providers currently operating service in that region meet their obligations for the provision of data. PRTC would cooperate fully in the establishment and updating of performance measure targets.

Fiscal Impact:

No fiscal impact.

Attachments:

Draft Performance-based Planning Agreement

**PLANNING AGREEMENT
ON PERFORMANCE BASED METROPOLITAN TRANSPORTATION PLANNING
RESPONSIBILITIES FOR THE FREDERICKSBURG AREA MPO**

This Planning Agreement on Performance Based Metropolitan Transportation Planning Responsibilities for the Fredericksburg Area MPO (“3C” Agreement/Planning Agreement/Agreement) is made and entered into as of _____, 2018, by and among the Fredericksburg Area Metropolitan Planning Organization’s Policy Board (FAMPO), the **region’s Metropolitan Planning Organization (MPO); Commonwealth of Virginia (State); the Potomac and Rappahannock Transportation Commission_(PRTC) and the Northern Virginia Transportation Commission (NVTC), transportation districts duly established in accordance with the Commonwealth of Virginia’s Transportation District Act of 1964, as amended, which commissions together are hereinafter called the Virginia Railway Express (VRE);, and Fredericksburg Regional Transit (FRED), (PRTC, NVTC and FRED are hereinafter referred to as the Providers of Public Transportation,) collectively “the Parties”.**

WHEREAS, the Federal Transit Administration (FTA) and the Federal Highway Administration (FHWA) on June 30, 1983 jointly issued, and on May 27, 2016 updated, rules and regulations which require that each urbanized area, as a condition to the receipt of Federal capital or operating assistance, have a continuing, cooperative and comprehensive transportation (3-C) planning process carried out by a metropolitan planning organization (MPO) in cooperation with the State and their local jurisdictions that results in plans and programs consistent with the planned development of the “urbanized area” pursuant to 23 U.S.C. 134, 23 U.S.C. 150, and 49 U.S.C. 5303, as amended; and

WHEREAS, the Fixing America’s Surface Transportation Act (P.L. 114-94)(FAST Act), and the Moving Ahead for Progress in the 21st Century Act (P.L. 112-41) (MAP-21 Act), Sec. 20005, reiterate the need for the 3-C planning process; and

WHEREAS, 23 CFR 450.314 – Metropolitan Planning Agreements – requires MPOs, State and Providers of Public Transportation to cooperatively determine the mutual responsibilities necessary to carry out the metropolitan transportation planning process, and directs MPOs, State and Providers of Public Transportation to periodically review and update these agreements; and

WHEREAS, 23 CFR 450.306 - Scope of the metropolitan transportation planning process – establishes a performance-driven approach to transportation decision-making to be carried out in the metropolitan transportation planning and programming process; and

WHEREAS, the 1990 Clean Air Act Amendments identify specific responsibilities of MPOs relating to air quality planning and the determination of conformity of transportation plans and programs; and

WHEREAS, on April 14, 1993, the FAMPO was designated as the MPO for the Fredericksburg Urbanized Area by an agreement entered into by the Governor of the Commonwealth of Virginia, Department of Transportation, City of Fredericksburg, Stafford County, and Spotsylvania County; and

WHEREAS, FAMPO serves as the MPO for the Fredericksburg Region, including the Washington DC-VA-MD Urbanized Area in Northern Stafford; and

WHEREAS, 23 U.S.C 134[d] [2] and 49 U.S.C 5303[d] [2], as amended by sections 1201 and 20005 of MAP-21, require that, by October 1, 2014, each MPO that serves an area designated as a Transportation Management Areas (TMA), of which the FAMPO is one, consist of:

1. Local elected officials,
2. Officials of public agencies that administer or operate major modes of transportation in the metropolitan area, including representation by operators of public transportation, and
3. Appropriate State officials; and

WHEREAS, the FAMPO has long included representation by public transportation operators through a Board structure whose voting membership includes Board representatives from the Potomac and Rappahannock Transportation Commission (PRTC), an agency that meets the above MAP-21 criteria and Board representatives from other local public transportation operators who directly fund public transportation, including commuter bus and rail services, thus complying with the MAP-21 requirements in this regard; and

WHEREAS, the FAMPO's continuous, cooperative, and comprehensive metropolitan planning process, and the State' and Providers of Public Transportation's planning and programming activities provide local jurisdictions, public agencies, individuals, and representatives of public transportation with opportunities to cooperate in the metropolitan transportation planning process; and

WHEREAS, the FAMPO and State must certify that the federal metropolitan transportation planning process addresses the major issues in the metropolitan planning area and is being conducted in accordance with all the applicable requirements in 23 CFR 450.336; and

WHEREAS, nothing in this Agreement shall be construed as limiting or affecting the legal authorities of the Parties, or as requiring the Parties to perform beyond their respective authority; and

NOW, THEREFORE, the FAMPO, the State and the Providers of Public Transportation agree that they will conduct a cooperative, comprehensive and continuing transportation planning and programming process for the Fredericksburg Area (Region) and their mutual responsibilities for carrying out this process are described as follows:

Article 1

Scope of the Performance-Based Metropolitan Transportation Planning Process

The FAMPO, in cooperation with the State and the Providers of Public Transportation, will conduct a performance-driven, outcome-based metropolitan transportation planning process that is continuous, cooperative, and comprehensive and they will develop long-range metropolitan transportation plans and Transportation Improvement Programs (TIPs) that provide for the consideration of projects, strategies, and services to address the federal planning factors specified in 23 CFR 450.306.

The FAMPO will use a performance-based approach to support the national goals described in 23 USC 150(b) and the general purposes described in 49 USC 5301(b). The approach will establish performance targets that address the performance measures or standards established under 23 CFR part 490 (when applicable), 49 USC 5326(c), and 49 USC 5329(d) to use in tracking progress toward attainment of critical outcomes for the Region. Selection and establishment of performance targets will be in accordance with the appropriate target setting framework established at 23 CFR part 490 and will be coordinated, to the maximum extent practicable, with the relevant State. Selection and establishment of performance targets will also address performance measures described in 49 USC 5326(c) and 49 USC 5329(d) and be coordinated, to the maximum extent practicable, with the relevant public transportation providers.

Either directly or by reference, the FAMPO will integrate into the metropolitan transportation planning process the goals, objectives, performance measures, and targets described in other State transportation processes, plans, and reports to include factors specified in 23 CFR 450.306(d)(4).

The FAMPO will carry out the metropolitan planning process in coordination with the State transportation planning processes that are required in regulations at 23 CFR 450 Subpart B-Statewide and Nonmetropolitan Transportation Planning and Programming.

The FAMPO will coordinate and prepare the coordinated public transit-human services transportation plan consistent with the metropolitan transportation planning process required by 49 USC 5303.

The FAMPO carries out the performance-driven, outcome-based metropolitan transportation process by performing a range of activities that promote an integrated approach to transportation development. The FAMPO activities comply with federal laws and requirements, provide a regional transportation policy framework and forum for coordination, and provide technical resources for decision-making. The FAMPO's 28 committee and sub-committees, as of date of execution, conduct an average of 10 meetings per month to ensure that FAMPO members, including the State and Providers of Public Transportation, local jurisdictions, and additional interested parties, engage with and meet the scope of the performance-based metropolitan transportation planning process.

Article 2

Funding for Transportation Planning and the Unified Planning Work Program

The FAMPO will, in cooperation with the State and Providers of Public Transportation, develop a Unified Planning Work Program (UPWP) that documents the performance-driven, outcome-based approach to metropolitan transportation planning activities in accordance with 23 CFR 450.308 and 23 CFR part 420 and performed with funds provided under 23 USC 104(d), 49 USC 5305(d), and 23 USC 133(d)(4).

The UPWP will document activities, tasks, and the planning priorities facing the metropolitan planning area. The UPWP will identify work proposed for the next 1- or 2-year fiscal period, beginning July 1 and ending June 30, by major activity and task and provide sufficient detail as to who will perform the work, the schedule for completing the work, the resulting products, the proposed funding by activity and task, and a summary of the total amounts and sources of Federal and matching funds.

To fund the activities agreed upon by the FAMPO and State as described in the UPWP, the George Washington Regional Commission, as the administrative agent for the FAMPO, and the State executed an Agreement upon which the terms and conditions of administrative support and assistance will be provided.

Between January and March of each year, the FAMPO, the State and the Providers of Public Transportation, in cooperation with the local jurisdictions and other FAMPO members, will prepare the UPWP, including documenting the metropolitan transportation planning activities anticipated within the Region. In March, the FAMPO will approve the UPWP and submit it to FHWA, FTA and the State for approval and funding. When necessary, the FAMPO can approve amendments, modifications, and technical corrections to the UPWP and submit it to FHWA and FTA for information and review.

Article 3
Metropolitan Planning Organization Designation and Redesignation

The FAMPO has been designated the MPO for the Fredericksburg Area Region by the Governor of Virginia to carry out the metropolitan transportation planning process under 23 CFR 450, Subpart C and required by 23 USC 134 and 49 USC 5303, as amended. FAMPO includes the counties of Stafford and Spotsylvania and the City of Fredericksburg.

The Bylaws of the FAMPO, as amended on March 28, 2018, establish its membership, time and place of meeting, officers, voting procedures, committees, staffing, public participation, and procedures for amendments.

In the event there is a need for redesignation, FAMPO will carry out the requirements in accordance with the provisions under 23 CFR 450.310.

- go to next page -

Article 4

Metropolitan Planning Area Boundaries

The FAMPO will, under agreement between the MPO and Governor, determine the boundaries of the metropolitan planning area, as established under 23 CFR 450.312, to accomplish the performance-driven, outcome-based long-range metropolitan planning approach.

After each census, the FAMPO will review this planning boundary in cooperation with the Commonwealth of Virginia and Providers of Public Transportation to determine if the existing boundaries meet the minimum statutory requirements for new and updated urbanized areas. The FAMPO will adjust the boundary, as necessary, to reflect the most comprehensive boundary to foster an effective planning process that ensures connectivity between modes, improves access to modal systems, and promotes efficient overall transportation investment strategies. The FAMPO planning boundary for the Region includes the counties of Stafford and Spotsylvania and the City of Fredericksburg. Figures 1 and 2 on page 19 and 20 show the FAMPO planning area boundary for the Region, the location of each of the participating local jurisdictions, and the urbanized areas.

Where part of the urbanized areas served by the FAMPO extends into an adjacent metropolitan planning area, or vice versa, the FAMPO will establish agreement(s) allowing for minor adjustments to each region's boundaries and outlining responsibilities for each metropolitan planning area overlap. The agreement(s) will also detail coordination processes, the division of transportation planning responsibilities among and between the regions and data sharing for the establishment and measurement of performance targets and standards established under 23 CFR part 490 (as applicable), 49 USC 5326(c), and 49 USC 5329(d). The Fredericksburg Area Metropolitan Planning Organization and National Capital Region Transportation Planning Board (TPB) established an agreement, on November 17, 2004, for the urbanized areas overlapping the planning areas of those two MPOs.

- go to next page -

Article 5
Metropolitan Planning and Supporting Agreements

FAMPO will, in cooperation with the State and Providers of Public Transportation, periodically evaluate this Agreement and supporting agreements and cooperatively determine the mutual responsibilities for carrying out the metropolitan transportation planning process under 23 CFR 450.314.

The FAMPO will, in cooperation with the State and Providers of Public Transportation, periodically evaluate this Agreement and supporting agreements to include specific provisions for the development of financial plans that support the performance-driven, outcome-based long-range metropolitan transportation plan and the Transportation Improvement Program (TIP), and development of the annual listing of obligated projects, as described in Article 9 – Development and Content of the Metropolitan Transportation Plan, Article 10 - Development and Content of the Transportation Improvement Program, and Article 11 – Annual Listing of Projects with Federal Funding Obligations of this Agreement, respectively.

As of November 17, 2004 and subject to future adjustments, the FAMPO's urbanized area includes locations that are within the MPA of the adjacent TPB MPO to the north. The urbanized area of northern Stafford County, Virginia, while part of the TPB's urbanized area is within the MPA of the Fredericksburg MPO (FAMPO). As required under 23 CFR 450.314 (g), when an urbanized area is designated to more than one MPO, the MPOs will establish a written agreement describing the roles and responsibilities of each MPO in coordinating the metropolitan transportation planning process to assure development of consistent metropolitan transportation plans and Transportation Improvement Programs across the Metropolitan Planning Area boundaries, especially when a proposed transportation project extends across the boundaries of the MPA, in accordance with 23 FR 450.314 (e). The TPB and the Fredericksburg Area MPO established an agreement, on November 17, 2004.

- go to next page -

Article 6
Interested Parties, Participation, and Consultation

The FAMPO will develop, use, and maintain a documented Public Participation Plan (PPP) to provide citizens, affected public agencies, and all interested parties with reasonable opportunities to be involved in the performance-driven metropolitan transportation planning process and to review and comment at key decision points as specified in 23 CFR 450.316. The PPP will be coordinated with the State public involvement and consultation on transportation planning processes.

- go to next page -

Article 7

Transportation Planning Studies, Development of Programmatic Mitigation Plans, and Project Development Process Under the National Environmental Policy Act (NEPA)

The FAMPO, the State and the Providers of Public Transportation may undertake a multimodal, systems-level corridor or subarea planning study as part of the metropolitan transportation planning process as specified in 23 CFR 450.318.

The development of these studies will involve consultation with, or joint efforts among, the FAMPO, State and Providers of Public Transportation. The results or decision of these planning studies may be used as part of the overall project development process consistent with the National Environmental Policy Act (NEPA).

The FAMPO, the State and the Providers of Public Transportation may also undertake development of programmatic mitigation plans as part of the metropolitan transportation planning process to address the potential environmental impacts of future transportation projects as specified in 23 CFR 450.320.

The development of these plans will involve consultation with, or joint efforts among, the FAMPO, State and Providers of Public Transportation, FHWA and/or the FTA, and other federal, state, and local agency or agencies with jurisdiction and special expertise over the resources being addressed in the plan(s). These entities will also determine the scope and content of such plan(s) and may integrate these programmatic mitigation plan(s) with other plans, including watershed plans, ecosystem plans, species recovery plans, growth management plans, State Wildlife Action Plans, and land use plans for the region.

Article 8

Congestion Management Process in Transportation Management Areas

The FAMPO will, in cooperation with the State and the Providers of Public Transportation, operators of public transportation, and local officials, address congestion management through a process that provides for safe and effective integrated management and operation of the multimodal transportation system, as required by 23 CFR 450.322. This process will be based on the cooperative development and implementation of a metropolitan-wide strategy, including new and existing transportation facilities eligible for funding under title 23 USC and title 49 USC Chapter 53, job access projects, and operational management strategies.

Development of a congestion management process, through the performance-driven transportation planning process, may result in multimodal system performance measures and strategies that can be reflected in the performance-based metropolitan transportation plan, TIP, and performance-driven planning and programming requirements. It may assess the extent of congestion and support the evaluation of the effectiveness of congestion reduction and mobility enhancement strategies for the movement of goods and people.

In congestion management process, the FAMPO may develop a congestion management plan that includes projects and strategies that will be considered in the TIP as specified in 23 CFR 450.322(h).

The FAMPO conducts the congestion management process through four components: (1) It monitors and evaluates transportation system performance, (2) defines and analyzes strategies, (3) implements strategies and assess, and (4) compiles project-specific congestion management information. It is updated as information becomes available, engagement conducted through the metropolitan planning process, and results incorporated into the performance-driven metropolitan transportation planning and programming requirements as specified in Article 1 - Scope of the Performance-Driven Metropolitan Transportation Planning Process.

- go to next page -

Article 9

Development and Content of the Metropolitan Transportation Plan

At least every 5 years, the FAMPO shall develop or amend an integrated multimodal performance-based long-range metropolitan transportation plan that includes both long-range and short-range strategies and actions to facilitate the safe and efficient movement of people and goods in addressing current and future transportation trends and demands as specified in 23 CFR 450.324. The FAMPO shall approve this plan and submit it for information purposes to the State and make copies of updated and/or revised transportation plans available to the FHWA and FTA.

When updating the performance-based long-range metropolitan transportation plan, the FAMPO shall base the update on the latest available estimates and assumptions for population, land use, travel, employment, congestion, economic activity, and environmental concerns. The FAMPO shall approve the performance-based long-range metropolitan transportation plan (Plan) contents and supporting analyses produced for any update to the long-range Plan.

The FAMPO will make a conformity determination on the Plan and any regionally significant updates or amendments in accordance with the Clean Air Act, the United State Environmental Protection Agency's (EPA's) transportation conformity regulations 40 CFR part 93, subpart A, and the FAMPO's May 1998 air quality conformity process and agreement titled "Consultation Procedures with Respect to Transportation Conformity Regulations Governing FAMPO Plans and Programs."

The Plan shall include, at minimum, the elements listed under 23 CFR 450.324 (f)(1-12). The Plan shall be designed such that, once implemented, it makes progress toward achieving the performance targets established under 23 CFR 450.306 (c) and (d). The performance measures and targets and a description of progress made toward target achievement since the Plan's last update shall be included.

As part of the five-year update to the Plan, the FAMPO, State and Providers of Public Transportation will cooperatively develop, share, review, and adopt estimates of revenues and costs required for the financial plan that demonstrate fiscal constraint for the Plan as specified in 23 CFR 450.324(f)(11)).

The FAMPO uses the committee structures and meeting schedules for the metropolitan transportation process, as needed and as described in Article 1 – Scope of the Performance-Based Metropolitan Transportation Planning Process, to meet the requirements of the Plan as specified in 23 CFR 450.324. The FAMPO coordinates with numerous planning processes at the local and state levels to help determine the content of the Plan. The FAMPO is guided by its own vision and priorities which in turn reflect federal policy guidance.

- go to next page -

Article 10
Development and Content of the Transportation Improvement Program (TIP)

The FAMPO will develop a TIP for the Region that reflects the investment priorities established in the current long-range metropolitan transportation plan developed pursuant to Article 9 of this Agreement and shall cover a period of no less than four (4) years as specified in 23 CFR 450.326.

The TIP will be updated at least every four (4) years and be approved by the FAMPO and State for their approval and inclusion in their State Transportation Improvement Programs (STIP). Copies of any updates or revisions will be provided to FHWA and FTA.

The FAMPO will make a conformity determination on the TIP and any major updates or amendments in accordance with the Clean Air Act and the United State EPA's transportation conformity regulations 40 CFR part 93, subpart A and the air quality conformity process and agreement.

The FAMPO will provide all interested parties with a reasonable opportunity to comment on the proposed TIP pursuant to the Plan.

The TIP will be designed such that, once implemented, it makes progress toward achieving the performance-driven, outcome-based targets established under 23 CFR §450.306 (c) and (d). A description of how the investments make progress toward achievement of the targets in the Plan shall be included. The TIP will include, at minimum, the elements listed under 23 CFR 450.326 (e) through (h).

The FAMPO, State and Providers of Public Transportation, will cooperatively develop, share, review, and adopt estimates of costs and estimates of funds that are available or committed or reasonably expected to be available that are required for the financial plan that demonstrate fiscal constraint for the TIP as specified in 23 CFR 450.326 (j) & (k).

The selection of projects from the TIP by the FAMPO, State and Providers of Public Transportation will be made as specified in 23 CFR 450.332.

TIP amendments and administrative modifications will be consistent with the established Transportation Improvement Program development procedures, the Public Participation Plan, and federal requirements as specified in 23 CFR 450.328. The TIP is amended or modified on a monthly and sometimes even weekly basis, through staff approvals, FAMPO Steering Committee actions, or large-scale amendments brought to the FAMPO for adoption.

The FAMPO uses the committee structures and meeting schedules for the metropolitan transportation process, as needed and as described in Article 1 – Scope of the Performance-Based Metropolitan Transportation Planning Process, to meet the requirements of the TIP for the Region as specified in 23 CFR 450.326. The FAMPO coordinates with numerous planning processes at the local and state levels to help determine the content of the program. The FAMPO is guided by its own vision and priorities which in turn reflect federal policy guidance.

- go to next page -

Article 11
Annual Listing of Projects with Federal Funding Obligations

Annually, and no later than 90 days after the close of the program year, which concurs with the Transportation Improvement Program fiscal year, the FAMPO, State and Providers of Public Transportation will cooperatively develop a listing of projects from the TIP for which federal transportation funds were obligated in the preceding fiscal year. This report will contain the projects and financial information required by 23 CFR 450.334. This report will be made publicly available.

- go to next page -

Article 12
Self-Certification and Federal Certifications

The FAMPO and the State will certify that the metropolitan planning process for the Fredericksburg Area Region is being carried out in accordance with all applicable Federal requirements as specified in 23 CFR 450.336 and 23 CFR 450.330.

The FAMPO develops its self-certification statement describing how its metropolitan transportation planning process meets the federal requirements as specified in 23 CFR 450.336. This statement shall be approved concurrent with approval of the TIP.

- go to next page -

Article 13

Performance-Based Metropolitan Planning Process Responsibilities

The MPO

The FAMPO, in cooperation with the State and Public Transportation Provider(s), shall establish and use a performance-based approach in carrying out the region's metropolitan transportation planning process consistent with 23 CFR 450.306, and 23 CFR 490. The FAMPO shall integrate into the metropolitan transportation planning process, directly or by reference, the goals, objectives, performance measures, and targets described in applicable transportation plans and transportation processes, as well as any plans developed under 49 U.S.C. Chapter 53 by providers of public transportation required as part of a performance-based program. The FAMPO shall properly plan, administratively account for and document its performance based planning activities in the FAMPO UPWP.

The FAMPO shall develop, establish and update the federally required transportation performance targets that apply for the FAMPO metropolitan planning area in coordination with the State and the Public Transportation Provider(s) to the maximum extent practicable. The Policy Board shall adopt federal targets of the FAMPO not later than 180 days after the date on which the State and Public Transportation Provider(s) establish or update the Statewide and Public Transportation Provider(s) performance targets, respectively. No later than 21 days of the FAMPO deadline(s) for the selection of new or updated targets, for each federally required performance measure, the FAMPO shall formally notify the State and Public Transit Provider(s) of whether the FAMPO: 1) has selected "to contribute toward the accomplishment" of the statewide target selected by the State or Public Transit Provider(s), or 2) has identified and committed to meet a FAMPO specific quantitative target for use by the FAMPO in the FAMPO's planning area.

In the event that the FAMPO chooses to establish its own federal highway or transit performance measure quantitative target, then the FAMPO shall be responsible for its own performance baseline and outcome analyses, and for the development and submittal of special report(s) to the State for the FAMPO-specific highway and/or transit performance measure(s). Special reports from the FAMPO, should it choose its own highway or transit target(s) will be due to the State no later than 21 days from the date that the FAMPO is federally required to establish its performance target for an upcoming performance period. The special report(s) for each new or updated FAMPO-specific highway target or FAMPO-specific transit target shall be sent from the FAMPO to the State. The special report(s) shall include summary documentation on the performance analyses data and calculation methods, baseline conditions, FAMPO-specific quantitative target(s), and applicable outcome(s) regarding the latest performance period for the FAMPO-specific performance measure(s). For the MPOs which agree to plan and program projects "to contribute toward the accomplishment" of each of the statewide performance measure targets, the State will conduct the performance analyses for the MPO's metropolitan planning area inside the State and provide online summaries for each measure such that no special report to the State will be due from these MPOs.

If the FAMPO chooses to contribute to achieving the statewide performance target, the FAMPO shall, at minimum, refer to the latest performance measure analyses and summary information provided by the State, including information that was compiled and provided by the State on the metropolitan planning area's performance to inform the development of appropriate performance targets. The FAMPO may use State performance measures information and targets to update the required performance status reports and discussions associated with the Metropolitan Transportation Plan and/or TIP update or non-administrative modification. The FAMPO's transportation performance targets, recent performance history and status will be identified and considered by the FAMPO Policy Board in the development of the FAMPO Metropolitan Transportation Plan with its accompanying systems performance report required per 23 CFR 450.324, as well as in the development of the TIP with its accompanying description of the anticipated effect of the TIP toward achieving the performance targets, linking their TIP investment priorities to the performance targets as required per 23 CFR 450.326. The FAMPO Metropolitan Transportation Plan and its accompanying systems performance report, and/or the FAMPO TIP and its accompanying description of the anticipated effect of the TIP, shall directly discuss or reference the latest State performance measure status information available and posted online by the State regarding the metropolitan planning area at the time of the FAMPO Policy Board's review of the draft Metropolitan Transportation Plan or draft TIP.

The FAMPO will coordinate with each applicable Public Transportation Provider to ensure that all reporting requirements (as described in the Public Transportation Provider(s) section) are met.

The State

Distinct from the roles of the metropolitan Public Transportation Provider(s) with federal performance measures on transit (transit is the subject of the next section), the State is the lead party responsible for continuous highway travel data measurement and collection. The State shall measure, collect highway data and provide highway field data for use in federal highway related performance measure analyses to inform the development of appropriate federal performance targets, performance status reports, and asset management plans. FAMPO information from FAMPO-specific data analyses and reports might not be incorporated, referenced or featured in computations in the statewide performance data analyses or reports. The State shall provide highway analyses for recommending targets and reporting on the latest performance history and status not only on a statewide basis but also on the portion of the FAMPO metropolitan planning area, as applicable. The findings of the State's highway performance analyses will inform the development or update of statewide targets.

Information regarding proposed statewide targets for highway safety and non-safety federal performance measures will be presented to the Commonwealth Transportation Board (CTB) at the CTB's public meetings and related documents, including, but not limited to, presentations and resolutions, will be made publicly available on the CTB website. The FAMPO and Public Transportation Provider(s) shall ensure that they inform the State of any special data or factors that should be considered by the State in the recommendation and setting of the statewide performance targets.

All statewide highway safety targets and performance reports are annually due from the State to FHWA beginning August 31, 2017 and each year thereafter. The FAMPO shall report their adopted annual safety performance targets to the State for the next calendar year within 180 days from August 31st each year. The statewide highway non-safety performance two and/or four year targets are due for establishment from the State initially no later than May 20, 2018 for use with the state biennial baseline report that is due by October 1, 2018. The subsequent state biennial report, a mid-period report for reviews and possible target adjustments, is due by October 1, 2020. Thereafter, State biennial updates are cyclically due by October 1st of even numbered years with a baseline report to be followed in two years by a mid-period report. Using information cooperatively compiled from the MPOs, the State and the Public Transportation Providers, the State shall make publicly available the latest statewide and (each) MPO metropolitan planning area's federally required performance measure targets, and corresponding performance history and status.

The Public Transportation Provider(s)

For the metropolitan areas, Public Transportation Providers are the lead parties responsible for continuous public transit data measurement and collection, establishing and annually updating federal performance measure targets for the metropolitan transit asset management and public transportation agency safety measures under 49 U.S.C. 5326(c) and 49 U.S.C. 5329(d), respectively, as well as for updates that report on the public transit performance history and status. The selection of the performance targets that address performance measures within the FAMPO region, described in 49 U.S.C. 5326(c) and 49 U.S.C. 5329(d) shall be coordinated, to the maximum extent practicable, between the FAMPO, the State and each Public Transportation Provider to ensure consistency with the performance targets that each Public Transportation Provider establishes under 49 U.S.C. 5326(c) and 49 U.S.C. 5329(d). Information from each Public Transportation Provider on new or updated public transit asset management and safety performance targets for services within the FAMPO region, and data-reports on the public transit performance history and status relative to the targets is necessary for use and reference by the State and the FAMPO. Each Public Transportation Provider that receives federal funds shall annually update and submit their transit asset management targets and data-reports to the FTA's National Transit Database consistent with FTA's deadlines based upon the applicable Public Transportation Provider's fiscal year. The FAMPO will coordinate with each applicable Public Transportation Provider to ensure that each applicable Public Transportation Provider shall notify, and share their information concerning services in the FAMPO region on their targets and data-reports electronically with the State and FAMPO at the time that they share the annual information with FTA, and coordinate, as appropriate, to adequately inform and enable the FAMPO to establish and/or update metropolitan planning area transit target(s) no later than 180 days thereafter, as required by the performance-based planning process.

December 6, 2018
PRTC Regular Meeting
Res. No. 18-12-__

MOTION:

SECOND:

**RE: AUTHORIZATION TO ISSUE A REQUEST FOR PROPOSALS FOR GENERAL
ENGINEERING CONSULTANT SERVICES**

WHEREAS, the Potomac and Rappahannock Transportation Commission (PRTC) has a contract for General Engineering Consultant (GEC) services for facility and bus shelter projects; and

WHEREAS, the Commission awarded a contract to Whitman, Requardt and Associates, LLP, and Stantec (originally Greenhorne & O'Mara, Inc.) at the October 2012 meeting with a contract duration for as long as six (6) years; and

WHEREAS, PRTC's contract for GEC services will expire on December 12, 2018; and

WHEREAS, the Commission's adopted purchase policy requires a competitive procurement to arrange for additional engineering and design services.

NOW, THEREFORE, BE IT RESOLVED that the Potomac and Rappahannock Transportation Commission does hereby authorize the issuance of a request for proposals (RFP) for this purpose.

TO: Madam Chair Anderson and PRTC Commissioners

FROM: Betsy Massie *Betsy Massie*
Director of Grants and Project Management

THROUGH: Robert A. Schneider, PhD *AS*
Executive Director

SUBJECT: Request for Proposals for General Engineering Consultant Services

Recommendation:

Authorize the issuance of a request for proposals (RFP) to procure general engineering consultant services for facility and bus shelter related projects.

Background:

Since PRTC is not staffed to prepare site plan drawings and construction specifications for new projects, such work requires outside consulting assistance. In October 2012, the Commission authorized the award of a contract to Whitman, Requardt and Associates (WRA) and Greenhorne & O'Mara (later becoming Stantec) for such services, with a one year base period and five single year renewal options starting in December 2012.

All of the contract options have been exercised with the last one scheduled to expire on December 12, 2018.

The RFP will be fashioned to require the successful proposer to develop engineering plans for facility and bus shelter projects. Such engineering plans may include topographic surveying, the preparation of an easement plat, the development of a site plan, and the preparation of engineering specifications for construction and permits, depending on the site-specific conditions present. The RFP will also require proposers to include real property appraisal expertise since some locations may necessitate easement and/or fee simple property acquisitions by eminent domain for which appraisals would be necessary.

Madam Chair Anderson and PRTC Commissioners

December 6, 2018

Page 2

Fiscal Impact:

Work will be done on a task order basis utilizing budgeted state and local funding. Any task order over the Executive Director's authority will come back to the Commission for approval.

MOTION:

SECOND:

**RE: AUTHORIZATION TO EXERCISE CONTRACT OPTION TO ABC BUS, INC. FOR
MOTOR COACH INDUSTRIES (MCI) BUS OVERHAULS**

ACTION:

WHEREAS, the Potomac and Rappahannock Transportation Commission (“PRTC” or the “Commission”) was authorized in October 2016 to execute a contract with ABC Bus, Inc. for the overhaul of 17 MCI buses; and

WHEREAS, the contract with ABC Bus, Inc. was structured so that an option to overhaul additional buses could be awarded as additional funding became available; and

WHEREAS, subsequent funding has been secured to complete an additional six (6) vehicles.

NOW, THEREFORE, BE IT RESOLVED that the Potomac and Rappahannock Transportation Commission hereby authorizes the Executive Director to exercise the option to ABC Bus, Inc. for the overhaul of six (6) additional MCI buses.

Executive Director 

RE: Authorization to Exercise the Contract Option to ABC Bus, Inc. for Motor Coach Industries (MCI) Bus Overhauls

Recommendation:

Authorize the Executive Director to exercise the contract option to ABC Bus, Inc. for six (6) Motor Coach Industries (MCI) bus overhauls.

Background:

In October 2016, the PRTC Board authorized the Executive Director to award a contract for overhaul services for the Commission's 2007-2009 model year MCI buses. The initial authorization was for the overhaul of 17 MCI buses based on funding that was in-hand at the time, with the anticipation that further funding would be secured for the remainder of the buses, for a total of twenty-three (23) bus overhauls.

The contract was structured so that the additional six (6) buses were an option dependent on subsequent funding which has been secured from the Department of Rail and Public Transportation (DRPT) and we are now in a position to have the remaining six (6) buses overhauled by ABC Bus, Inc.

Fiscal Impact:

Attached

AUTHORIZATION TO EXERCISE CONTRACT OPTION TO ABC BUS, INC. FOR MOTOR COACH INDUSTRIES (MCI) BUS OVERHAULS

Fiscal Impact:

The project will be funded through a combination of state and local sources. Currently available funding totals \$1,786,772 including \$1,215,005 of state funding and \$571,767 of local funds. The proposed cost per bus, which includes a Bureau of Labor Statistics Producer Price Index increase, and applying the refreshed brand logo bus wrap, is \$288,313 for four (4) buses and \$283,017 for two (2) buses, which have different components.

Executive Director

SUBJECT: October System Performance and Ridership Report

OMNIRIDE Express and Metro Express Service

- October ridership increased 2.7 percent from September and 0.1 percent year over year.
- As has been the trend, Western ridership is growing, and as a result of current overcrowding, an additional morning trip has been added to the Gainesville-DC services.
- Ridership trends typically will begin tapering off during the upcoming holidays and winter months

OMNIRIDE Local Bus Service

- October average daily ridership increased 6.5 percent from September
- Western ridership increased slightly month over month, following similar patterns of the eastern service
- Continuing to monitor Saturday ridership and look at on-time performance of services for any potential changes to improve reliability and positive ridership impacts

Vanpool Alliance Program

- Enrollment stayed flat at 670 vans
- Passenger trips in October increased 10.4 percent from September and 2.4 percent year over year.

OmniMatch Program

Program Promotions:

- **10/03** – Live More Commute Less Mobility Fair – Reston Town Center, Reston, VA
- **10/03** – Hispanic Heritage Month Celebration – Hylton Performing Arts Center, Manassas, VA
- **10/09** - Fort Belvoir Newcomers Orientation
- **10/12** – PW SHRM (Society for Human Resource Managers) HR/Law Summit – Foxchase Manor, Manassas, VA
- **10/16** – Gainesville/Haymarket Business Leaders Meeting – Haymarket, VA
- **10/18** – Lockheed Martin Green Team Presentation – Manassas, VA
- **10/25** – Manassas Farmers Market – Harris Pavilion, Manassas, VA

Also participated in WMATA 2019 Metrorail platform work conference calls and hosted a regional vanpool forum for existing and prospective vanpool owner/operators.

Customer Service Statistics

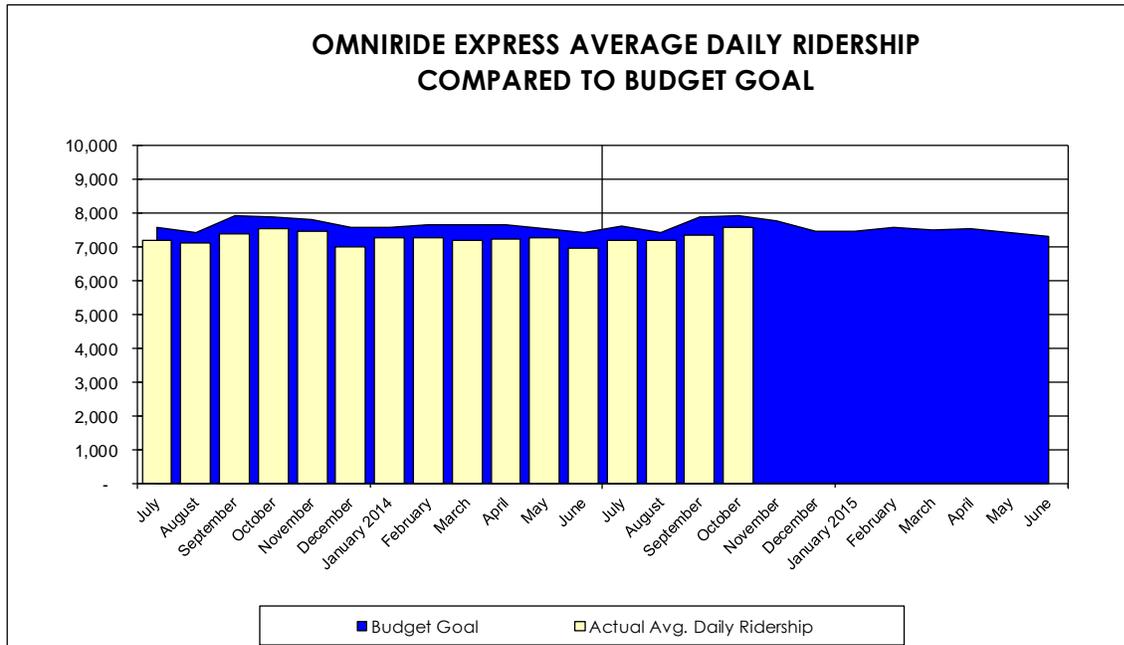

- The call center received 9,005 calls in October; the automated system handled 49 percent of those calls.
- Average wait time for remaining calls was 46 seconds.
- Responded to 55 general information emails in September
- Percentage of OMNIRIDE local trip denials increased to 38 compared to September

Passenger Complaints

- Complaint rate for OmniRide in September:
 - OMNIRIDE Express and Metro Express complaint rate increased 21% from this time in FY18
 - OMNIRIDE Local service complaint rate increased 58% compared to this time in FY18

December 6, 2018

TO: Madam Chair Anderson and PRTC Commissioners

FROM: Robert A. Schneider, PhD
Executive Director

A handwritten signature in black ink, appearing to read "R. Schneider", is placed to the right of the name and title in the "FROM:" field.

RE: Revised Purchasing Authority Report

On June 4, 2015, the Commission approved increasing the Executive Director's delegated purchasing authority from \$50,000 to \$100,000. It was resolved that any purchase of greater than \$50,000 would be communicated to the Board as an information item.

In October 2018 there were no purchase orders issued within the Executive Director's new spending authority.
