PARKING UTILIZATION

The total number of parking spaces used in the VRE system during the month, divided by the total number of parking spaces available.

AVERAGE DAILY RIDERSHIP

The average number of boardings each operating day inclusive of Amtrak Step-Up boardings but excluding "S" schedule operating days.

▲ Same month, previous year.

ON-TIME PERFORMANCE

Percentage of trains that arrive at their destination within five minutes of the schedule.

▲ Same month, previous year.

SYSTEM CAPACITY

The percent of peak hour train seats occupied.
The calculation excludes reverse flow and non-peak
hour trains.

OPERATING RATIO

The monthly operating revenues divided by the monthly operating expenses, which depicts the percent of operating costs paid by the riders.

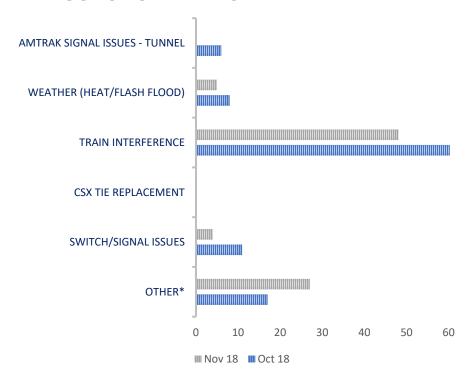

• Board-established goal.

ON-TIME PERFORMANCE

OUR RECORD

	November 2018	October 2018	November 2017
Manassas Line	82%	87%	89%
Fredericksburg Line	91%	84%	93%
System Wide	86%	86%	91%

REASONS FOR DELAYS

*Includes trains that were delayed due to operational testing and passenger handling.

VRE operated 624 trains in November.

Our on-time rate for November was 86%.

Eighty-five of the trains arrived more than five minutes late to their final destinations. Fifty-seven of those late trains were on the Manassas Line (82%), and twenty-eight of those late trains were on the Fredericksburg Line (91%).

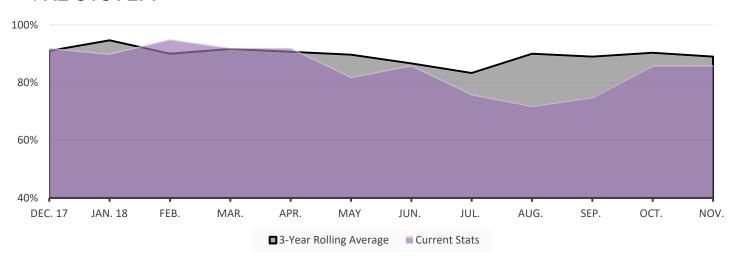

While the Fredericksburg Line was over 90%, the Manassas Line finished below goal. Interference was cited as the largest single contributor to late trains. This month saw a higher rate of delay to our reverse flow trains, causing late turns at the terminals. This accounts for the lower rate on the Manassas side.
